SHORTAGE DESIGNATION MANAGEMENT SYSTEM OVERVIEW

Goal: The Shortage Designation Management System is used to manage, apply, and update designation applications. The foundation of the Shortage Designation Management System comes from nationally sourced data and the policies and procedures of the Division of Shortage Designation and Policy (DPSD).

PCOs are able to complete the following:

- Search for existing designations
- View information about existing designations
- Create and Submit new designations
- Update existing designations
- Copy designations
- Create and Manage inquiries

Roles: The shortage designation role is required to be part of the PCO user account in order to have the access to the Shortage Designation Management System for Designations for their state. Please refer to the Create Account Section to gain the role and permission to perform the Designation Management functions.

I. LOG IN TO PORTAL

BCBS PROGRAM PORTAL

Login

Please log in using the fields below:

Your Email *

Your Password *

[Forgot Password?](#) **LOGIN**

Create an Account

Not a registered user?

If you are a Primary Care Officer and want to create an account, please [click here](#).

If you are a Site Point of Contact and want to create an account, please [click here](#).

The Site Point of Contact Portal allows site points of contact to complete important **National Health Service Corps** (NHSC) and **NURSE Corps** program activities.

If you are creating a Site Point of Contact Portal Account, your workplace must have interest in employing persons eligible for participation in NHSC or Nurse Corps and as a point of contact you must perform at least one of the following job functions at your workplace:

- Own, oversee, or manage a significant portion of your site(s) and/or understand and have the ability to answer questions about site policies and operating procedures
- Officially confirm employment status, work schedules, and/or absences of employees at your site
- Hire and/or recruit new employees

You may obtain more information about these programs by visiting the [NHSC](#) or [NURSE Corps](#) websites. Please visit the [NHSC Sites](#) web page to learn more about applying to become an NHSC approved site.

Questions?

- **PCO Portal:** For support, please call your regional office representative.
- **Site Portal:** Please refer to the Site FAQ.
- **PCO & Site Portal:** For technical issues, contact the BHW Customer Care Center.
 - Open Monday-Friday (except Federal holidays), 8:00 am to 8:00 pm ET
 - 1-800-221-9393
 - 1-877-897-9910 (TTY for hearing impaired)
 - GetHelp@hrsa.gov

1. **Program Portal:** Clicking on the Program Portal logo will take the user to the Portal
2. **Forgot Password?:** The PCO can reset their password by selecting this link. It will ask a series of few questions and the user will receive an email to reset their password. Please see section **Forgot Password**.
3. **Login:** The PCO can login into the Provider Management by clicking this button after a valid email and password has been entered in the fields.
4. **Create an Account:** This section contains a number of resources for the PCO or a Site Administrator to create an account if an account is not already created for the user. The user can select the link “click here” on the first line for PCOs. If a PCO already has an account with

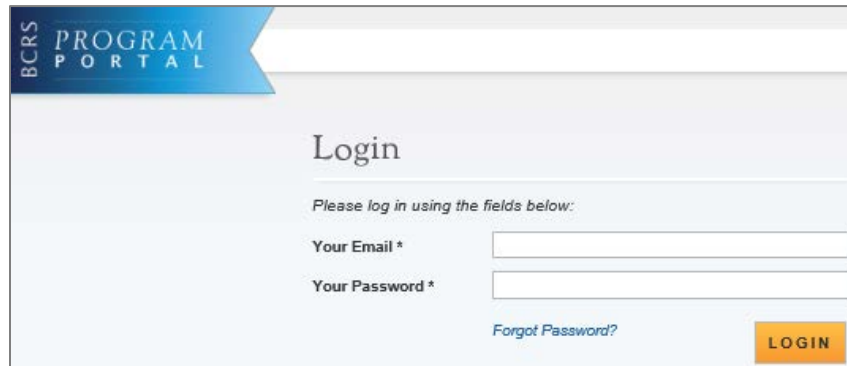

proper roles and permissions, they will be able to use the same credentials and can skip this section.

5. **Questions?:** This section contains contact information for any users who might have questions or need additional support.

ACCOUNT LOG-IN

To log into the account, enter in email address and password. If the PCO forgets their password, they can reset it by selecting the “Forgot your password?” link described below.

Important Notes:

- The user will be warned after their second failed log in attempt that their account will be locked on the next failed attempt.
- The account will be locked after the third invalid attempt. The PCO would then have to contact the BHW Call Center in order to unlock their account.

FORGOT PASSWORD

When a password is forgotten or needs to be reset, please select the (forgot password) link.

Instructions:

1. Select Forgot Password link. This will open another window that will request the user email address.
2. After selecting the Forgot Password link, the email address associated with the account must be entered and select “Next”.
3. Upon confirmation that the email address entered is associated with an account that has been activated for the PCO Portal, it will be required to enter the correct answer for the accounts security question. Enter in the security question and select “Submit”.
Important Note: The security question and answer are entered during the create account process. If this is unknown, the Forgot Password process cannot proceed and the Customer Call Center will need to be contacted at 1-800-221-9393.
4. A Reset Password Email will be sent after submission of the correct security question answer. The Reset Password Email will have a link that must be used to reset the password.

Important Note: Passwords must have a minimum length of eight characters; shall not contain slang, jargon, or personal information; shall not contain all or part of your username; and must contain: at least one English upper-case character (A-Z), at least one English lower-case character (a-z), at least one numerical digit (0-9), and at least one special character (e.g. @, !, \$, %). A character may not be repeated more than once in succession.

5. Return to the Portal Login page and enter in account email and new password

II. CREATE ACCOUNT

The Create Account process begins on the Portal Login page. Primary Care Offices must only use the create accounts for PCOs.

User Notes:

- PCO Accounts created prior to September 27th, 2014 must follow the create account process.
- The email address to be used as the username, the state, and the role must be communicated from the PCO to the Project Officer or Customer Call Center prior to creating the account otherwise the account will not be activated.
- The account will be activated after 24 hours. An account activation email may be sent prior to this 24 hours but the account will only be activate after 24 hours.

The screenshot shows the 'Create My Account' page for Primary Care Offices. The page header includes 'BCBS PROGRAM PORTAL' and 'for PRIMARY CARE OFFICES' with a 'Login' link. The main heading is 'Create My Account' with a note '* required field'. Below the heading, there is a text box with the instruction: 'Please enter the email address from which you received the invitation to log into this PCO Portal in order to create an account.' The form contains six input fields: 'Email *', 'Confirm Email *', 'Create Password *' (with an information icon), 'Confirm Password *', 'Security Question *' (with a dropdown menu showing 'Select'), and 'Security Answer *'. At the bottom of the form are two buttons: 'CANCEL' and 'REGISTER'.

1. **Create My Account:** The six fields displayed are required to create an account. The user can select the information icon to get more information about password requirements or additional information about the field.

Important Notes:

- The email used will serve as email user name for Portal login.
 - The Security Question and Answer must be easily remembered in order to be used as part of the Forgot Password process.
2. **Cancel:** The PCO can click on this button and be taken to the Portal page.
 3. **Register:** After entering all the required fields, the PCO can click on the “Register” button to register their account.
 4. **Login:** PCO can login to the account after 24 hours.

III. PCO PORTAL LANDING PAGE (OVERVIEW)

The purpose of the PCO Portal Landing page is to give the PCO access to both the NHSC Site Applications and Recertifications and the Shortage Designation Program.

