

**SUPPORTING STATEMENT
FOR INFORMATION COLLECTION SUBMISSION
9000-0061, TRANSPORTATION REQUIREMENTS**

A. Justification.

1. **Administrative requirements.** FAR Part 47 and related clauses contain policies and procedures for applying transportation and traffic management considerations in the acquisition of supplies and acquiring transportation or transportation-related services. Generally, contracts involving transportation require information regarding the nature of the supplies, method of shipment, place and time of shipment, applicable charges, marking of shipments, shipping documents, and other related items.

In part, these regulations implement statutory requirements relating to transportation such as—

- The Merchant Marine Act of 1936 (46 U.S.C. 1101);
- The Cargo Preference Act of 1954 (46 U.S.C. 1241); and
- The Cargo Preference Act of 1904 (10 U.S.C. 2631).

This clearance covers the following requirements in 48 CFR Chapter 1 (FAR):

a. *Financial statement.* FAR 52.247-6, Financial Statement, as prescribed at 47.207-1(e), requires the offeror responding to solicitations for transportation or transportation-related services, to provide to the Government, upon request, a current certified statement of the offeror's financial condition.

b. *F.o.b. Origin.*

• 52.247-33, F.o.b. Origin, with Differentials	47.303-5(c)

The clauses listed above require that the contractor mark the shipment, complete the Government bill of lading or prepare a commercial bill of lading, and distribute copies of the bill of lading. The agency may provide special instructions or request annotations for commercial bills of lading.

• 52.247-48, F.o.b. Destination—Evidence of Shipment	47.305-4(c)

The clauses listed above impose varying requirements on the Contractor, such as—

- Prepare and distribute commercial bills of lading;
- Provide a clean dock or ship’s receipt;
- Provide an on-board ocean bill of lading; or

- Provide a clean Government bill of lading and/or air waybill.

For all f.o.b. destination contracts, the Contractor is also required to retain evidence of shipment for three years after final payment under the contract, and make such evidence available to the Government for review as necessary.

d. *Shipments to DoD Air or Water Terminal Transshipment Points.* FAR clause 52.247-52, as prescribed at 47.305-6(f)(2), requires the contractor to advise the Government transportation office of the date on which the cargo will be ready for shipment, and provide certain information to the Government transportation office at least five days before shipping cargo to either a water port or an airport.

e. *Transportation Transit Privilege Credits.* FAR clause 52.247-57, as prescribed at 47.305-13(b)(4), applies if the offeror has established transit privileges with regulated common carriers. The offeror must insert rate per CWT in cents, and the destination.

f. *Cargo Preference.* FAR clause 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels, as prescribed at 47.507(a), is used in solicitations and contracts that may involve ocean transportation of supplies subject to the Cargo Preference Act of 1954. The contractor must submit one legible copy of a rated on-board bill of lading for each shipment to both the contracting officer and the Maritime Administration. The contractor must flow this requirement down to all subcontracts and purchase orders under the contract, except subcontracts for commercial items (see 52.212-5(e)(4) and 52.244-6(c)(4)).

The proposed rule under FAR Case 1999-024 proposes to require flow down to certain commercial subcontracts, if ocean cargoes are clearly destined for eventual military or Government use.

2. **Uses of information.** The information is used by the contracting officer, the Government transportation office, or the Maritime Administration to ensure proper and timely shipment of Government supplies, and to ensure compliance with cargo preference statutes.

3. **Consideration of information technology.** We use improved information technology to the maximum extent practicable. Where both the Government agency and contractors are capable of electronic interchange, the contractors may submit this information collection requirement electronically.

4. **Efforts to identify duplication.** This requirement is issued under the Federal Acquisition Regulation (FAR), which has been developed to standardize Federal procurement practices and eliminate unnecessary duplication.

5. **If the collection of information impacts small businesses or other entities, describe methods used to minimize burden.** The burden applied to small businesses is the minimum consistent with applicable laws, Executive orders, regulations, and prudent business practices.

6. **Describe consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently.** Collection of information on a less frequent basis

is not practical. Information is required with the offer, on a per shipment basis, or upon request of the contracting officer, as appropriate.

7. **Special circumstances for collection.** Collection is consistent with guidelines in 5 CFR 1320.6.

8. **Efforts to consult with persons outside the agency.** A 60-day notice was published in the *Federal Register* at 80 FR 34159 on June 15, 2015. No comments were received. A 30-day notice was published in the *Federal Register* at 80 FR 60685 on October 7, 2015. No comments were received.

9. **Explanation of any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.** There will be no payment or gift to respondents, other than remuneration of contractors.

10. **Describe assurance of confidentiality provided to respondents.** This information is disclosed only to the extent consistent with prudent business practices and current regulations.

11. **Additional justification for questions of a sensitive nature.** No sensitive questions are involved.

12. **Estimated annual reporting burden and cost to the public.** Transportation management specialists indicate that there is no centralized database system that maintains statistics on the information regarding the nature of the supplies, method of shipment, place and time of shipment, applicable charges, marking of shipments, shipping documents, and other related items. We estimate that it takes approximately 3 minutes for each contractor to read and prepare the information needed for the description. We estimate 65,000 respondents per year. We also estimate 22 responses per respondent per year, which is an increase from 21.32 responses in the past. The time for number of responses per respondent is changed due to transportation office review. We estimate that each response will cost approximately \$2.45 to prepare.

Number of respondents	65,000	
Number of responses per/yr	x <u>22</u>	
Total annual responses	1,430,000	
Average hours per response	x <u>.05</u>	
Total response burden hours	71,500	
Average wages + overhead	x <u>\$49</u>	
Total cost to the public (75%OH)	\$3,503,500	(*\$28/hr +

*** OPM 2012 salary table for GS-9, step 5, equivalent.**

13. We estimate no annual cost burden other than the burdens shown in Items 12 and 14.

14. **Estimated annual cost to the Government.** Time required for Governmentwide review is estimated at 7 minutes per response. Transportation and traffic management factors are important in awarding and administering of contracts to ensure that (1) acquisitions are made on

the basis most advantageous to the Government and (2) supplies arrive in good order and condition and on time at the required place.

Total responses to Govt.	1,430,000
Govt. hours/response	<u>x .12</u>
Total burden hours	171,600
Average wages + overhead	<u>x \$56</u>
Total Government cost	\$9,609,600 (\$28/hr + 100% OH)
