

**SUPPORTING STATEMENT FOR  
Application for Civil Surgeon Designation  
OMB Control No.: 1615-0114  
COLLECTION INSTRUMENT(S): I-910**

**A. Justification**

- 1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.**

Section 212(a)(1) of the Immigration and Nationality Act (Act) renders individuals inadmissible if the individual is afflicted with the statutorily mentioned diseases or medical conditions. In order to establish that the individual is admissible when seeking adjustment of status to a legal permanent resident (and in certain cases other aliens seeking an immigration benefit), the individual must submit Form I-693, Report of Medical Examination and Vaccination Record, that is completed by a USCIS-designated physician, or “civil surgeon.” The statutory basis for civil surgeons and the medical examination of aliens is contained in section 232 of the INA and 8 CFR 232.2. To be selected as a civil surgeon, the physician has to demonstrate that he or she is a licensed physician with no less than 4 years of professional experience. Civil surgeons are currently designated by USCIS District Directors.

To apply for civil surgeon designation, USCIS requires a civil surgeon to submit the following information:

- A letter to the District Director requesting consideration,
- A copy of a current medical license (in the state in which the physician seeks to complete immigration medical examinations),
- A current resume that shows at least 4 years of professional experience (not including residency or medical school), and

Two signature cards showing the physician’s name and signature

- 2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

This information collection is required to determine whether a physician meets the statutory and regulatory requirement for civil surgeon designation. For example, all documents are reviewed to determine whether the physician has a currently valid medical license and whether the physician has had any action taken against him or her by the medical licensing authority of the state in which he or she practices. If the civil surgeon designation request is accepted, the physician is included in USCIS' public Civil Surgeon

locator and is authorized to complete Form I-693 (OMB Control Number 1615-0033) for an applicant's adjustment of status.

- 3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.**

The form I-910 is available online from [www.uscis.gov/forms](http://www.uscis.gov/forms) for completion. The form cannot be submitted electronically at this time. There is no estimated date of when the form may become available for submission electronically.

- 4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

The information collected via the I-910 is used specifically to determine if a respondent meets the requirements set forth to be identified as a civil surgeon; there is no other collection of information that has the necessary information to adjudicate this issue. There is no duplication of information collection via another form.

- 5. If the collection of information impacts small businesses or other small entities (Item 5 of OMB Form 83-I), describe any methods used to minimize burden.**

This information collection impacts physicians who can be a small business. USCIS has made every effort to minimize the impact on the respondents by reducing the information collection to the minimal amount possible to adjudicate the request.

- 6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.**

If the information is not collected, USCIS will be unable to adjudicate requests by physicians for civil surgeon designation. The information collection enables USCIS to effectively adjudicate requests made by physicians for civil surgeon designation and ensures that physicians serving USCIS and its applicants meet the statutory requirements governing civil surgeon designation.

- 7. Explain any special circumstances that would cause an information collection to be conducted in a manner:**

- Requiring respondents to report information to the agency more often than quarterly;**

- **Requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**
- **Requiring respondents to submit more than an original and two copies of any document;**
- **Requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
- **In connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;**
- **Requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**
- **That includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
- **Requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

This information collection is conducted in a manner consistent with the guidelines in 5 CFR 1320.5(d)(2).

8. **If applicable, provide a copy and identify the data and page number of publication in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.**

**Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.**

**Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years - even if the collection of information activity is the same as in prior periods. There may be**

**circumstances that may preclude consultation in a specific situation. These circumstances should be explained.**

On July 1, 2015 USCIS published a 60-day notice in the Federal Register at 80 FR 37648. USCIS did not receive comments after publishing that notice. On October 7, 2015 USCIS published a 30-day notice in the Federal Register at 80 FR 60697. USCIS did not receive comments.

**9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.**

USCIS does not provide any payment for benefit sought.

**10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation or agency policy.**

There is no assurance of confidentiality. The collection of information is covered under the Privacy Impact Analysis USCIS Benefits Processing of Applicants other than Petitions for Naturalization, Refugee Status, and Asylum dated September 5, 2008. The collection of information is also covered under the System of Records Notice United States Citizenship and Immigration Services Benefits Information System Published on September 29, 2008 at 73 FR 56596. An additional System of Records Notice that covers this collection of information is U.S. Citizenship and Immigration Services, U.S. Immigration and Customs Enforcement, U.S. Customs and Border Protection – 001 Alien File, Index, and National File Tracking Systems of Records Notice.

**11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

There are no questions of a sensitive nature.

**12. Provide estimates of the hour burden of the collection of information. The statement should:**

- **Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity,**

show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.

- **If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.**
- **Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.**

Type of Respondent	Form Name / Form Number	No. of Respondents	No. of Responses per Respondent	Avg. Burden per Response (in hours)	Total Annual Burden (in hours)	Avg. Hourly Wage Rate*	Total Annual Respondent Cost
Business or other for-profit	Application for Civil Surgeon Designation / I-910	725	1	2	1,450	\$127.22	\$184,469
<b>Total</b>		<b>725</b>			<b>1,450</b>		<b>\$184,469</b>

\* The above Average Hourly Wage Rate is the [May 2014 Bureau of Labor Statistics](#) average wage for Physicians and Surgeons of 91.23 times the wage rate benefit multiplier of 1.4 (to account for benefits provided) equaling \$127.22. When "All Occupations" is selected, include the following language: "The selection of "All Occupations" was chosen as the expected respondents for this collection could be expected to be from any occupation."

- 13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).**
- **The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing**

computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities.

- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.
- Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995; (2) to achieve regulatory compliance with requirements not associated with the information collection; (3) for reasons other than to provide information or keep records for the government; or, (4) as part of customary and usual business or private practices.

There is an estimated cost of \$3,625 associated with the mailing of this form to USCIS. This estimated cost is based on an average cost of postage of \$5 for each respondent. *For informational purposes, there is a fee of \$615 associated with this collection.*

14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

There is a cost to the Federal government of \$567,645 which is calculated by multiplying the number of respondents (923) by the fee (\$615).

15. Explain the reasons for any program changes or adjustments reporting in Items 13 or 14 of the OMB Form 83-I.

Data collection Activity/Instrument	Program Change (hours currently on OMB Inventory)	Program Change (New)	Difference	Adjustment (hours currently on OMB Inventory)	Adjustment (New)	Difference
-------------------------------------	---	----------------------	------------	---	------------------	------------

I-910				923	725	(258)
<b>Total(s)</b>				<b>923</b>	<b>725</b>	<b>(258)</b>

There is a decrease in the estimated annual hour burden associated with the updated estimate of the number of respondents to this collection of information.

Data collection Activity/Instrument	Program Change (cost currently on OMB Inventory)	Program Change (New)	Difference	Adjustment (cost currently on OMB Inventory)	Adjustment (New)	Difference
I-910				0	3,625	3,625
<b>Total(s)</b>				<b>0</b>	<b>3,625</b>	<b>6,625</b>

There is an increase in the estimated cost to the respondents as USCIS has reported a value where the last submission did not.

- 16. For collections of information whose results will be published, outline plans for tabulation, and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

This information collection will not be published for statistical purposes.

- 17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

USCIS will display the expiration date for OMB approval of this information collection.

- 18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submission," of OMB 83-I.**

USCIS does not request an exception to the certification of this information collection.

**B. Collections of Information Employing Statistical Methods.**

There is no statistical methodology involved with this collection.