BHW PROGRAM PORTAL for PRIMARY CARE OFFICES | [Account Settings](#) | [My Messages](#) | [Roles](#) | [Log Out](#)

Texas Primary Care Office Portal

NHSC SITE APPLICATIONS AND RECERTIFICATIONS
NHSC Site Applications and Recertifications are used to review a site's eligibility for the NHSC. As a PCO you are able to review submitted applications and recertifications and submit recommendations about sites to the NHSC. Please select the Site Applications and Recertifications Main Page to review NHSC Site Applications and Recertifications. Please refer to the reports under Related Information for additional information.
[Link to Site Applications Main Page](#)

SHORTAGE DESIGNATION MANAGEMENT
The Shortage Designation section of the PCO portal provides an interactive mapping tool to create new designations and update existing designations. It also includes designation search, profile, provider management, inquiry, and reporting functionality.

REPORTS

- [ASAP Data Reports](#)
- [ASAP Archive Report for Providers by Designation](#)
- [NPI Provider Data Reports](#)
- [Designation Demographic and Health Data Export](#)

1. **NHSC Site Applications and Recertifications:** This section contains a number of tools for the site administrator as well as support contact information and a summary of all open requests. If the site administrator has either submitted an application for a site or is a POC at a site which has an application pending, those applications will appear here.
2. **Program Portal:** Clicking on the Program Portal logo will take the user to the Portal
3. **Account Settings:** The account setting will allow the PCO to manage and update security information as well as email and password information
4. **My Messages:** The PCO can view messages. This functionality will not be available in September 2014 release but will be available in future release.
5. **Roles:** The PCO can view the roles associated with the user account.
6. **Log Out:** The PCO can log out of the PCO Portal here.
7. **Shortage Designation Program:** This section contains information about the Shortage Designation Provider Management. It allows PCOs to manage, review, and update the provider information as part of the designation application process.
Important Notes:
 - Only PCO with the Shortage Designation Program role will access to this.
 - The PCO will see only their designated state.
8. **Shortage Designation Reports:** There are now 4 reports available:

- a. ASAPS Archive Designations Report: Please see next section for more details on this report.
- b. ASAPS Archive Report for Providers by Designation: Please see next section for more details on this report.
- c. NPI Provider Data Report: The NPI Provider Data Report is an exportable file of all the provider information associated with the PCO state.
- d. Designation Demographic and Health Data Export: The Designation Demographic and Health Data Export is an exportable file for all associated information broken down by designation for all designations in the PCO state.

ACCOUNT SETTINGS

The Account Settings page allows can be used to update security information as well as email and password information.

The screenshot shows the 'Account Settings' page. At the top, it displays 'Your Current Email Address: 5BCFF149AABFB16C48@EXAMPLE.com'. Below this, there are three main sections: 'CHANGE EMAIL ADDRESS', 'CHANGE PASSWORD', and 'CHANGE SECURITY INFORMATION'. Each section contains input fields and a 'Change' button.

Change Security Information

1. **Change Email Address:** This allows the user to change the email address which they log-in with.
2. **Change Password:** PCO can change their password on this section
3. **Change Security Information:** PCO can change the security information through these steps.

IV. ACCESSING THE ASAPS ARCHIVE DESIGNATIONS REPORTS

The ASAPS Archive Designation Report provides detailed designation information from ASAPS as of August 31st, 2014. The ASAPS Archive Designation Report is comprised of 4 reports. In order to review the information that is part of each unique report, there are specific criteria that need to be selected. The reports will default to the state of the PCO account.

BCR PROGRAM PORTAL for PRIMARY CARE OFFICES Account Settings My Messages 5 Roles Log Out

ASAPS Archive Designations Report

* required field

The Applicant Submission and Processing System (ASAPS) was permanently unavailable as of August 31, 2014. The ASAPS Archive Designation Reports are used to access and review the designation data that was archived from ASAPS as of August 31, 2014. The reports will default to the state of the PCO account.

- User Instructions for ASAPS Archive Designation Report: A single value is required for this report. Please select the Discipline desired only.
- User Instructions for ASAPS Archive Designation Component Details Report and ASAPS Archive Designation Facility Details Report: Three values are required for both of these reports. Please enter all three Designation ID, Discipline, and Designation Type values.
- User Instructions for ASAPS Archive Designation History Report: Two values are required for this report. Please enter both Designation ID and Discipline.

Criteria Values

- Designation ID is the HPSA ID value from ASAPS.
- Discipline values are comprised of HPSA – Primary Care, HPSA – Dental Health, HPSA – Mental Health, and MUA / P.
- Designation Type values are comprised of AK NA, AM IN, AREA, CHC, IHS, LAL, OFAC, Pop, PRSN, RHC, SCTY, SMH, MUA, and MUP.
- ASAPS Archive Designation Facility Details Report select one of the following: AK NA, AM IN, CHC, IHS, LAL, OFAC, PRSN, RHC, and SMH.

Please enter the filter report criteria.

DOWNLOAD REPORT

1. User instructions:

Each report requires a different combination of selection to be entered.

- Designation Report requires a Discipline.
- Designation Component Details Report requires Designation ID, Discipline, and Designation Type.
- Designation Facility Details Report requires Designation ID, Discipline, and Designation Type.
- Designation History Report requires Designation ID and Discipline.

2. Criteria values:

- Designation ID value must be an exact match to the HPSA ID as reported in ASAPS. If a match cannot be identified, a blank report will be reflected.

- b. Discipline values are a drop down and one value can be selected at a time. These are values are: HPSA – Primary Care, HPSA – Dental Health, HPSA – Mental Health, and MUA/P.
- c. Designation Type values are a drop down and one value can be selected at a time. These values are: AK NA, AM IN, AREA, CHC, IHS, LAL, OFAC, POP, PRSN, RHC, SCTY, SMH, MUA, and MUP. These values are based off the ASAPS Designation Types.
- d. Designation Facility Details Report requires one of the following: AK NA, AM IN, CHC, IHS, LAL, OFAC, PRSN, RHC, and SMH.

Please enter the filter report criteria.

3. Report criteria selection:

When starting a new report selection, the PCO must follow the User Instruction to understand which criteria selection should be entered. If the combination of criterion entered does not match a report or does not match information from ASAPS, the report will be blank. The report will open in another window in excel.

ASAPS ARCHIVE DESIGNATIONS REPORT

The Designations Report requires a Discipline, only, to be generated. This report is a detailed report of all designation types for the discipline selected.

Example of an Archive Designation Report:

ID	Discipline	Previous MUAP ID	Status	Designation Type ID	Service Area Code	Name	Category	Service Area Type	Type	Is High Needs?	Metro	Designation Date	Update Date

The Facility Details Report has the following fields for Designation TYPE: PRSN that will reflect the information from ASAPS as of August 31st, 2014 for a single designation.

Important Notes:

1. Designation Facility Details Report requires one of the following: AK NA, AM IN, CHC, IHS, LAL, OFAC, PRSN, RHC, and SMH.
2. Certain fields are specific to the different Designation Type selections and will be blank when a report is generated without those values.
3. The fields will display the information that was in ASAPS as of August 31st, 2014. No edits or changes have been made.
4. No changes can be made to this information.
5. The Facility Details Report has the following fields for Designation Type: AK NA, AM IN, CHC, HIS, LAL, OFAC and RHC that will reflect the information from ASAPS as of August 31st, 2014 for a single designation.

