Appendix I Advance Notice of Study from
USYSoccer

Current Question/Item

We will send a short personalized e-mail to the club president and to the coach and parent liaison of each selected team letting them know that their team has been selected and that they can expect to receive information about the study (see draft example in Attachment P). We will then send a packet that will include the endorsement letter from USYSA, a description of the study, and informational flyers that the parent liaison may distribute to the team parents (Attachments I and J). People receiving these packets will also be invited to attend a Webinar we will host, where they can view a brief presentation and voice any questions or concerns they may have about participation.

Letter included in recruitment packet

Requested Change

We will send a short personalized e-mail to the club president and to the coach and parent liaison of each selected team letting them know that their team has been selected and that they can expect to receive information about the study (see draft example in Attachment P). We will then send a packet that will include a description of the study, and informational flyers that the parent liaison may distribute to the team parents (Attachment J).

Letter not included in recruitment packet
