[IF ELIGIBLE]

Interviewer: Great! Based on your answers, you qualify to participate in our study, which is funded by the Centers for Disease Control and Prevention (CDC). Let me tell you a little bit more about what that entails.

We are doing a research study about the parts of transgender youth’s lives that help them to be strong, happy, and healthy. A research study is a way to learn more about people. This research study will help scientists understand more about the health and wellbeing of transgender and other gender variant youth. If you decide that you want to be part of this study, we will invite you to take part in an interview with a member of our study team. Interviews last between 60 and 90 minutes. We will audiotape the interview to make sure we get all your words right. During the interview, we will talk to you about what in your life helps you to feel strong, happy, and healthy. If at any time you decide you do not want to continue, you are allowed to stop the interview. Your answers will be kept private and will be identified only by an assigned number, and not your name, in documentation. When you finish the interview, we will give you a \$50 gift card as a thank you for participating in this research study. Does that sound like something you would like to participate in?

[IF YES] Great, let’s set up a time for your interview. [SCHEDULE INTERVIEW]. Thank you! Additionally, we like to give folks a reminder email or call the day before the interview. Is there an email address or cell phone number that would be best to reach you for a reminder?