Field	PRSN: Example
HPSA ID	2029990167
Facility ID	23
Facility Name	Federal Correctional Institution - Lane
Facility Type	Federal
Address	565 East Froeren Road
City	Lane
State	AL
Zip	35160
County	Lane
County Code	121
Metropolitan Type	Nonmetropolitan
Intersected HPSA	
Intersected HPSA ID	
Intersected HPSA Score	0
Type	Federal
Security Level	Medium
Average Inmates/year \geq 250	Yes
Average Inmates/year	1039
Average Length of Stay (ALOS)	3652
Routine Intake Exams Performed	Yes
Average New Inmates per year	960
Internee Computation Equation	ALOS equal or greater than 365 days; Intake Exams done and Average New Inmates known.
Internees	1327
FTE Practitioners Serving Facility	0
Internee-to-Provider Ratio	1327:0
Degree of Shortage	1
Facility Score	12

The Facility Details Report has the following fields for Designation Type: AK NA, AM IN, CHC, HIS, LAL, OFAC and RHC that will reflect the information from ASAPS as of August 31st, 2014 for a single designation.

Important Notes:

1. Designation Facility Details Report requires one of the following: AK NA, AM IN, CHC, IHS, LAL, OFAC, PRSN, RHC, and SMH.
2. Certain fields are specific to the different Designation Type selections and will be blank when a report is generated without those values.
3. The fields will display the information that was in ASAPS as of August 31st, 2014. No edits or changes have been made.
4. No changes can be made to this information.

Field	Example
HPSA ID	7369993616
Facility ID	1304
Facility Name	Woodhull Mental Health Center
HPSA Type	
Clinics at Facility	
Address	760 BROADWAY
City	BROOKLYN
State	NY

Provider Last Name

DOWNLOAD REPORT

1. **Designation ID** value must be an exact match to the HPSA ID as reported in ASAPS. If a match cannot be identified, a blank report will be reflected
2. **Designation Type** values are a drop down and one value can be selected at a time. These are values are: HPSA – Primary Care, HPSA – Dental Health, HPSA – Mental Health, and MUA/P.
3. **Provider First Name** is a text field.
4. **Provider Last Name** is a text field.

USER INSTRUCTIONS FOR ASAPS ARCHIVE PROVIDER REPORTS

Each report requires a different combination of selection to be entered.

1. Provider by Designation ID requires a Designation ID and Designation Type (PC, MH, DH, or MUA/P).
2. Provider by First and Last name requires Designation Type (PC, MH, DH, or MUA/P) and First and Last Name.
3. Provider by Designation Type requires Designation Type (PC, MH, DH, or MUA/P).

Important Notes:

1. The ASAPS Archive Provider report allows the PCO to view provider data by different levels. The Fields will remain the same for any level generated.
2. The provider may be listed for a designation because it was either in the rational service area or the contiguous area.
3. Certain fields are specific to the different Discipline and Designation Type selections and will be blank when a report is generated without those values.
4. The fields will display the information that was in ASAPS as of August 31st, 2014. No edits or changes have been made.
5. No changes can be made to this information.

VI. ACCESSING THE SHORTAGE DESIGNATION MAIN PAGE

The purpose of the Shortage Designation Main Page is for the PCO to view important updates, helpful resources and access designations, provider management, inquiries and report functionalities. The user can access this page by selecting “Link to the Shortage Designation Main Page” on the main portal homepage.

Updates

December 13, 2014

Welcome to Designation Management

Here you will be able to review existing designations, update designations, and create new ones. We are very excited with this new set of tools that will help expand access to health care.

Please look out for upcoming training sessions happening soon. You should be receiving invitations by email.

My Profile

Name: [REDACTED]
Email: 0F018EC1262996B328@EXAMPLE.com

Helpful Resources

- [Manual for Policies and Procedures](#)
- [Provider Management User Guide](#)
- [Primary Care Office Portal User Guide](#)
- [Mapping Tool User Guide](#)

1. **Navigation Panel:** The user may navigate to other sections of the PCO Portal using this toolbar.
2. **Updates:** This section will provide the user with new information and updates pertaining to Shortage Designation Management.
3. **My Profile:** This section will list the name and email address of the user.
4. **Helpful Resources:** This section will provide the user with resources on the policies and procedures of the new Shortage Designation Management System.

VII. SEARCHING FOR DESIGNATIONS

The user will have access to search and see details about all existing designations as well as those in progress for their specific state. The user can access the search through the extranet homepage by selecting the “Designations” tab on the navigation panel. The user will be able to search designations created with the Mapping Tool as well as all designations migrated from ASAPS.

Once on the Designation Search page, the user can search using the following columns:

- Designation Name
- Case ID
- Public ID
- Discipline
- Status
- Year

Search Designations

Designation Name	Case ID	Public ID	Discipline	Type	Status	Submission Year
<input type="text"/>	<input type="text"/>	<input type="text"/>	None selected ▾	None selected ▾	None selected ▾	None selected ▾
						<input type="button" value="Search"/> <input type="button" value="Clear"/>

1. **Designation Name:** This name is entered by the user on the Mapping Tool Landing page or the name migrated directly from ASAPS.
2. **Case ID:** This number is generated once the RSA is saved on the Mapping Tool. This number can be used to search for a specific designation application.
3. **Public ID:** This number is the official ID of approved Designations. The IDs of designations migrated from ASAPS will be now be the Public ID in SDMS.
4. **Discipline:** User can choose from the following multi-select options
 - a. Primary Care
 - b. Mental Health
 - c. Dental Health
5. **Type:** User can choose from the following multi-select options
 - a. HPSA
 - b. MUA/P
 - c. Auto-Facility
 - d. OFAC
 - e. Correctional Facility
 - f. State/County Mental Hospital
6. **Status:** User can choose from the following multi-select options
 - a. In Progress
 - b. Submitted-Designation
 - c. Submitted-Withdrawal

- d. Under Review-Withdrawal
 - e. Under Review-Designation
 - f. Not Approved
 - g. Designated
 - h. Proposed for Withdrawal
 - i. Withdrawn
 - j. Replaced
 - k. Reinstated
7. **Year:** This field represents the designation submission year.

Business Rules:

- The user is must choose at least one search criteria in order for the system to display search results.
- If the user does not complete any search criteria and selects the “Save” button, the following warning will appear: “You must fill in at least one search field.”

The system will display search results in a table as shown below and will automatically be sorted by Case ID. The user can sort by any of the column headers by selecting the arrows to the right.

[Next](#)

1. **Show # Entries:** The user can use this drop down to select the number of search results that appear per page. The system will automatically default to 10 search results per page. Once the new number is selected, the system will automatically update the search results. The user can select from the following options:
 - a. 10
 - b. 25
 - c. 50
 - d. 100
2. **Case ID:** This field is hyperlinked and allows the user to access the Designation profile.
3. **Public ID:** This read only field will display the approved ID of the designation that will be accessible to the public.
4. **Discipline:** This read only field will display either the discipline(s) the user has selected in the search or all disciplines if this search criterion wasn't completed.
5. **Name:** This read only field will display the name of the designation.
6. **Type:** This read only field will display the designation type.
7. **Option:** This read only field will display the designation option.

- Status:** This read only field will display the status(s) the user has selected in the search or all statuses if this search criterion wasn't completed.
- Submission Year:** This read only field will display the user's selection in the search or all years applicable if this search criterion wasn't completed.
- Delete:** This button will only be enabled for a designation with an in-progress status and would allow users to delete designations that have not been submitted for review. Please see section 6b for more specific details on this action.
- Copy:** This button will be enabled for all HPSA and MUAP designations in all statuses, except Withdrawn, and will allow the user to copy a designation. Please see section 6a for specific details on this action.

- The user can move to the next page by selecting the page number or the next button. If the user would like to go back to a page, select the page number or the previous button.

