

experimental or condition-dependent triggered actions under Alternative F.

Alternative G

The objective of Alternative G is to maximize the conservation of sediment, in order to maintain and increase sandbar size. Under Alternative G, flows would be delivered in a steady pattern throughout the year with no monthly differences in flow other than those needed to adjust operations in response to changes in forecast and other operating requirements such as equalization. In an 8.23 maf year, steady flow would be approximately 11,400 cfs.

Experimentation under Alternative G includes testing the effects of the following actions: (1) Sediment-triggered spring and fall HFEs through the entire 20-year LTEMP period, (2) 24-hour proactive spring HFEs in high volume years (≥ 10 maf release volume), (3) extension of the duration of up to 45,000 cfs fall HFEs for as many as 250 hours depending on sediment availability, (4) mechanical removal of trout near the Little Colorado River confluence, and (5) trout management flows.

SUPPLEMENTARY INFORMATION:

I. Abstract

Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement the Paperwork Reduction Act of 1995 (Pub. L. 104-131), require that interested members of the public and affected parties have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). This notice identifies an information collection activity that the Office of the Special Trustee for American Indians has submitted to OMB for renewal.

Public Law 103-412, The American Indian Trust Fund Management Reform Act of 1994 (Act), allows Indian tribes on a voluntary basis to take their funds out of trust status within the Department of the Interior (and the Federal Government) in order to manage and invest such funds on their own. 25 CFR part 1200, subpart B, Sec. 1200.13, "How does a tribe apply to withdraw funds?" describes the requirements for application for withdrawal. The Act covers all tribal trust funds including judgment funds as well as some settlements funds, but excludes funds held in Individual Indian Money accounts. Both the Act and the regulations state that upon withdrawal of the funds, the Department of the Interior (and the Federal Government)

have no further liability for such funds. Accompanying their application for withdrawal of trust funds, tribes are required to submit a Management Plan for managing the funds being withdrawn, to protect the funds once they are out of trust status.

This information collection allows the Office of the Special Trustee for American Indians to collect the tribes' applications for withdrawal of funds held in trust by the Department of the Interior. If this information were not collected, the Office of the Special Trustee for American Indians would not be able to comply with the American Indian Trust Fund Management Reform Act of 1994 (Pub. L. 103-412), and tribes would not be able to withdraw funds held for them in trust by the Department of the Interior.
