 Upload performance assessment data that supports it. How often. Every 6 months.
 EL fills out.
 for reviewing the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Instructions: The Implementation Quotient Tracker is designed to facilitate the calculation of a grantee's "implementation quotient". The implementation quotient is used to quantify the progress that a grantee has made toward implementation of the prescribed initiative. The implementation quotient is calculated by completing the table below on a quarterly basis beginning six months after the start of the summative evaluation. Each administration will take the individual designated to complete the table approximately 1.5 hours. Completion of the tracker is voluntary and participation can be discontinued at any time without penalty of risk. The information in the spreadsheet will be kept private to the extent permitted by law. When the tracker is submitted to the PII evaluation team the "Practitioner ID" column should be removed to ensure privacy. The grantee must keep a copy of the Implementation Quotient Tracker with the "Practitioner ID" column for their records. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.
