Subject: Recreational Boater Survey

Attached: Mail-Back Boater Survey Draft-26Jul16 (Marina Tenants).docx

**Dear Recreational Boater (or Canyon Lake Stakeholder):**

The US Army Corps of Engineers (USACE), Fort Worth District, is conducting a Recreational Boating Study at Canyon Lake. The study results will assist USACE in preparing the Master Plan for Canyon Lake which will guide the recreation and land management of Canyon Lake for approximately a 25 year period. To assist us in preparing the Master Plan we ask that you fill out the attached survey and return it to the address shown on the survey instrument, fax it to the number provided, or scan it and return to the e-mail address provided. As part of the overall Recreational Boating Study we are also sending a survey form to (marina tenants) or (governmental entities responsible for law enforcement and emergency response), as well as conducting interviews with boaters as they exit the lake and conducting boating related counts of boats utilizing the lake during peak use periods. Your response is important to us and we thank you for your interest in Canyon Lake.
