

Non-substantive change request for “Toxic Chemical Release Reporting” ICR

OMB Control Number: 2025-0009

EPA ICR Number: 1363.24

Justification Statement: The only change being made to this ICR is with the Instructions document, titled “1363.24 Reporting Forms and Instructions.” The Instructions document is being updated with several items. EPA incorporated the instructional text for the Form R and Form A together, added some language to help explain how facilities access and use TRI-MEweb*, and rearranged some of the flow of the document to mirror how facilities provide information when using TRI-MEweb. (*TRI-MEweb is the online reporting software facilities use to prepare, certify, and submit TRI reporting forms.) These changes are non-substantive and do not change the burden hours/numbers.
