

notification, response actions, and follow-up investigations on events involving the use (including suspected theft or terrorist activities) of nuclear materials regulated pursuant to the Atomic Energy Act. The event information should be provided in a uniform electronic format, for assessment and identification of any facilities/site-specific or generic safety concerns that could have the potential to impact public health and safety. The identification and review of safety concerns may result in lessons learned and may also identify generic issues for further study that could result in proposals for changes or revisions to technical or regulatory designs, processes, standards, guidance or requirements.

Dated at Rockville, Maryland, this 15th day of December, 2015.

For the Nuclear Regulatory Commission.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into

ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 531 "Request for Taxpayer Identification Number". The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on July 22, 2015, (80 FR 43477).

1. *The title of the information collection:* Request for Taxpayer Identification Number.
2. *OMB approval number:* 3150-0188.
3. *Type of submission:* Extension.
4. *The form number if applicable:* NRC Form 531.
5. *How often the collection is required or requested:* Licensees are only required to submit once, however, a continuous monthly request is sent until the licensee submits the Taxpayer Identification Number.
6. *Who will be required or asked to respond:* NRC Form 531 is used to collect TINs and information sufficient to identify the licensee or applicant for licenses, certificates, approvals and registrations.
7. *The estimated number of annual responses:* 300 responses.
8. *The estimated number of annual respondents:* 300 respondents.
9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 75 hours.

10. *Abstract:* The Debt Collection Improvement Act of 1996 requires that agencies collect taxpayer identification numbers (TINs) from individuals who do business with the Government, including contractors and recipients of

credit, licenses, permits, and benefits. The TIN will be used to process all electronic payments (refunds) made to licensees by electronic funds transfer by the Department of the Treasury. The Department of the Treasury will use the TIN to determine whether the refund can be used to administratively offset any delinquent debts reported to the Treasury by other government agencies. In addition, the TIN will be used to collect and report to the Department of the Treasury any delinquent indebtedness arising out of the licensee's or applicant's relationship with the NRC.

Dated at Rockville, Maryland, this 14th day of December, 2015.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of the Chief Information Officer.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "NRC Form 664 General Licensee Registration." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on August 12, 2015 (80 FR 48349).

1. *The title of the information collection:* NRC Form 664, "General Licensee Registration."

2. *OMB approval number:* 3150-0198.

3. *Type of submission:* Extension.

4. *The form number if applicable:* NRC Form 664.

5. *How often the collection is required or requested:* Annually.

6. *Who will be required or asked to respond:* General Licensees of the NRC who possess certain generally licensed devices subject to annual registration authorized pursuant to section 31.5 of Title 10 of the *Code of Federal Regulations* (10 CFR).

7. *The estimated number of annual responses:* 564.

8. *The estimated number of annual respondents:* 564.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 188 hours (564 annual responses × 1/3 hour).

10. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be identified even if lost or damaged. Also, the registration program ensures that general licensees are aware of and understand the requirements for the possession, use, and disposal of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the regulatory requirements for proper handling and disposal of generally licensed devices and would reduce the