COPYING A DESIGNATION

The user has the ability to copy a HPSA or MUAP designation with any status to create a new in progress using the same RSA and CA geometries and components, Area Names, Total Adjusted Population, Supplemental Information and Insufficient Capacity associated with the designation being copied. Please note that the copy functionality does not include Facility Designations or Migrated HPSAs and MUAPs that are in a Withdrawn Status. Once user selects "Copy" on the designation search page, the user is directed to the following screen:

[Home](#) / [Designations](#) / 5430 User Guide Test - Copy Designation

5430 User Guide Test - Copy Designation

- General Information
- Supporting Details
- Scoring Criteria
- Supplemental Information
- Additional Documents
- Inquiries

Actions

- Update this Designation
- Propose for Withdrawal
- Copy**

The system will create a new "In Progress" designation using all RSA and CA geometry and components, Area Names, Total Adjusted Population, Supplemental Information and Insufficient Capacity attached to the following Designation:

Designation ID: 5430

If you would like to change the designation properties, you may do so below. If you change the designation's discipline, then type and option are both required.

Current Designation Name: User Guide Test

New Designation Name *

Current Designation Discipline: Primary Care

New Designation Discipline *

Current Designation Type: Geographic Population

New Designation Type *

Current Designation Option: Geographic Population

New Designation Option *

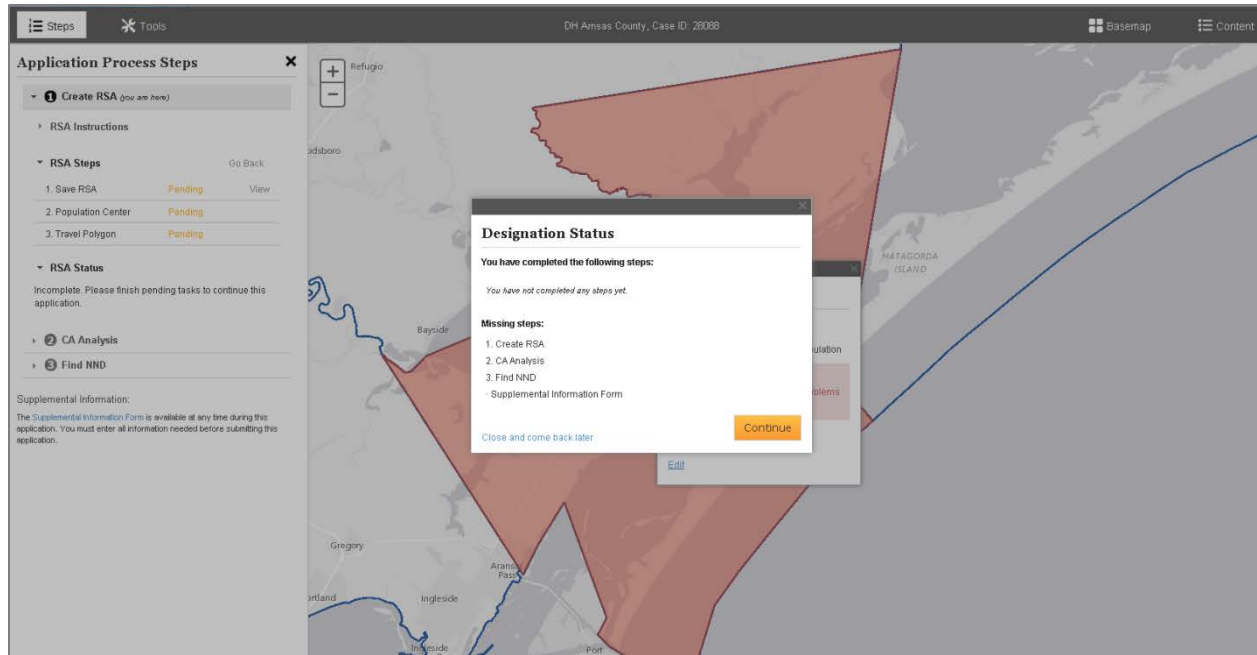

- Current Designation Name:** This field is read only and is the name of the designation being copied.

2. **New Designation Name:** This field is required and allows the user to re-name the new in progress designation, if desired. The system will display the current designations name as a read only display above this field for user reference.
3. **Current Designation Discipline:** This field is read only and is the discipline of the designation being copied.
4. **New Designation Discipline:** This field is required and allows the user to select a new discipline, if desired, for the new in-progress designation that will be created from the designation the user wishes to copy. The user will be provided with the same selections available on the new Mapping Tool landing page (See Section 5a). The system will display the current designation discipline as a read only display above this field for user reference.
5. **Current Designation Type:** This field is read only and is the Designation type of the designation being copied.
6. **New Designation Type:** This field is required and allows the user to select a new designation type, if desired, for the new in-progress designation that will be created from the designation the user wishes to copy. The user will be provided with the same selections available on the new Mapping Tool landing page (See Mapping Tool User Guide). The system will display the current designation type as a read only display above this field for user reference.
7. **Current Designation Option:** This field is read only and is the Designation option of the designation being copied.
8. **New Designation Option:** This field is required and allows the user to select a new designation option for the new in-progress designation that will be created from the designation the user wishes to copy. The user will be provided with the same selections available on the new Mapping Tool landing page (See Mapping Tool User Guide). The system will display the current designation type as a read only display above this field for user reference.
9. **Copy Designation:** The user should select this button once they are ready to copy the designation.

Once the user selects “Copy Designation” button, the system will create a new record and direct the user to the Mapping Tool.

Once the user selects the “Continue” button, the system will direct them to the Invalid RSA step. The user can now edit and work on the new in-progress application using the same guidance and business rules explained in the Creating a New Designation section of this user guide (Section 5).

Important Information to Note: The CA geometries of the migrated HPSA and MUAPs were not available for migration into the Shortage Designation Management System. The user will need to create contiguous areas as part of the application process if these migrated designations are copied.

DELETING AN IN-PROGRESS DESIGNATION

The user has the ability to delete any designation search result with an in-progress status. The delete button will only be enabled if the designation’s status is in progress. For all other statuses the button will be greyed out and inaccessible.

Show 10 entries

Once the user selects the delete button on the search results page, the user will be directed to the following page:

27979 User Guide Test - Delete Designation

General Information

[Supporting Details](#)

[Scoring Criteria](#)

[Supplemental Information](#)

[Additional Documents](#)

[Inquiries](#)

Actions

[Resume Mapping Application](#)

[Copy](#)

[Delete](#)

Are you sure you would like to delete this designation?

1. **“No, Return to Designation”**: The user should select this button if they do not want to delete the in-progress designation. Upon selecting this button, the user will be directed back to the general information section of the Designation Profile.
2. **“Yes, Delete Designation”**: The user should select this button if they would like to delete the in progress designation. Once selected, the system will then direct the user back to the Designation Search page.

Important Information to Note: Once the user deletes an in-progress designation, that record will no longer be accessible in the search results. However, the delete is a “soft delete” and the information for that designation can be recovered.

VIII. ACCESSING DESIGNATION PROFILE

In order to access the designation profile, the user should select the Case ID hyperlink in the search results. The Designation Profile consists of the following sections:

- General Information
- Supporting Details
- Scoring Criteria
- Supplemental Information (only applicable for HPSAs and MUAPs)
- Additional Documents
- Inquiries
- Actions

VIEWING GENERAL INFORMATION

Once the user selects the Case ID hyperlink, the system will automatically direct the user to the General Information Section. All fields under the General Information section are read only and are information pulled from the HPSA and MUAP Mapping Tool as well as all designations migrated from ASAPS.

