Thank you for your interest in the Mobile Messaging Intervention for Men Who Have Sex With Men study, which is focused on learning more about how to craft effective sexual health messages for men who have sex with men. We would like to let you know that funding for this study is provided by the Centers for Disease Control and Prevention. To find out if you are eligible for this study, we need to ask you a few questions. It should not take more than 4 minutes. Some of these questions are personal, including questions about sexual activity and HIV status. Answering these questions is completely voluntary and you can refuse to answer a question or stop at any time. If you answer the questions and we determine that you are eligible, you will then be offered the opportunity to participate in the research study, which includes coming to the study site to take part in either a 90-minute focus group discussion or a 90-minute interview about similar topics. If you complete one of the longer 90-minute activities, you will receive a \$40 as a token of appreciation. Would you like to continue to see if you are eligible for this study?
