## Evaluation

Form Approved  
OMB No. 0920-0941  
Exp. Date: 05/31/2016

Public reporting burden of this collection of information is estimated to average 50 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-24, Atlanta, Georgia 30333; ATTN: PRA (0920-0941).

**What am I being asked to do?**  
We are asking you to participate in a research study – conducted by the Centers for Disease Control and Prevention - about high school students, including what they do, what they think about things, and their relationships with other people, including people they date or with whom they hang out. The purpose of this study is to help us learn more about these things and help us know how different programs in your school are working so that we can improve these programs for future students.

You were selected to receive an invitation to participate in this study because you participated in this survey in middle school. Although some of the questions in this survey ask about relationships with boyfriends and/or girlfriends, you do not need to have a current or past boyfriend or girlfriend to participate in this study.

Your parent has to consent for you to participate in this survey if you are under 18 years of age.

**What will I be doing?**  
We are asking you to fill out surveys about things you do, what you think about things, and your relationships with other people, including boyfriends or girlfriends or people you hang out with. There will also be questions about sensitive topics like sex, violence, and drug use, but you can skip any question if you do not want to answer it. We will do this survey once a year.

## DATING MATTERS®

Evaluation

**Who will see my answers?**  
All answers that you give will be kept private. This is so because this study has been given a Certificate of Confidentiality. This means anything you tell us will not have to be given out to anyone, even if a court orders us to do so, unless you say it's okay. But under the law, we must report to the proper authorities suspected cases of child abuse or if you tell us you are planning to cause serious harm to yourself or others. This means that if you tell us verbally that you are planning to hurt yourself or someone else, or if you tell us that someone, either an adult or child, is hurting you, then we will have to tell someone so we can get help.

The information we collect could be really helpful to other researchers who are trying to improve the lives of teenagers too. Since this study is funded by the Centers for Disease Control and Prevention, which is part of the government, the information we collect will be made available to other researchers who are interested in whether the programs we are conducting work and how teenagers think and act. However, no information that could be used to identify you will be released to other researchers—that means that there won't be any way for the researchers to know that you participated in this study or know how you answered the questions.

You may be offered the option of completing this survey online. Following strict protocols, online survey data will be transferred through a secure server to protect the privacy of your answers. Although we will do our best to protect the privacy of your answers, like all online communications, we cannot guarantee complete confidentiality of data sent over the internet.

**What if I don't know the answers?**  
Some of the questions may be about things you've never thought about before. Some of the questions may seem like they don't apply to you. That is fine—just give the best answer you can. There are no right or wrong answers.

**How will the researchers contact me to do the next survey?**  
We will collect some information from you that will help us stay in contact with you. We will ask things like your address and phone number so we can send you cards in the mail and call you, and for some names and numbers of people who would know how to contact you if you move. We will keep this information totally private and separate from your survey and school record information. It's just so we can contact you again.

**Do I have to do this?**  
No, you don't. You can say that you don't want to do the survey and that is fine. You won't get in trouble, and it won't affect your grades. You can also choose not to answer certain questions even if you do the surveys.

**What if the questions are upsetting?**  
We don't think you'll be upset by filling out the survey, but if you are, [Name of School Guidance Counselor or Other Adult] is available to talk to and to help. You can also talk to your parents or another adult about the survey. We will also give you a list of places in your community you can call to get help with any of the problems we ask about on the survey.

## DATING MATTERS®

Evaluation

**Are there any benefits to participating?**  
There are no direct benefits for participating in this research study. However, you may benefit from knowing that your participation has the potential to help future middle school and high school students because the data collected will be used to improve instructional materials that would help teenagers have healthy and safe relationships with peers and dating partners.

**Payment/Compensation**  
The project offers a small "thank you" gift of \_\_\_\_\_ [specific description of the gift will be added] if you complete a survey to acknowledge our appreciation for your participation.

**Thanks so much!**  
Even though you don't have to participate, we really hope you will. You are the expert, and we are hoping to learn from you. If you have any questions about this study, you may contact NORC or have your parents contact NORC at [phone] or via e-mail at [email]. For additional information regarding the rights of human participants in research, you may contact the NORC IRB Manager, toll-free at 1-866-309-0542. A description of this clinical trial will be available on <http://www.ClinicalTrials.gov>, as required by U.S. Law. This Web site will not include information that can identify you. At most, the Web site will include a summary of the results. You can search this Web site at any time.

## DATING MATTERS®

### Evaluation

The following questions refer to times when you and the person you are dating have disagreements. We want you to answer these questions about a dating partner if you have one now or have had one in the last 4 months.

Please remember that by "dating," we mean spending time with someone you are seeing or going out with. Examples of this might include hanging out at the mall, in the neighborhood, or at home or going somewhere together like the movies, a game, or a party. It doesn't have to be a formal date or something you planned in advance and it may be with a small group. The term "date" includes both one-time dates and time together as part of long-term relationships.

**31. How often do YOU use these styles...**

	Never	Almost Never	Sometimes	Often	Always
Launching personal attacks	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
