<u>Type of Change</u>	<u>Current Question/Item</u>	<u>Requested Change</u>
M	The next seven questions are about the use of cigars, cigarillos or little cigars such as Black and Mild, Swisher Sweets, Dutch Masters, White Owl, or Phillies Blunts.	We request to change the preamble of the cigar section to reflect the deletion of three questions.  New preamble is below:  The next four questions are about the use of cigars, cigarillos or little cigars such as Black and Mild, Swisher Sweets, Dutch Masters, White Owl, or Phillies Blunts.
D	17. Have you ever been curious about smoking a cigar, cigarillo, or little cigar such as Black and Mild, Swisher Sweets, Dutch Masters, White Owl, or Phillies Blunts? A. Definitely yes B. Probably yes C. Probably not D. Definitely not	We request to delete the question. To maintain the length of the survey and to keep respondent burden the same, OSH/CTP periodically delete questions to allow for the addition of new or alternate questions.
D	19. Do you think that you will try a cigar, cigarillo or little cigar soon? A. Definitely yes B. Probably yes C. Probably not D. Definitely not	We request to delete the question. To maintain the length of the survey and to keep respondent burden the same, OSH/CTP periodically delete questions to allow for the addition of new or alternate questions.
D	20. If one of your best friends were to offer you a cigar, cigarillo or little cigar, would you smoke it? A. Definitely yes B. Probably yes C. Probably not D. Definitely not	We request to delete the question. To maintain the length of the survey and to keep respondent burden the same, OSH/CTP periodically delete questions to allow for the addition of new or alternate questions.

O	23. During the past 30 days, on the days that you smoked, about how many cigars, cigarillos, or little cigars did you smoke per day? A. I did not smoke cigars, cigarillos, or little cigars during the past 30 days B. Less than 1 cigar, cigarillo or little cigar per day C. 1 per day D. 2 to 5 per day E. 6 to 10 per day F. 11 to 20 per day G. More than 20 per day	We request to change the order of the question from Q23 to Q21.
M	The next three questions are about the use of chewing tobacco, snuff or dip. Do not think about snus when you answer these questions.	We request to change the preamble of the smokeless tobacco section to clarify the exclusion of dissolvable tobacco products.  Proposed preamble is below:  The next three questions are about the use of chewing tobacco, snuff, or dip. Do not think about snus or dissolvable tobacco products when you answer these questions.
O	24. Have you ever used chewing tobacco, snuff, or dip, such as Redman, Levi Garrett, Beechnut, Skoal, Skoal Bandits, or Copenhagen, even just a small amount? A. Yes B. No	We request to change the order of the question from Q24 to Q22.
O	25. How old were you when you used chewing tobacco, snuff, or dip for the first time? A. I have never used chewing tobacco, snuff, or dip B. 8 years old or younger C. 9 years old D. 10 years old E. 11 years old F. 12 years old G. 13 years old H. 14 years old I. 15 years old J. 16 years old K. 17 years old L. 18 years old M. 19 years old or older	We request to change the order of the question from Q25 to Q23.

M	Not applicable – modified question	<p>We request addition of a modified question for e-cigarettes. This question is an incremental modification of a question that appears in previous cycles of NYTS for cigarettes and in an earlier section of proposed questionnaire (proposed question 9). Cognitive testing on previous cycles showed that youth understood what is meant by each product.</p> <p>Proposed modified question is below:</p> <p>28. Do you think you will use an e-cigarette in the next year?</p> <p>A. Definitely yes  B. Probably yes  C. Probably not  D. Definitely not</p>

The removal of 'electronic cigarettes' from the question is requested because cognitive testing from PATH demonstrated that use of e-cigarettes alone in the preamble was well understood. We also request to add a '/' between 'refillable' and 'tank kind' both in the question and in the response option. This is to reflect that rechargeable, refillable and tank descriptors applied to e-cigarette cannot necessarily be differentiated.</p> <p>Proposed new order and modified question is below:</p> <p>34. O, M, I	<p>38. Have you ever used an electronic cigarette or e-cigarette device for any other substance other than for nicotine?</p> <p>A. Yes B. No</p>	<p>We request to change the order of the question from Q38 to Q37 and modify the question by deleting 'other than for' and updated it with 'besides'. We request to further modify the question by removing 'electronic cigarettes' from the question. The removal of 'electronic cigarettes' from the question is requested because cognitive testing from PATH demonstrated that use of e-cigarettes alone in the preamble was well understood. Also we request to update the response categories to be able to better understand what other substances are being used in these devices given changes in the regulatory landscape. States are beginning to legalize marijuana for medical and recreational purposes which may be impacting the use of these substances among youth. Data show an increase in exclusive current marijuana use among youth and current use of marijuana among current combustible tobacco users<sup>1</sup>. Other data have shown significant use of substances other than nicotine in these devices<sup>2</sup>. Cognitive testing demonstrated that youth understood the previously approved question to mean other substances beyond just nicotine containing liquid (the main substance that came up was marijuana but there was also mentioned of crack cocaine). In addition we request to modify the instructions to add 'Select one or more' to align to the way other questions that allow multiple selections have these instructions asked.</p> <p>Proposed new order and modified question is below:</p> <p>37. Have you ever used an e-cigarette device with a substance besides nicotine? (Select one or more)</p> <p>A. Yes, I have used an e-cigarette device with Marijuana, THC or hash oil, or THC wax B. Yes, I have used an e-cigarette device with another substance that is not marijuana, THC or hash oil, or THC wax C. No, I have only used an e-cigarette device with nicotine D. No, I have never used an e-cigarette device E. Don't Know / Not Sure</p>
N	Not applicable - new preamble	<p>We request the addition of a new preamble for the hookah section of the questionnaire. Cognitive testing on previous cycles showed that youth understood the general constructs that were being asked and that they also understood what is meant by each tobacco product. The new preamble is adapted from the PATH study.</p> <p>The next eight questions are about smoking tobacco in a hookah, which is a type of waterpipe. Shisha (or hookah tobacco) is smoked in a hookah.</p>
