

Requesting five non-substantive changes to OMB 3206-0259, INV 100, Expiration Date 5-31-2016.

1. We added Section 5: Identity Source Documentation to align more consistently with the INV 100A form.
2. Slight modifications to Section 1: Type of Request, referencing Section 5 as a necessary section to complete in order to fulfill the request.
3. We changed "US Mail" to "Hardcopy Mail" in Section 2
4. We added a "*" next to Secure email and provided a footnote in the applicable section defining what secure email is in Section 2.
5. We changed "Signature" to "Handwritten Signature" to provide clarity since we don't accept .pdf digital signatures.
