INTRODUCTION

What is an Initial Privacy Assessment?

An Initial Privacy Assessment (IPA) is designed to assess whether a Privacy Impact Assessment (PIA), a Privacy Act system of records notice (SORN), and/or other related privacy documents are required. The responses to the IPA will provide a foundation for determining if either a PIA or SORN or both will be required, and will also help to identify any policy concerns.

The IPA incorporates the matters previously addressed in the Department's Privacy Identifiable Information (PII) Survey, and thus replaces the survey.

When should an IPA be completed?

An IPA should be completed for all information collection activities, whether the system is electronic or contains only records in paper form, and should be completed before commencement of any testing or pilot project of an information system or prior to implementing new information collections requests. Additionally, an IPA should be completed any time there is a change to the information system or collection to determine whether there are any privacy issues as a result of such a change.

Who should complete the IPA?

The IPA should be written and reviewed by a combination of the component's (e.g., Privacy Act Officer, System Owner, Project Leaders), and the program-specific office responsible for the system, project or information collections.

How is the IPA related to the Capital Planning, Certification and Accreditation, and the Paperwork Reduction Act process?

Upon completion and approval of the IPA by the Privacy Officer the official document may be uploaded into the C&A tool, and provided as part of the IT Capital Planning, and Paperwork Reduction Act package as validation of the completed evaluation. The completed IPA demonstrates that the program components have consciously considered privacy and related requirements as part of the overall information activities. For an IT system that does not require a C&A, such as a minor application that runs on a system that does require a C&A, an IPA still should be completed to determine if other related privacy documentation are required for that system or project.

Where should the completed IPA be sent?

A copy of the completed IPA should be sent to the Office of Privacy Project Leads for review. The Privacy Officer will review the IPA and determine what additional privacy documentation is required, and then will advise the Program component accordingly.
