**TITLE OF INFORMATION COLLECTION:**

Stakeholder Survey to Determine Perceptions of Boating Conditions on Peak Use Days.

**PURPOSE:**

USACE, Fort Worth District, has an important outdoor recreation and public safety mission at its 25 operational lakes. Many of these lakes provide very popular boating opportunities and are heavily used by boaters during the peak recreation season of approximately May through August. The purpose of the survey is to better understand the perceptions, opinions and needs of key recreational boating stakeholders including marina operators, park managers, and officials responsible for law enforcement and emergency response related to recreational boating safety and enjoyment. The results of the survey will be contrasted with the results of the Boat Ramp Exit Survey, Marina Tenant Survey and boating related counts described below. This information will result in better decision making regarding proposals that would increase or decrease direct access to the water such as additional boat ramps and parking lots, or wet or dry boat storage slips at marina concessions and private docks. The survey is lake specific and will be conducted as part of a larger effort to revise the master plan or shoreline management plan of a given lake. Concurrent with the survey will be counts to determine the number of boats on the water surface, number of empty wet slips at marinas and number of empty boat trailers parked at boat ramps and in campgrounds on peak use days. Having these counts will enable USACE to draw a correlation between boaters’ perceptions and the amount of boat traffic on the lake, as well as a reliable estimate of where the boat traffic is originating from (i.e. ramps, marinas, or private docks). Fort Worth District has a need to conduct the Stakeholder Survey and the related Marina Tenant Survey and Boat Ramp Exit Survey at five lakes during the period 2016-2019.

**DESCRIPTION OF RESPONDENTS:**

Boating Activity Stakeholders:

Responding stakeholders will be marina owner/operators, and city, county, and state officials having a role in recreation area management, law enforcement and emergency services.
