FROM THE DIRECTOR
U.S. CENSUS BUREAU

The U.S. Census Bureau is conducting the Building Permits Survey. Your office was selected for the survey to complete the Form C-404, "Report of Building or Zoning Permits Issued for New Privately-Owned Housing Units," on or about the 24th of each month. We thank you for your continued participation in the survey. We strongly encourage electronic reporting, which is available on our website at <http://econhelp.census.gov/bps>, and we highly recommend this option as the quickest way to report your data, if you are not already doing so. If your office has changed status, such as if permits are no longer required or if your office has merged with another office, please select the appropriate change and provide the requested information.

This survey produces estimates of construction of new housing units, the largest component of the construction industry. We also use your data to produce population estimates at the local government level. The population estimates are used by government agencies to allocate funding and other resources to your local area and for various planning purposes. Data users rely on your detailed geographic data to monitor growth and develop production and marketing strategies.
