YOUTH ASSENT TO PARTICIPATE IN ASSESSMENT AND QUALITATIVE INTERVIEW

To be printed on Westat Letterhead

Westat, a research company, is inviting you to participate in a research study about specialized services being offered by a group working with the Los Angeles County Department of Children and Family Services (DCFS). Please read this form along with me carefully before you make a decision to participate.

What is a research study?

A research study is when people collect information to understand something better.

Why is Westat doing this study?

We want to find out if the specialized services being offered are helpful to children and youth. Your answers will help us to know if these services can possibly help other children and families.

Why are you talking to me about this study?

You and other kids were selected to participate in the study because you are eligible for the services.

What will happen if I am in this study?

If you agree to be in the study, you will meet with a researcher today who will ask you questions about yourself and your family, your experiences receiving the specialized services, and your experiences with your caseworker. After today, the researcher will come back to ask you questions about yourself and your family up to five more times. The questions will take about 1 hour to answer each time the researcher meets with you. This is not a test and there are no right or wrong answers.

Do I get anything for being in the study?

Yes. You will get a \$15 gift card each time you meet with the researcher.

Are there any risks or discomforts to being in the study?

Some questions may be uncomfortable to answer. If any of the questions make you feel upset or sad, you can talk with your caseworker. You can also ask to skip any of the questions. You can end the interview at any time.

Will what I share in the study be kept private?

We will keep your information private. Nobody can know your answers unless you decide to talk to them about it later. The Westat researcher will always meet with you in a private place. We will not include any information that identifies you and your family in any reports we write.

This study has a special Privacy Certificate from the U.S. Government called a Certificate of Confidentiality. This means that no one can make us reveal your identity or give out information collected in this study. But this study will follow a Court request that was made. The Court said that if you agree to be in the study, we will need to give a signed copy of this form to DCFS. We will give a signed copy to the DCFS Evaluation Liaison. The liaison is the person who helped your caseworker complete paperwork for RISE. We will not share any other information collected during the study with your foster care caseworker. The only other time we will share information is if you tell us that someone has hurt you or that you want to hurt yourself or someone else. We will report this to the government agency that investigates these reports. To make sure the researchers are following rules when asking you questions, another researcher may sit in on your interview. If another researcher wants to sit in, we will let you know and ask you to agree first.

Do I have to be in the study?

You do not have to be in the study. No one will get mad at you if you do not want to be in the study. Your decision will not affect the services you currently receive.

The collection of information described in this assent is voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 0970-0408 and it expires XX/XX/XXXX.

Supporting/Rejecting Perceptions Survey

[NOTE: READ THE FOLLOWING STATEMENT OUT LOUD TO THE YOUTH:]

We are doing a study about youth in foster care who are Lesbian, Gay, Bisexual, Transgender, or Questioning their sexual orientation. We want to know if some people these youths know accept or reject them being Lesbian, Gay, Bisexual, Transgender, or Questioning—LGBTQ for short.

[HAND THE YOUTH THE RATING SCALE CARD]

I am going to ask you about some people in your life. The five numbers on this card rate how much the people in your life act like they accept or reject you being **[INSERT YOUTH’S SEXUAL ORIENTATION AND/OR GENDER IDENTITY]**. For each person, tell me the number that best matches how much he or she rejects or accepts you being **[INSERT YOUTH’S SEXUAL ORIENTATION AND/OR GENDER IDENTITY]**.

NOTE: IF THIS IS A FOLLOW-UP, ASK YOUTH TO INDICATE EACH OF THE FOLLOWING PEOPLE’S REACTION TO HIS/HER BEING [INSERT YOUTH’S SEXUAL ORIENTATION AND/OR GENDER IDENTITY] IN THE LAST 2 MONTHS.

[INTERVIEWER: POINT TO EACH NUMBER AND READ THE DEFINITION]

- 1= a lot of rejection,
