ESTABLISH CONTROLLING OFFENSE FOR ALL INMATES

- Sentenced inmates:
 - With one offense then that offense is the controlling offense
 - With multiple offenses and sentences, the controlling offense is the offense with the longest sentence
 - With multiple offenses and one sentence, the controlling offense is the “most serious” offense which is determined using the look-up tables and a hierarchy, where violent is most serious, then property, then drug
- Unsentenced prisoners:
 - With one offense then that offense is the controlling offense (For those awaiting sentencing the offenses they were convicted of/awaiting sentencing for are used; for all other inmates including those awaiting trial the arrest offenses are used)
 - With multiple offenses, the “most serious” offense is the controlling offense and is determined using the look-up tables (For those awaiting sentencing the offenses they were convicted of/awaiting sentencing for are used; for all other inmates including those awaiting trial the arrest offenses are used)

IF THE LOOKUP TABLE DOES NOT ENABLE THE FI TO LINK TO AN OFFENSE IN OUR DATABASE, THE FI WILL ASK CJ33 FOR EACH OFFENSE. ONCE IT IS DETERMINED WHICH OFFENSE HAS THE LONGEST SENTENCE AND IT IS KNOWN WHICH CATEGORY EACH OFFENSE FALLS INTO (VIOLENT, PROPERTY, DRUG, OR OTHER), THEN WE KNOW WHICH INCIDENT CHARACTERISTICS SECTION OF THIS MODULE (VIOLENT, PROPERTY ~~OR~~ DRUG, OR NONE AND SKIP TO CJ36) THE

INMATE SHOULD RECEIVE.

INMATE_TYPE (explained)

The following items feed into the MOST SERIOUS OFFENSE, which is used in lieu of as the controlling offense in lieu of establishing the controlling offense using longest sentence length for cases where the inmate is awaiting trial, sentencing, or there for some reason other than sentenced: CJ14 and CJ8. There are 2 types of inmates who will have a MOST SERIOUS OFFENSE. The most serious offense will be determined by the (presence of) offenses collected at the various locations described below.

- 1 Inmate awaiting trial or waiting to be sentenced (and not on parole, probation, or escape at the time of their arrest/CJ7 = 4) – use offenses from CJ14
- 2 Inmate NOT sentenced, NOT convicted/awaiting sentencing, NOT awaiting trial AND being held for —other authorities, a civil commitment, safekeeping, or another reason – use —offenses from CJ8

The following items feed into the CONTROLLING OFFENSE: CJ11, CJ19, CJ26, CJA1, CJA4, CJB3, and CJB6. (These are all inmates who have been sentenced and the longest sentence length is used to establish the controlling offense.) There are 10 types of inmates who will have a CONTROLLING OFFENSE. The controlling offense will be determined by the (presence of) offenses collected in the various locations described below.

- 3 Inmate NOT incarcerated for a parole or probation violation and NOT on parole or probation at time of admission/arrest (New Court Commitment) – use offenses from CJ11
- 4 On Escape with NO new offenses – use offenses from CJ26
- 5 On Escape WITH new [sentenced] offenses – use offenses from CJ19
- 6 On Escape WITH new [arrest] offenses – use offenses from CJ26 *(although new arrest offenses are collected at CJ23)*
- 7 Parole Violator with NO new offenses – use offenses from CJA1
- 8 Parole Violator WITH new [sentenced] offenses – use offenses from CJA4
- 9 Parole Violator WITH new [arrest] offenses – use offenses from CJA1 *(although new arrest offenses are collected at CJA7)*
- 10 Probation Violator with NO new offenses – use offenses from CJB3
- 11 Probation Violator WITH new [sentenced] offenses – use offenses from CJB6
- 12 Probation Violator WITH new [arrest] offenses – use offenses from CJB3 *(although new arrest offenses are collected at CJB9)*

There is one type of inmate who will not have a CONTROLLING OFFENSE or MOST SERIOUS OFFENSE, as a result of having no Criminal Justice status when they were arrested or charged with the offenses for which they are now serving time, (not on parole, probation, or escape) AND not offering an offense other than “parole violation” or “probation violation” where offenses are collected at CJ11TYPE or CJ14TYPE. Since parole violation and probation violation in and of themselves do not have attributes needed to determine a controlling offense, these inmates will not have a controlling offense and will rather have the word “offense” fill in downstream questions. Such cases will not go to the incident characteristics sections of the instrument, which rely on the controlling offense being either a violent, property, or drug offense.

13 Inmate with NO offenses recorded in any of the applicable sections where offenses are collected (the word, “offense” will fill in downstream questions where CONTROLLING OFFENSE fills in question text)

IF CONTROLLING_OFFENSE is a Public Order Offense THEN CONTROLLING_TYPE = 4
IF CONTROLLING_OFFENSE is something other than those above THEN CONTROLLING_TYPE = 5

NOTE: CONTROLLING_TYPE is determined by the attributes for each offense in the Offense Lookup Table, which is invoked when any of the "TYPE" items = 3 (INMATE PROVIDED ACTUAL OFFENSE). Each offense in the lookup table has a type (violent, property, drug, public order, or other) associated with it, which informs the CONTROLLING TYPE. In the event that the offense provided by the inmate is not found in the lookup table, the CONTROLLING TYPE is set based on the inmate's response to CJ33, which directly asks what type of offense it is considered to be.