HPSAS and MUAPS:

1. **Psych FTE:** This field represents the FTE for all psychiatrists that work at the facility
2. **Core Mental Health FTE:** This field represents the FTE for all core mental health providers that work at the facility.

VIEWING SUPPORTING DETAILS

Once the user selects the Supporting Details tab on the left panel of the designation profile, they will be directed to the Supporting Details section. All fields under the Supporting Details section are read only and are information pulled from the HPSA/MUAP Mapping Tool, Facility application and all designations migrated from ASAPS. Depending on the type of Designation, different information will be displayed under the Supporting Details section.

HPSAS and MUA/Ps:

The supporting details section for HPSAs is divided into three read only sections:

- RSA Details
- CA Analysis
- NND Provider

The RSA details section will appear automatically when the user selects on the Supporting Details section. This is the only section that will appear for MUAP designations.

Important Information to Note: The Supporting Details tab is dynamic based on what has been completed for a specific designation on the Mapping Tool. If the user has not reached or completed a certain step in the Mapping Tool, that section will not display any information on the Designation Profile.

1. **Default Population Center:** This field represents the system produced population center on the Mapping Tool for the specific designation.
2. **User Selected Population Center:** This field represents the user selected population center on the Mapping Tool for the specific designation. This field will not display if the user has not moved the population center on the Mapping Tool.
3. **Transportation Type:** This field represents the mode of transportation selected for the travel polygon on the Mapping Tool for the specific designation.
4. **RSA Providers:** The user will be able to click on the “RSA Provider Report” link to access a report on a separate screen with all the providers tied to the RSA.
5. **RSA Data:** This section will display all of the health and demographic data points for the RSA that were available on the data panel of the Mapping Tool upon saving the RSA.
6. **Insufficient Capacity Data:** This section will display any information entered by the user on the insufficient capacity tab before saving an RSA on the Mapping Tool for a Geographic High Needs application.
7. **RSA Component ID:** This twirl down field will list a component ID of the RSA selected on the Mapping Tool and will display the following information for each component of the RSA:
 - **Geo ID:** This field represents the geo ID of the RSA component.
 - **State FIPS:** This field represents the FIPS code for the state of the specific RSA component.
 - **County FIPS:** This field represents the FIPS code for the county of the specific RSA component.
 - **Name of Component:** This field represents the name of the specific RSA component.
 - **Total Resident Civilian Population:** This field represents the total resident civilian population of the specific RSA component.
 - **Percent Population at 100% FPL:** This field represents the percent of the population that is at 100% of the federal poverty level for the specific RSA component.
 - **Percent Population at 200% FPL:** This field represents the percent of the population that is at 200% of the federal poverty level for the specific RSA component.

CA ANALYSIS

The CA Analysis section will appear once the tab is clicked upon. This section displays all Contiguous Areas that the user created in the Mapping Tool for the specific designation. Each Contiguous Area will be identified by the name and will have the same type of information.

1. **CA Provider:** The user will be able to click on the “Link to CA Providers” link to access a report on a separate screen with all the providers tied to the Contiguous Areas.
2. **Component Name:** This twirl down will display the name of each CA component entered by the user on the Mapping Tool for a specific designation. The user may collapse or expand a component by selecting the arrow to the left of the Component.
3. **Validity:** This field will display the results of the validity test run by the system on the CA Analysis step on the Mapping Tool. If this check doesn’t pass the CA doesn’t qualify. Please see the Contiguous Area section of the Mapping Tool User Guide for more information.
4. **Analysis:** This field will display the results of the analysis run by the system on the CA Analysis step on the Mapping Tool. If this check doesn’t pass the user can force pass which will be captured on the profile. Please see the Contiguous Area section of the Mapping Tool User Guide for more information.
5. **Component/Geo ID:** This field will list the Geo ID of the specific component in each contiguous area. Each component will display the same information as the RSA components. If a contiguous area has more than one component, that will also be displayed and accessible through a scroll bar.

NND PROVIDER

The NND Provider section will appear once the tab is clicked upon. This section will display the Default NND and if applicable, the user selected NND, manually entered NND, or that the user has chosen no NND.

1. **Saved Provider NND:** This field represents the user selected NND on the Mapping Tool.
Important Information to Note: The Saved NND Provider tab will only display if the user has manually selected the NND on the Mapping Tool. The Default NND Provider information will always appear on the profile if one is found by the system.
2. **Default NND Provider:** This field represents the NND found by the system on the Mapping Tool.
Important Information to Note: The Default NND Provider information will always appear on the profile if one is found by the system.
 - a. **User Selected NND:** In certain cases, the system may be unable to identify a suitable provider to serve as the NND, or the user may wish to select an alternate NND.
 - b. **Manually Entered NND:** If the system does not have up-to-date road data or no road data, the user can select Manually Entered NND.
 - c. **User Continued with no NND:** If the system cannot identify any usable providers that serve the RSA population or the provider is well outside of the miles and minutes radius for the discipline, the user can continue with no NND.
3. **NPI:** This field represents the provider's National Practitioner ID.
4. **Distance (Default):** This field represents the system calculated distance from the provider to the population center of the RSA.
5. **Distance (User):** This field represents the user entered distance from the provider to the population center of the RSA. The user can update this information on the supplemental information form of the Mapping Tool. If the user does not update the distance, the field will appear as N/A.
6. **Travel Time (Default):** This field represents the system calculated time from the provider to the population center of the RSA.
7. **Travel Time (User):** This field represents the user entered time from the provider to the population center of the RSA. The user can update this information on the supplemental information form of the Mapping Tool. If the user does not update the time, the field will appear as N/A.

SUPPORTING DETAILS: OFACS

The supporting details section for OFACs is divided into four read only sections:

- Provision of Services
- Insufficient Capacity
- Providers
- Supporting Documents

Important Information to Note: The Supporting Details tab is dynamic based on what has been completed for a specific OFAC on the facility application. If the user has not reached or completed a certain step in the Facility application, that section will not display any information on the Designation Profile. This section will also available for all the information that was migrated from ASAPS.

[Provision of Services](#) [Insufficient Capacity](#) [Providers](#) [Supporting Documents](#)

Provision of Services	
Transportation Type	Private
Population Center	Latitude: 38.177559, Longitude: -76.9599
Travel Distance (System)	84.3616 miles
Travel Time (System)	109.08 minutes
Travel Distance (User)	N/A
Travel Time (User)	N/A
Travel Time Explanation	N/A
Provision of Services selection	More than 50% of the facility's health care services are provided to residents of a HPSA.

1. **Transportation Type:** This field represents the user selected transportation type used to determine travel time between the OFAC and the designation that it is serving.
2. **Population Center:** This field represents the population center coordinates of the designation that the OFAC is serving.
3. **Travel Distance (System):** This field represents the system calculated travel distance, in miles, from Facility location to the Designation Population Center. If Public transportation is selected or the distance cannot be calculated the field will display as N/A.
4. **Travel Time (System):** This field represents the system calculated travel time, in minutes, from the Facility location to the Designation Population Center. If Public transportation is selected or the time cannot be calculated the field will display as N/A.
5. **Travel Distance (User):** This field represents the user entered distance from the facility location to the Designation Population Center. The user can update this information on the Provision of Services page of the facility application.
6. **Travel Time (User):** This field represents the user entered time from the facility location to the Designation Population Center. The user can update this information on the Provision of Services page of the facility application.
7. **Travel Time Explanation:** This field represents the user entered explanation that is required on the application if the user selects to edit the system calculated travel distance and time fields. If the user doesn't change the system generated travel time and distance, the field will appear as N/A
8. **Provision of Services:** This field represents the justification that is selected on the application of how the facility serves the designation it is tied to.

