All sources <sup>o</sup>	0.25	2	0.5
Sources that changed furnace classification <sup>i</sup>	1	1	1
i. Time for audits	N/A		
<b>Subtotal for Recordkeeping Requirements</b>			
<b>TOTAL LABOR BURDEN AND COST (rounded)<sup>p</sup></b>			
<b>Total Capital/O&amp;M Costs (rounded)<sup>p</sup></b>			
<b>Grand Total (Labor and Capital/O&amp;M Costs)(rounded)<sup>p</sup></b>			

**Assumptions:**

<sup>a</sup> We have assumed that the average number of respondents that will be subject to this rule will be 161, of which 53 are major sources, over the period of this ICR.

<sup>b</sup> This ICR uses the following labor rates: \$129.93 per hour for Executive, Administrative, and Managerial labor; \$10.00 per hour for all other labor from the United States Department of Labor, Bureau of Labor Statistics, June 2014 “Table 2. Civilian Workers, by Occupation, Sex, Race, and Hispanic or Latino Ethnicity, by Detailed Occupation, June 2014” rates have been increased by 110% to account for the benefit packages available to those employed by private industry.

<sup>c</sup> We have assumed that it will take each new respondent 54 hours to complete the task. This burden cost is associated with the time required to meet the required specifications of this subpart.

<sup>d</sup> We have assumed that it will take each respondent one hour to read and understand the rule requirements.

<sup>e</sup> We have assumed that all existing sources are in compliance with the initial rule requirements. It is further assumed that sources are conducting performance tests. Respondents that are major sources are required to demonstrate initial compliance with the rule for each affected source or emission unit and report results in the notification of compliance status report.

<sup>f</sup> Since we have assumed that there will be no new sources over the next three-year period of this ICR, there will be no new area sources. New area sources will not be required to conduct emissions testing to show compliance with the emission limit, since they are already installed and meet the design residence time of 0.8 seconds or greater and an operating temperature of 1600 °F or greater. A monitoring plan for affected sources.

<sup>g</sup> This burden item is no longer required as a result of the 2015 final amendment.

<sup>h</sup> It is assumed that there will be no new sources requiring a waiver from the performance test requirements.

<sup>i</sup> It is assumed that each respondent will take 8 hours to write semiannual report of excess emissions or no excess emissions.

<sup>j</sup> An estimated 50 facilities would change furnace classifications once per year.

<sup>k</sup> It is assumed that it will take 1.5 hours for major source respondents to enter and transmit records.

<sup>l</sup> It is assumed that it will take 0.5 hours for existing area source respondents to enter and transmit records.

<sup>m</sup> We have assumed that it will take 4 hours to train new employees.

<sup>n</sup> We have assumed that it will take 0.25 hours to each new respondent to disclose information.

<sup>o</sup> We have assumed that it will take 0.25 hours for each respondent to disclose information.

<sup>p</sup>Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.

<b>TOTAL ANNUAL BURDEN AND COST (rounded)<sup>h</sup></b>			

**Assumptions:**

<sup>a</sup> We have assumed that the average number of respondents that will be subject to this rule will be 161, of which 100 are new respondents and 61 are existing respondents over the 10-year period of this ICR.

<sup>b</sup> This cost is based on the following hourly labor rates: \$62.90 for Managerial (GS-13, Step 5, \$39.31 + 60%), \$44.90 for Professional (GS-11, Step 5, \$27.94 + 60%). These rates are from the Office of Personnel Management (OPM) "2014 General Schedule" which excludes packages available to government employees.

<sup>c</sup> We have assumed that all existing respondent are in compliance with the initial rule requirements. It is further assumed that respondents are not conducting performance test.

<sup>d</sup> We have assumed that it will take 2 hours for each respondent to complete notification of compliance status.

<sup>e</sup> We have assumed that each existing respondent will take 4 hours two times per year to complete the semiannual reports.

<sup>f</sup> This burden item is no longer required as a result of the 2015 final amendment.

<sup>h</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
