

**APPENDIX G6a**  
**Reminders for Telephone Research Center voicemail, expiring interviews - English**

This message is for [PARTICIPANT FIRST LAST NAME]. I am calling for the WIC Feeding My Baby study – a national study being done to learn more about the choices WIC families make in feeding their children. We have only a few days remaining to complete your interview. Please call our toll-free number at 1-888-783-6493 at your earliest convenience to complete this important survey or we will try you back soon. [IF 48-MONTH OR 60-MONTH INTERVIEW, SAY “If your child is in day care, please ask your provider what your child ate during the day so you can report this in the interview.”] We look forward to speaking with you. Thank you.