INSUFFICIENT CAPACITY

The Insufficient Capacity section will appear once the tab is clicked upon. This section displays all insufficient capacity information that the user completed in the Facility application. The Insufficient Capacity section is different based on discipline of the OFAC application.

PRIMARY CARE

VIEWING SCORING CRITERIA

In order to access the Scoring Criteria section of the designation profile, the user should select that tab on the left hand side of the profile. All fields under the Scoring Criteria section are read only and are information pulled from the HPSA/MUAP Mapping Tool, Facility application and all designations migrated from ASAPS. All migrated designation types will have the following fields in this section:

5422 User Guide Test - Scoring Criteria	
Designation Score	12.0
Physician Shortage	2.94
Degree of Shortage	N/A

Actions

- [Update this Designation](#)
- [Propose for Withdrawal](#)
- [Copy](#)

1. **Designation Score:** This field represents the score of the designation. The score is determined on the mapping tool, Facility application, or has been migrated directly from ASAPS.
2. **Physician Shortage:** This field represents how many physician FTEs are required in order for the designation to no longer be deemed to have a shortage of physicians.
3. **Degree of Shortage:** This field represents a group a designation is assigned based on the ratio of the designation population to the number of the Physician FTE. Please refer to the Shortage Designation Management System Manual for Policies and Procedures for more detailed information about the Degree of Shortage.

The scoring criteria section for all HPSA and MUAPs created with the mapping tool will reflect the same scoring tables on the Mapping Tool. The screen shots below represent an example for each discipline.

VIEWING SUPPLEMENTAL INFORMATION

In order to access the Supplemental Information section of the designation profile, the user should select that tab on the left hand side of the profile. All fields under the Supplemental Information section are read only and are information pulled from the HPSA and MUAP Mapping Tool.

The Supplemental Information section will be blank for all migrated HPSAs and MUAPs from ASAPS and is not applicable to facility designations.

The Supplemental Information section for the Designation profile displays dynamically and mirrors the information on the supplemental information form of the mapping tool. Like the mapping tool, the supplemental information section on the profile is divided into the following sections:

- RSA Information (only section applicable to MUAPs)
- CA Analysis
- NND Provider

RSA INFORMATION

The screenshot displays the 'RSA INFORMATION' section with the following content:

- RSA Validity**
QUESTION: Why is the saved area rational?
ANSWER:
Supporting Document(s):
- RSA Population**

	Total Resident Civilian	Adjusted Population
Designation Population	27578.0	150000.0

Supporting Document(s): [Desert.jpg](#)
- Population Center**
QUESTION: Why have you changed the default Population Center?
ANSWER: Enter Explanation Here...

	System Output	User Input
Population Center	Latitude: 32.4442471 Longitude: -100.3446966	Latitude: 32.15427223 Longitude: -100.2399715

Supporting Document(s): [Koala.jpg](#)
- Transportation Type**
No Transportation Type Adjustment information has been supplied.

1. **RSA Validity:** This section will be completed if the user needs to justify why the saved area is rational.
2. **RSA Population:** This section will include the system sourced population, any user adjusted population and documented evidence if the population is adjusted by the user.
3. **Population Center:** This section will always display the default population center and if applicable, the user adjusted population center with the required explanation and document.
4. **Transportation Type:** This section will only display information if the user has chosen public transit and provided a justification on the mapping tool.

Important to Note: The user can collapse or expand any and all sections by selecting the arrow to the left. The user can also view documents by selecting the document hyperlink if applicable.

CA ANALYSIS

[Delete](#)

The user will see the above content if a contiguous area (s) does not pass the system analysis. The section will display the name of the component, the user selected reason, user entered explanation and document evidence that the user can view.

NND PROVIDER

If the user has chosen a non-Default NND on the Mapping Tool, the justification and document provided on the Supplemental information form will appear to the user under this NND Provider section. The user can also view the NND travel time and Distance from the NND selected.

	System Output	User Input
Miles	35.0	
Minutes	40.0	

ADDING ADDITIONAL DOCUMENTS

In order to access the Additional Documents section of the designation profile, the user should select that tab on the left hand side of the profile. The user can use this section to upload additional documents applicable to the designation.

Saved Document	Description	Upload Date
Lighthouse.jpg	Test	Dec 1, 2014

1. **“Choose File”**: This button should be selected if the user would like to upload a new document.
2. **Description**: The user has the option to input a short description about the document being uploaded.
3. **“Upload”**: This button should be selected once the user is ready to upload a document.

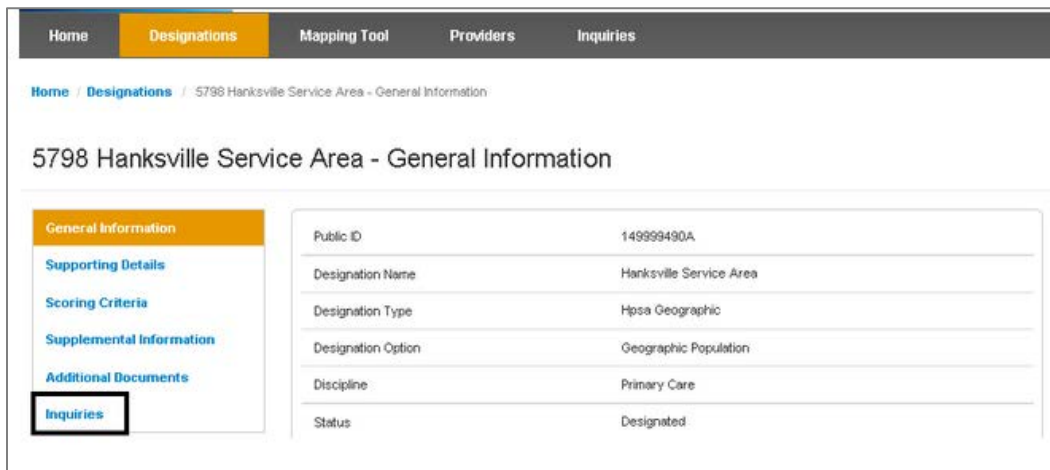

Business Rules:

- A document must be selected before the user clicks the upload button or the user will receive a system error.
- The description text field is alpha numeric and cannot exceed 50 characters.

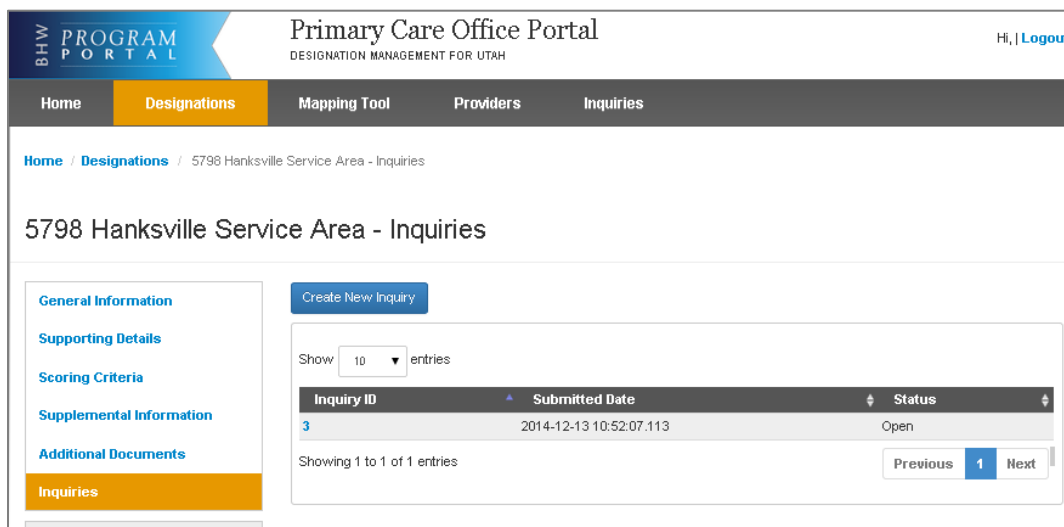

IX. INQUIRIES

The inquiry section of the portal provides an easy and streamlined process for the PCO user to communicate with their respective Project Officer. Inquiries may be created from the Designation Profile in the PCO Portal by navigating to the Designation Profile of the designation which is the subject of the inquiry. Clicking on the “Inquiries” tab on the designation profile will allow the PCO to create an inquiry for the designation.

