II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "NRC Form 398, Personal Qualification Statement—Licensee." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on August 18, 2015 (80 FR 50050).

1. *The title of the information collection*: "NRC Form 398, Personal Qualification Statement—Licensee."
2. *OMB approval number*: 3150-0090.
3. *Type of submission*: Extension.
4. *The form number if applicable*: NRC Form 398.
5. *How often the collection is required or requested*: Upon application for an Initial or upgrade operator license, and every six years for the renewal of Operator or senior operator licenses.
6. *Who will be required or asked to respond*: Facility licensees who are

tasked with Certifying that the applicants and renewal operators are qualified to be licensed as reactor operators and senior reactor operators.

7. *The estimated number of annual responses*: 1,500.

8. *The estimated number of annual respondents*: 1,500.

9. An estimate of the total number of hours needed annually to comply with the information collection requirement or request: 7,225.

10. *Abstract*: NRC Form 398 is used to transmit detailed information required to be submitted to the NRC by a facility licensee on each applicant applying for new and upgraded licenses or license renewals to operate the controls at a nuclear reactor facility. This information is used to determine that each applicant or renewal operator seeking a license or renewal of a license is qualified to be issued a license, and that the licensed operator would not be expected to cause operational errors and endanger public health and safety.

Dated at Rockville, Maryland, this 24th day of December 2015.
