Subject: Expedited Amendment Approval of WIC Infant-Toddler Feeding Practices - II (Feeding My Baby - A National WIC Study), Project Number 8967.01 FWA 00005551

As Administrator of the Westat Institutional Review Board (IRB), I reviewed the materials submitted for the following: **WIC Infant-Toddler Feeding Practices - II (Feeding My Baby - A National WIC Study)**. The Westat IRB reviews all studies involving research on human subjects. This project was last reviewed in January 2015.

This action is to approve the following:

- An extension of the study for two more years.
- Modify the age 3 interviews to update contact information.
- Addition of new activities including 4 CATI interviews, 2 child height/weight measurements, and
- Updated advance letters, contact update forms, measurement cards, and HIPAA releases.

The regulations (45 CFR 46) permit expedited review of minor changes in previously approved activities. I am therefore approving the modifications under expedited authority.

- You are required to submit this study for a continuing review before February 24, 2016.
- In the interim, you are responsible for notifying the IRB Office as soon as possible if there are any injuries to the subjects as well as problems or changes with the study that relate to human subjects.

cc: Institutional Review Board