The Inquiries page displays upon selection of the “Inquiries” tab from the designation profile. The Inquiries page will display existing inquiries for the designation in a table within the page. From this page, the user may choose to create a new inquiry or view an existing inquiry to provide more information or view follow-up information provided by the Project Officer.

1. **“Create New Inquiry”**: This button should be selected if the user would like to create a new inquiry.
2. **Inquiry ID**: The user has the option to view an existing inquiry by selecting the Inquiry ID.

CREATE NEW INQUIRY

The Create New Inquiry page displays when the user selects the Create New Inquiry button from the Inquiries page.

Please note, due to security controls, you have 30 minutes to save this section or you will be automatically logged off the system and any changes will not be saved. Please refer to the [SDMS Application and Program Guidance](#) for any question. If you experience any problem, please contact the HRSA Customer care center at 1-800-221-9393 (TTY for hearing impaired 1-877-897-9910) Monday through Friday (except Federal holidays) 8:00 am to 8:00 pm EST or email GetHelp@hrsa.gov.

1. **Message:** The user has the option to provide additional comments to the Project Officer via the Message field. The comments sent to the Project Officer as well as the Project Officer responses will display in the table within the Comments section.
2. **“Send Message”:** The user must select the Send Message button after entering in desired comments to the Project Officer to provide information for the inquiry.
3. **Document Description:** The user must provide a description of the uploaded document prior to selecting Upload.
4. **“Upload”:** This button should be selected once the user would like to upload a document.

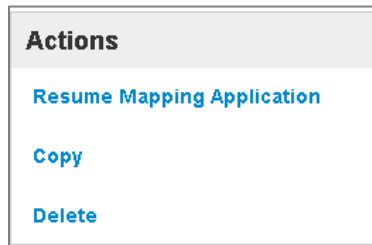

Business Rules:

- The “Send Message” button must be initiated for the message to be transmitted to the Project Officer.
- The Document Description must be entered for the file to upload successfully.

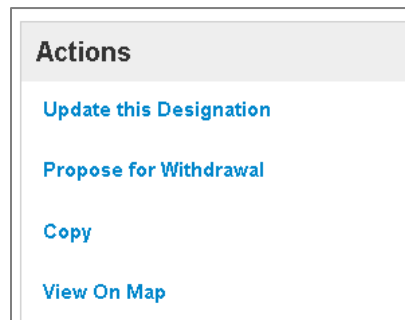

X. ACTIONS

The Actions section of the Designation profile is dynamic based on the status the designation is in. The following actions will be available for an in progress HPSA or MUAP designation:

1. **Resume Mapping Application:** This link will direct the user back to the mapping tool to complete the in progress designation. The user will be taken to the exact step of where the application was previously saved. All work completed before exiting the mapping tool will be saved and displayed on the map.
2. **Copy:** This link will direct the user through the same process as the copy link located on the Designation search page discussed in section 6A.
3. **Delete:** This link will direct the user through the same process as the delete link location on the Designation Search page discussed in section 6B.

The following actions will be available for a HPSA or MUAP with a status of designated:

1. **Update this Designation:** This link will direct the user to the mapping tool to complete an updated application for the designation.
2. **Propose for Withdrawal:** This link will direct the user to propose to withdrawal a current designation.
3. **Copy:** This link will direct the user through the same process as the copy link located on the Designation search page discussed in section 6A.
4. **View on Map:** This link will launch the mapping application to a zoomed-in view of the associated RSA with no information panels open. While the user can select a basemap, enable layers, and view data for the associated area. Note that while the map is viewable, the status of the designation is not affected.

See the Mapping Tool User Guide for more information on the tool's functionality.

Important Information to Note: No actions will be available for a Withdrawn migrated HPSA or MUAP from ASAPS as the geometries were not available for migration into the Shortage Designation Management System. Designations in all other statuses not mentioned above will only have Copy as an action selection.

The following actions will be available for an in progress Facility designation:

The following actions will be available for a Designated Facility:

1. **Update this Designation:** This link will direct the user to the facility application to complete an updated application for the designation.
2. **Propose for Withdrawal:** This link will direct the user to propose to withdrawal a current designation.

The following action will be available for a withdrawn Facility designation:

1. **Propose for Reinstatement:** This link will direct the user to the facility application to complete a application for reinstatement.

XI. UPDATING A DESIGNATION

All designations, whether migrated or new, that have a status of designated have the ability to be updated by the user. Updating designations will follow the same business rules and functionality as creating a new application with the Mapping Tool, please reference section 5.

26172 User Guide Test - Map Update Designation

- General Information
- Supporting Details
- Scoring Criteria
- Supplemental Information
- Additional Documents
- Inquiries

Are you sure you would like to map update this designation?

