

**SUPPORTING STATEMENT FOR NEW AND
REVISED INFORMATION COLLECTIONS**

**Conflicts of Interest Policies and Procedures by Swap Dealers and Major Swap
Participants**

OMB CONTROL NUMBER 3038-0079

Justification

- 1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.**

Section 731 of Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act, Pub L. No. 111-203, 124 Stat. 1376 (2010)) amended the Commodity Exchange Act (CEA) to add section 4s(j)(5) (7 U.S.C. 6s(j)(5)) which requires that each swap dealer and major swap participant implement conflicts of interest systems and procedures which: (1) establish structural and institutional safeguards within the firm to ensure that any person researching or analyzing the price or market for any commodity or swap, acting in a role of providing clearing activities, or making determinations as to accepting clearing customers are separated by appropriate informational partitions within the firm from the review, pressure or supervision of persons whose involvement in pricing, trading, or clearing activities might potentially bias their judgment or supervision or contravene the core principles of open access or the business conduct standards set forth in the CEA, and (2) address other issues that the Commission determines to be appropriate.

Accordingly, the Commission has adopted regulation 23.605, requiring swap dealers and major swap participants to adopt and implement conflicts of interest procedures and disclosures, to establish written policies and procedures reasonably designed to ensure compliance with the conflicts of interest and disclosure obligations within the regulations, and to maintain specified records related to those requirements. The regulation does not require reporting to the Commission.

The information collection obligations imposed by the regulation are essential to ensuring that swap dealers and major swap participants develop and maintain the conflicts of interest systems, procedures and disclosures required by the CEA and Commission regulations, and to the effective evaluation of their actual compliance with the CEA and Commission regulations.

- 2. Indicate how, by whom, and for what purpose the data would be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

The required records will be used by Commission staff to evaluate the completeness and effectiveness of the conflicts of interest procedures and disclosures of swap dealers and major swap participants.

3. **Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.**

The regulation requires that recordkeeping be performed in accordance with Commission regulation 1.31, which permits the use of electronic storage media.

4. **Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

The required information is not already collected by the Commission for any other purpose, collected by any other agency, or available for public disclosure through any other source.

5. **If the collection of information involves small business or other small entities (Item 5 of OMB From 83-1), describe the methods used to minimize burden.**

The collection of the required information does not involve any small businesses or small entities.

6. **Describe the consequence to the Federal Program or policy activities if the collection were conducted less frequently as well as any technical or legal obstacles to reducing burden.**

The regulation does not impose any reporting requirements.

Failure to maintain the policies, procedures and other records required by the regulation would adversely affect the Commission's ability to ensure the compliance of swap dealers and major swap participants with their conflicts of interest obligations under the CEA and Commission regulations.

7. **Explain any special circumstances that require the collection to be conducted in a manner:**

- **requiring respondents to report information to the agency more often than quarterly;**

This question does not apply. The regulation does not impose reporting requirements.

- **requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it:**

This question does not apply.

- **requiring respondents to submit more than an original and two copies of any document;**

This question does not apply. The regulation does not impose reporting requirements.

- **requiring respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records, for more than three years;**

Commission regulation 1.31 expressly requires that:

All books and records required to be kept by the [CEA] or by [Commission] regulations shall be kept for a period of five years from the date thereof and shall be readily accessible during the first 2 years of the five-year period. All such books and records shall be open to inspection by any representative of the commission or the United States Department of Justice.

- **in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;**

This question does not apply. The regulation neither requires nor involves any statistical surveys.

- **requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**

This question does not apply. The regulation neither requires nor involves the use of any statistical data classification.

- **that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**

This question does not apply. The regulation does not require a pledge of confidentiality.

- **requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

This question does not apply. The regulation does not impose reporting requirements. In any event, the Commission has promulgated regulations to protect the confidentiality of any information collected from respondents. Such regulations are set forth in 17 CFR Part 145.

8. **If applicable, provide a copy and identify the date and page number of publication in the *Federal Register* of the agency's notice required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by**

the agency in response to these comments. Specifically address comments received on cost and hour burden.

A copy of the Federal Register notice soliciting comments on this information collection (80 FR 47478, August, 7, 2015) is attached. No comments were received.

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping disclosure, or reporting format (if any, and on the data elements to be recorded, disclosed, or reported).

As set forth above, the Commission affirmatively sought comments on the extension of information collection requirements described herein.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years - even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

No such circumstances are anticipated.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

This question does not apply.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulations, or agency policy.

The Commission will protect proprietary information according to the Freedom of Information Act and the regulations that the Commission has promulgated to protect the confidentiality of collected information contained in 17 CFR 145, "Commission Records and Information." In addition, section 8(a) of the CEA provides for the confidentiality of data and information except under the limited circumstances delineated therein. The Commission also is required to protect certain information pursuant to the Privacy Act of 1974.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

This question does not apply. The regulation does not request nor require the provision of sensitive information, as that term is used in question 11.

12. Provide estimates of the hour burden of the collection of information. The Statement should:

- **Indicate the number of respondents, frequency of response, annual hour burden and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than ten) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.**
- **If the request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.**
- **Provide estimates of annualized cost to respondents for the hours burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 13.**

See Attachment A.

The annualized costs per affected registrant and in the aggregate were determined using an average salary of \$100.00 per hour. The Commission believes that this is an appropriate salary estimate for purposes of this regulation.

