If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

Subjects for this study will be identified by a stratified random sample by each IC Agency of NGA customers who accessed NGA products and content over the past six months via the web.

Three sampling frames will be developed, one each for three separate networks. Each sampling frame will comprise of the aforementioned NGA customers, identified by Adobe Insight and GEOAxis. GEOAxis is a user authentication tool that NGA employs to ensure that its content is accessible to only those with verified credentials.

For each network ODNI agencies (the stratification variable) will be assigned a qualitative size assessment from which a necessary sample size will be calculated. Each network/agency pair will be assigned a qualitative size assessment of Small (~1000 customers), Medium (~3000 customers), or Large (~5000 customers) based on NGA web traffic through Adobe Insight and GEOAxis data. The qualitative sizes for Medium and Large will then be used to calculate a necessary sample size based on a 95% confidence level, with a +/-7 confidence interval, and a projected 10% response rate. Because the Small size estimate would require a sample size larger than the estimated population (1000), all customers will be sampled.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)
 - Web-based or other forms of Social Media
 - Telephone
 - In-person
 - Mail
 - Other, Explain
2. Will interviewers or facilitators be used? Yes No

Please make sure that all instruments, instructions, and scripts are submitted with the request.