No, Return to Designation Home Yes, Continue with Map Update

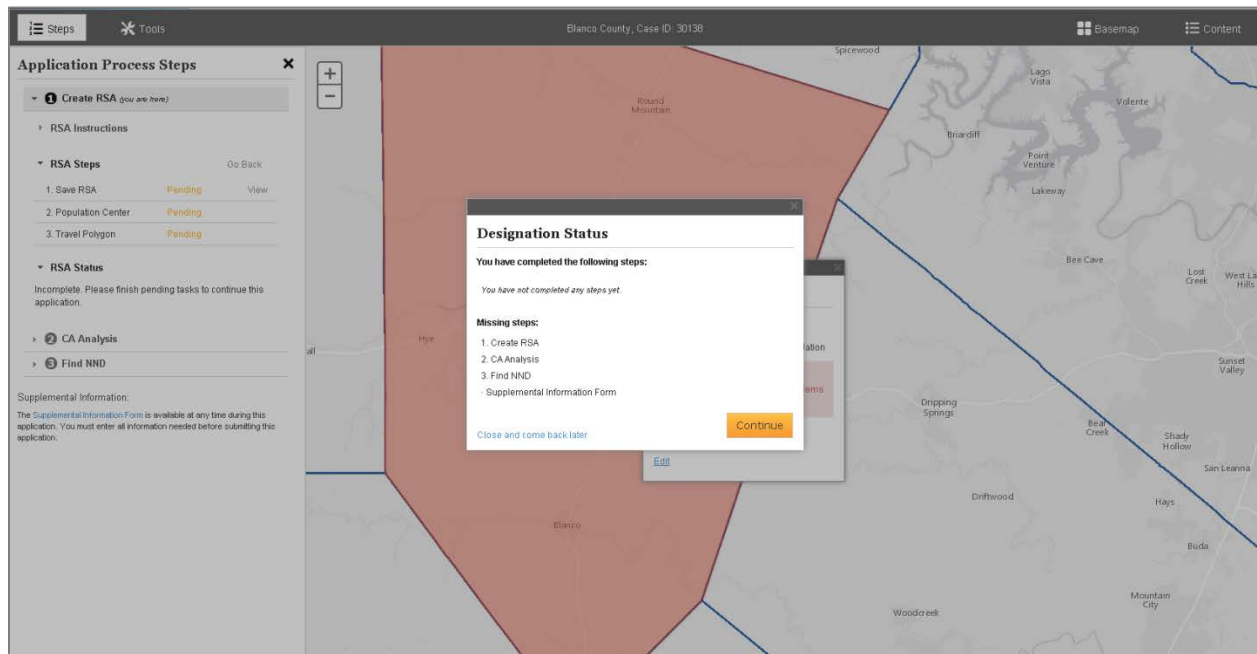

Actions

- Update this Designation
- Propose for Withdrawal
- Copy

1. **“Update the Designation”**: The user will be directed to the page above once this button is clicked on during any portion of the Designation Profile.
2. **“No, Return to Designation Home”**: Upon selecting this button, the user will be directed back to the general information section of the Designation Profile.
3. **“Yes, Continue Map Update”**: Upon selecting this button, the user will be directed to the mapping tool to complete an update for the specific designation.

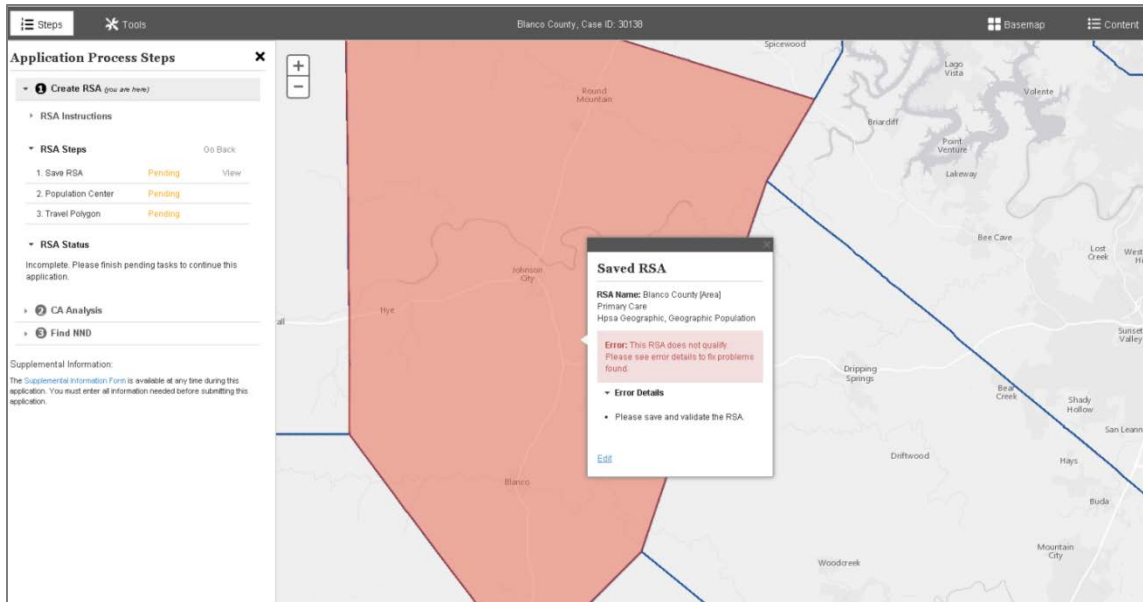

Once the user selects “Yes, Continue Map Update”, the system will direct the user to the following image:

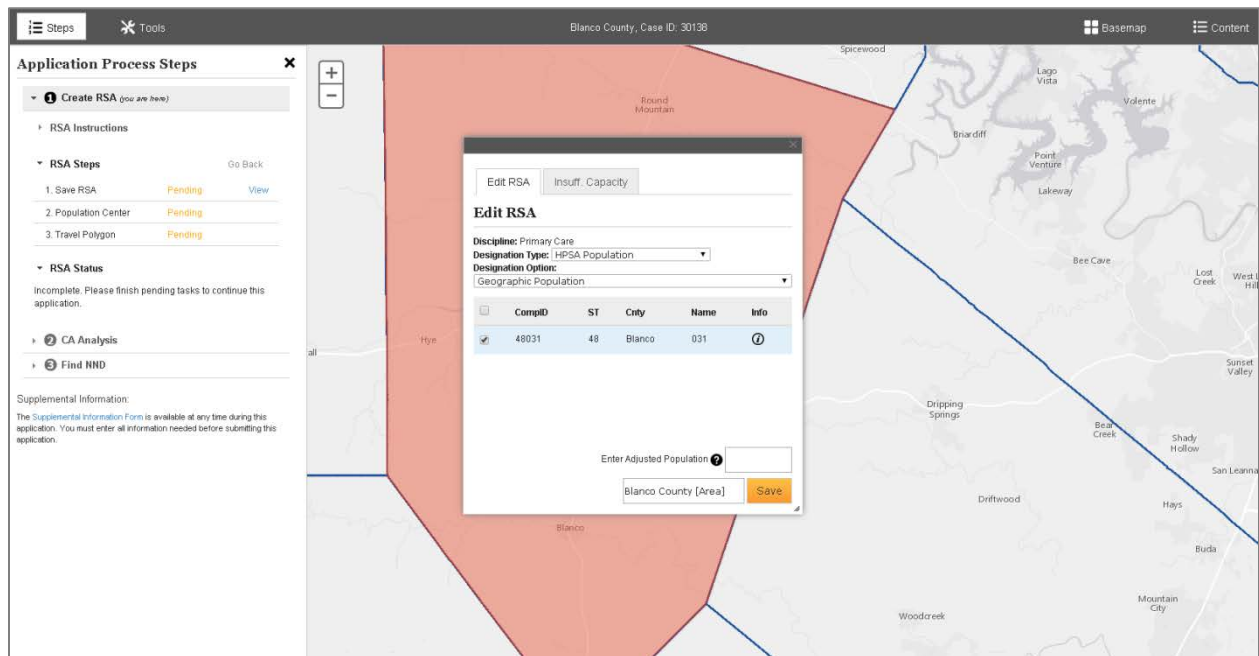

The system will direct the user back to the RSA step of the Mapping tool. The original RSA geometry will be visible and once the user selects the “Continue” button, the user will be directed to the Mapping Tool to complete the updated application.

Important Information to Note: For all migrated Designations from ASAPS, only the RSA geometries were available for migration. The Contiguous Area geometries from ASAPS were unavailable to be migrated into the Shortage Designation Management System. This means that the user will have to create the Contiguous Areas with the Mapping Tool for all migrated designations.

The first step of updating a designation is to save and validate the RSA. The user should select the “Edit” link to save the RSA or add and delete components as desired, as displayed below. Once the RSA is saved, the user should continue with the application just like explained in section 5 of the user guide.

XII. CANCELING AN UPDATE

If the user would like to cancel an update of a current designation, the user will need to navigate to the designation profile of the update application.

32948 Allen County - General Information

General Information	Public ID	N/A
Supporting Details	Designation Name	Allen County
Scoring Criteria	Designation Type	Hpsa Geographic High Needs
Supplemental Information	Designation Option	Geographic Population
Additional Documents	Discipline	Primary Care
Inquiries	Status	In progress
Actions	PCO Submission Date	N/A
