

proposed action, specifically within the context of additional information made available since completion of final EIS for this project. This additional information addresses estimates of total quantity of sediment impounded by Ballville Dam, the potential impacts of the proposed alternative on harmful algal blooms (HABs) in the Sandusky River and Lake Erie due to the proposed sediment release, the potential impacts of the proposed alternative on downstream habitats due to sediment release, the accuracy of cost estimates of sediment removal within the EIS, evaluation of a bypass and excavation alternative provided in comments on the FEIS, and the potential for beneficial reuse of sediments impounded by Ballville Dam. Although we concluded that these topics were sufficiently addressed in the FEIS, we provide additional review and assessment in this Draft SEIS to help further clarify the issues. To complete this aspect of the Draft SEIS, we consulted subject matter experts to help review FEIS materials and clearly articulate our understanding of them. The resulting additional information and explanation has been incorporated within this Draft SEIS.

EPA's Role in the EIS Process

In addition to this notice of the draft SEIS, EPA is publishing a **Federal Register** notice announcing the draft SEIS, as required under section 309 of the Clean Air Act (42 U.S.C. 7401 *et seq.*; CAA). The publication of EPA's notice is the official start of the minimum requirement for a 45-day public comment period for an EIS. The EPA is charged under the CAA to review all Federal agencies' EISs and to comment on the adequacy and the acceptability of the environmental impacts of proposed actions in the EISs. EPA also serves as the repository (EIS database) for EISs prepared by Federal agencies. The EIS database provides information about EISs prepared by Federal agencies, as well as EPA's comments concerning the EISs. All EISs are filed with EPA, which publishes a notice of availability on Fridays in the **Federal Register**. For more information, see <http://www.epa.gov/compliance/nepa/eisdata.html>. You may search for EPA comments on EISs, along with EISs themselves, at <https://cdxnodengn.epa.gov/cdx-enepa-public/action/eis/search>.

We request data, comments, new information, or suggestions from the public, concerned governmental agencies, the scientific community, tribes, industry, or any other interested party on this notice.
