

Attachment 4:

Anaconda MT Exposure Investigation Questionnaire

Flesch-Kincaid Level – 5.4

Form Approved OMB No. 0923-0048 Exp. Date 03/31/2019
--

[The interviewer will not state “don’t know” and “refused” as response options, The interviewer will mark such responses only if provided by the participant. This holds true to all questions, including ethnicity and race.]

Introduction - Hello my name is {SAY NAME}.

We are doing an Exposure Investigation for the Agency for Toxic Substances and Disease Registry, or ATSDR. ATSDR is a sister agency to the Centers for Disease Control and Prevention (CDC). As part of the investigation, we will be asking you some common questions like your name and address. We will also ask questions on your contact with lead and arsenic. We are asking these questions to better understand all the data we collect.

The questions should take about 20 minutes. After that, we will be offering free blood and urine testing for participants in this exposure investigation. Your total time in the investigation will be about 30 minutes. Once we are done with this investigation, you will be given a copy and details of the testing results for you and your children (if you have them). Generally, we are able to get results to you within 12 weeks.

Cost Recovery Number: 8018

1. Person Administering Questionnaire _____
2. Date Questionnaire Administered _____
3. Participant last name _____
4. Participants first name _____
5. Address: _____

6. Mailing address if different from home address: _____

7. **Laboratory ID** _____

Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0923-0048).

Now I want to ask you questions about how I can contact you. I will also be asking how long you have lived at or visited certain places. This is needed to find out how long you may have had contact with lead and arsenic and how long it may have lasted. We will also ask your age, address, race, and about how you spend your time (e.g, child at daycare, how often they play outside, your jobs and hobbies). This is useful to help us better understand your test results.

8. Is the person being interviewed a minor?

Yes

No (skip to question 17)

9. Name of person answering questions for minor child:

10. Relationship to child:

Mother

Father

Grandparent

Guardian

11. Has your child ever had their blood tested for lead?

Yes

No (skip to question 13)

12. If yes, when, where and what was the result?
