

Institutional Review Board Certification

Initial Submission -- Full Board Approval

Principal Investigator/Project Director: Stuart Michaels

Department: Public Health/Academic Research Center

IRB Protocol Number: 16.01.04

Project Number: 7836

Protocol Title: Developing Tools to Engage Adolescent Men Who Have Sex with Men (AMSM)

Expiration Date*: 3/20/2017

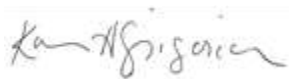

This certifies that the research protocol and consent documents described above have been approved by the NORC Institutional Review Board (IRB00000967), under its Federalwide Assurance #FWA00000142, which is valid through July 10, 2018.

For the inclusion of minors the risk determination approved under Subpart D is 406 (more than minimal risk).

The IRB has approved a waiver of documentation of consent and due to the sensitive nature of this project, has also approved a waiver of parental consent under 45 CFR 46.116(d).

Any amendments or other changes to this protocol must be submitted for review by the NORC IRB, and all adverse events must be reported to the NORC IRB.

The IRB has approved your research for a period of 12 months. To avoid a lapse in IRB approval, please submit your continuing review materials to the IRB at least 2 weeks prior to the expiration date listed above. **Although the IRB will provide reminders to you about renewing your study's approval as you near the expiration date, it is the responsibility of the principal investigator and project director to ensure that IRB approval does not lapse and that continuing review materials are submitted before a study's approval expires.**

Karen H. Grigorian, IRB Chair
