The following public burden estimate statement must be available as a CATI screen:

**Assurance of Confidentiality (NOTICE):** The Public Health Service Act provides us with the authority to do this research (42 United States Code 242k). All information which would permit identification of any individual, a practice, or an establishment will be held confidential, will be used for statistical purposes only by NCHS staff, contractors, and agents only when required and with necessary controls, and will not be disclosed or released to other persons without the consent of the individual or the establishment in accordance with section 308(d) of the Public Health Service Act (42 USC 242m) and the Confidential Information Protection and Statistical Efficiency Act (PL-107-347). If any federal employee, contractor, or agent knowingly shares identifiable information collected under this pledge of confidentiality with a person not entitled to have it, he or she can be fined up to \$250,000, and/or imprisoned for up to 5 years.

Public reporting burden of this collection of information is estimated to average about 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports, Clearance Officer; Paperwork Reduction Project (0920-0214), 1600 Clifton Rd., MS D-74, Atlanta, GA 30333

[b]Medicare Plus Choice[b] expands the Medicare Health Plan options to include a broader range of plans in addition to the original fee-for-service Medicare and Health Maintenance Organizations (HMO's). New Medicare Health plans include: Preferred provider Organizations (PPO's), Health Maintenance Organizations with a Point of Service Option, Point of Service plans, Private Fee-For-Service (PFFS) plans (not the same as Medigap), and Medical Savings Accounts (MSA).

Help Text	[b]Medicare Managed Care[b] is a way of receiving your Medicare benefits. These types of plans involve specific groups of doctors, hospitals, and other health care providers who have agreed to provide care to Medicare beneficiaries in exchange for a fixed payment from Medicare every month. In these plans, a person must receive all of their care from the Medicare managed care plan, except for emergencies. [b]Health Maintenance Organization (HMO) [b] is a health care plan that delivers comprehensive, coordinated medical services to enrolled members on a prepaid basis. There are three basic types of HMOs: 1) Group/Staff HMO delivers services at one or more locations through a group of physicians that contracts with the HMO to provide care or through its own physicians who are employees of the HMO. 2) An Individual Practice Association (IPA) makes contractual arrangements with doctors in the community, who treat HMO members out of their own offices. 3) Network HMO contracts with two or more group practices to provide health services. Other managed care arrangements that may be available through Medicare include: HMO's with Point of Service Options (POS), Provider sponsored Organizations (PSO's), and Preferred Provider Organizations (PPO's).
