

Institutional Review Board Certification

Amendment Approval – Expedited Review

Principal Investigator/Project Director: Stuart Michaels

Department: Public Health/ARC

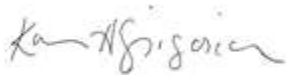

IRB Protocol Number: 16.01.04

Project Number: 7836

Protocol: Developing tools to engage adolescent men who have sex with men

Amendment description: 1. Additional draft advertisements have been developed to promote recruitment of questioning youth who may not identify strongly with overtly GBT advertisements. 2. Web survey has been revised to incorporate question specific to the young transgender population. Additional survey revisions were made based on feedback from CDC (client), research advisory panel, and internal review and testing. 3. As part of the earlier transgender survey modification, the pilot period will be expanded to four weeks and up to 100 subjects.

This certifies approval of the amendment described above by the NORC Institutional Review Board (IRB00000967), using the expedited review process as described in 45 CFR 46.110(b), under its Federalwide Assurance #FWA00000142, which is valid through July 10, 2018.
