

Request for Approval under the “Fast Track Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0704-0553)

TITLE OF INFORMATION COLLECTION: Mark Center LEED Transportation Survey

PURPOSE: This Mark Center Leadership in Energy and Environmental Design (LEED) Transportation survey is one component of the Mark Center’s pursuit of LEED for Existing Buildings: Operations and Maintenance (EBOM) certification. The survey assesses the mode(s) of transportation used by building occupants to generate an alternative transportation rate. Alternative transportation includes the use of green vehicles, bicycles, buses, carpools, vanpools, teleworking, and compressed schedules. The higher alternative transportation rate that is demonstrated by Mark Center building occupants, the great number of credit points the building can achieve towards its LEED EBOM certification effort. Responses from building occupants is therefore needed to fulfill this requirement.

The Mark Center is currently pursuing initial LEED EBOM certification. LEED EBOM requires recertification at least every five years, so the Mark Center will likely complete a similar transportation survey during these recertification efforts.

DESCRIPTION OF RESPONDENTS: Any DoD employees that work at the Mark Center. This can include contractors, military and civilian personnel.