In support of this determination, the Commission notes that the salary estimate is based upon May 2014 Bureau of Labor Statistics' findings of National Occupation Employment and Wage Estimates, United States¹, including the mean hourly wage of an employee under occupation code 23-1011, "Lawyers," that is employed by the "Securities and Commodity Contracts Intermediation and Brokerage Industry," which is \$96.49; the mean hourly wage of an employee under occupation code 11-3031, "Financial Managers," in the same industry, which is \$87.16; and the mean hourly wage of an employee under occupation code-13-1041, "Compliance Officers" in the same industry, which is \$43.98.² The Commission also notes that, the Commission took the foregoing data and then increased its hourly wage estimate in recognition of the fact that some swap dealers/major swap participants may be large financial institutions whose employees' salaries may exceed the mean wage. The Commission also observes that the Securities Industry and Financial Markets Association's Report on "Management & Professional Earnings in the Securities Industry – 2013" estimates the average wage of a compliance attorney or compliance staffer (including chief compliance officers and directors of compliance) in the United States at only \$53.71 per hour. The Commission recognizes that some swap dealers or

¹ See http://www.bls.gov/oes/current/oes_nat.htm.

²

major swap participants may hire outside counsel with expertise in the various regulatory areas covered by the combined final regulations and that outside counsel may be able to leverage its expertise to substantially reduce the number of hours needed to fulfill a requested assignment. While the Commission is uncertain about the billing rates that swap dealers and major swap participants may pay for outside counsel, the Commission believes that such counsel may bill at a rate of several hundred dollars per hour. Any determination to use outside counsel, however, is at the discretion of the swap dealer or major swap participant.

The Commission estimates the overall burden to be 44.5 hours per year per swap dealer and major swap participant, at an annual cost of \$4,450 [44.5 × \$100 per hour]. The aggregate cost for all swap dealers and major swap participants is 5,562.5 burden hours and \$556,250 [5562.5 × \$100 per hour]. This burden results from the recordkeeping obligations related to a swap dealer's and major swap participant's obligations to adopt and implement written policies and procedures reasonably designed to ensure compliance with the regulation, document certain communications between non-research personnel and research department personnel, and provide certain disclosures. The burden relates solely to recordkeeping requirements; the regulation does not contain any reporting requirements. The burden hours are not anticipated to vary widely among registrants.

Recordkeeping Related to Maintenance of Conflicts of Interest Policies and Procedures. This estimate includes the time needed to review applicable laws and regulations and to develop and update conflicts of interest policies and procedures.

Number of registrants: 125

Average number of annual responses by each registrant: 1

Estimated average hours per response: 2

Frequency of collection: Annually

Aggregate annual burden: 125 registrants x 1 response x 2 hours = 250 burden hours

Recordkeeping Related to Communications Between Certain Personnel

Number of registrants: 125

Average number of annual responses by each registrant: 20

Estimated average hours per response: 0.5

Frequency of collection: As needed

Aggregate annual burden: 125 registrants x 20 responses x 0.5 hours = 1,250 burden hours

Recordkeeping Related to Disclosure Requirements

Number of registrants: 125

Average number of annual responses by each registrant: 65

Estimated average hours per response: 0.5

Frequency of collection: As needed

Aggregate annual burden: 125 registrants x 65 responses x 0.5 hours = 4,062.5 hours

Based upon the above, the aggregate cost for all registrants is 5,562.2 burden hours and \$556,250 [5,562.5 burden hours x \$100 per hour].

13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).

- **The cost estimate should be split into two components; (a) a total capital and start-up cost component (annualized over its expected useful life) and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major costs factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software, monitoring, sampling, drilling and testing equipment, and record storage facilities.**
- **If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate, agencies may consult with a sample of respondents (fewer than ten), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.**
- **Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.**

The information collection required by the regulation does not involve any capital or start-up capital, operations or maintenance costs as the Commission anticipates that swap dealers and major swap participants already maintain mechanisms to preserve records of their compliance with regulatory requirements as part of their customary or usual business practices.

14. Provide estimates of the annualized costs to the Federal Government. Also provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing and support staff), and any other expense that would not have been incurred without this collection of information. Agencies may also aggregate cost estimates from Items 12, 13, and 14 in a single table.

The regulation does not impose any regular reporting requirements. Accordingly, the regulation would not impose any additional costs to the Federal Government.

- 15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB Form 83-I.**

This question does not apply.**16. For collection of information whose results are planned to be published for statistical use, outline plans for tabulation, statistical analysis, and publication. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

This question does not apply.

- 17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

This question does not apply.

- 18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submissions," of OMB Form 83-I.**

This question does not apply.

Attachment A

Part 23 – Conflicts of Interest Policies and Procedures by Swap Dealers and Major Swap Participants

OMB Collection File 3038-0079

Number of Registrants	125
Estimated Average Burden Hours Per Registrant	44.5
Estimated Annual Cost Per Registrant	\$4,450
Estimated Aggregate Burden Hours	5,562.5
Estimated Aggregate Cost	\$556,250
% of Responses Collected Electronically	N/A (No reporting requirements)
Frequency of Recordkeeping/ Third-party Disclosure	As applicable

Requirement	Estimated # of Registrants Per Year	Average # of Annual Responses Per Registrant	Total #Annual Responses	Estimated Average # of Hours Per Response	Estimated Total # of Hours of Annual Burden in Fiscal Year	Estimated Annual Cost Per Registrant
