6 Reminder Regarding Other Regulatory Clearance Processes

The principal investigator is responsible for obtaining other regulatory reviews as needed, which may include OMB clearance under the Paperwork Reduction Act (PRA) for federally sponsored information collections. Approval by or exemption from the IRB is unrelated to OMB clearance requirements under the PRA. For more information on whether your study requires clearance under PRA or other regulations, please consult the appropriate officials within your national center.

SEV # is CDC's Scientific Ethics Verification Number. CDC NC/Division is the national center (or equivalent) and division (or equivalent), or coordinating center or office if submitted at that level.

Continue list here of all other CDC and NIOSH investigators, if any. Include name and degrees, user ID, CDC SEV #, CDC NC/Division:

3 CDC's Research Partners

Research partners include *all* direct and indirect recipients of CDC funding (e.g., grants, cooperative agreements, contracts, subcontracts, purchase orders) and other CDC support (e.g., identifiable private information, supplies, products, drugs, or other tangible support) for this research activity, as well as collaborators who do not receive such support. On continuing review, HRPO needs current information on partners that have been added or dropped since the last review and partners that, as of the last review, were receiving support for nonexempt research. See *HRPO Guide: CDC's Research Partners* for further details.

All CDC partners must be listed on form CDC 0.1370.

Check one of the following.

No research partners are reported with this submission. (Checked when there are **no** non-CDC partners.)

Research partners (non-CDC) are listed on form CDC 0.1370, which accompanies this form.

4 Study Participants—Cumulative Demographic Frequencies

Have any participants been enrolled in the last 12 months? Yes No (If no, still report total subject # to date.)

Report estimated counts (rather than percentages). Include participants at domestic and foreign sites. [Note: All sub-category totals should be equal; total subject numbers are counted from **beginning** of study conduct until the date completing this form. See also *HRPO Guide: IRB Review Cycle* for definitions.]

CDC Form 0.1250 initial review, #5 cited _____ number estimated subjects. To exceed subject # cited on CDC 0.1250, an amendment request (CDC forms 0.1252+ 0.1379) needs to be completed/submitted to the NIOSH IRB-HSRB for review/approval. Comments on Demographics:

5 Study Status—Participant Involvement

5.1 Contact Status

“Contact” means intervention or interaction with participants, such as recruitment, screening, obtaining consent, enrollment, and collection of data and biological specimens directly from participants. Check one of the following.

Study is not designed to involve research-related contact with participants (e.g., research using existing records); study activities involve only access to or analysis of data or biological specimens and writing reports.

Study is designed to involve contact with participants. Check one of the following:

 Contact with participants has not yet begun. (If checked, include a cc current consent with submission.)

 Contact with participants has begun and continues; this may include follow-up for debriefing or notification of results. (If checked, include a cc current consent with submission.)

 Contact with participants is completed; study activities involve only data analysis or report writing.

5.2 Consent Status

“Consent” includes adult consent, child assent, and parental permission. Check one of the following.

The IRB previously waived all requirements both to obtain and to document consent in this study.

Although not waived, there is no further need to obtain or document consent (e.g., enrollment is complete).

Participants will be asked to provide consent (with or without documentation).

If you check the third box, please include all current consent, assent, and parental permission materials (e.g., scripts, documents) from each study site with this submission.

6 Study Status—Overall Conduct [Please complete all summaries.]

Summary of research activities to date. Briefly summarize study progress and interim findings. Include the number of potential subjects who declined enrollment and the number who withdrew from the study. If this study involves a registrable clinical trial, summarize registration status. [Citing “none” for this summary is incomplete.]

Summary of study changes reviewed and approved since the last continuation. Do not include changes submitted with or before approval of this continuation but not yet approved.

Summary of any recent literature or other information relevant to the research study (not limited to information with CDC co-authorship).

Summary of all adverse events to date. In particular, address adverse events that were serious, unexpected (or more frequent or severe than expected), or at least possibly related to the research.

Summary of (a) incidents that are not adverse events and (b) other substantial concerns since last continuation.

List and include copies of progress or monitoring reports on safety or compliance (e.g., site monitor, safety review, DSM report, multi-center trial report, but not reports to PGO).

Summary of remaining research activities, emphasizing future contact with subjects, use of identifiable private data and biological specimens, and preparation of primary reports. [Citing “none” for this summary is incomplete.]

7 Regulation and Policy

7.1 Mode of IRB Review on CDC's Behalf

Location of IRB (Check one.):

CDC IRB (Ex. NIOSH IRB/HSRB)

Non-CDC IRB through IRB Authorization Agreement [Submit form CDC 0.1371 if this is a new request.]

Institution or Organization Providing IRB Review: _____

IRB Registration Number (if known): _____

Federal-Wide Assurance Number (if any): _____

IRB-Determined Level of Risk to Subjects (Check one.):

Minimal

Greater than Minimal

Suggested Level of IRB Review (Check one.):

See *HRPO Worksheet for Expedited Review* for detailed assistance. If relying on a non-CDC IRB, please indicate the level of review that you think is appropriate under human research regulations.

Convened-board review is suggested.

Reason for Convened Review: _____

Expedited review is suggested, under the following categories (Check all that apply.):

- 1a Study of drugs not requiring Investigational New Drug exemption from FDA
- 1b Study of medical devices not requiring Investigational Device Exemption from FDA
- 2a Collection of blood from healthy, nonpregnant adults; below volume limit, minimally invasive
- 2b Collection of blood from other adults and children; below volume limit, minimally invasive
- 3 Prospective noninvasive collection of biological specimens for research purposes
- 4 Collection of data through routine, noninvasive procedures, involving no general anesthesia, sedation, x-rays, or microwaves
- 5 Research that uses materials collected solely for nonresearch purposes
- 6 Collection of data from voice, video, digital, or image recordings made for research purposes
- 7 Research that uses interview, program evaluation, human factors, or quality assurance methods

Continuing review of research previously approved by the **convened** IRB (8a, 8b, 8c, or 9) where:

- 8a The research is permanently closed to the enrollment of new subjects; all subjects have completed all research-related interventions; and the research remains active only for long-term follow-up of subjects
- 8b No subjects have been enrolled and no additional risks have been identified
- 8c The remaining research activities are limited to data analysis
- 9 Continuing review of research, not under IND/IDE, where categories 2 through 8 do not apply but the IRB has determined and documented at a convened meeting that the research involves no greater than minimal risk and no additional risks have been identified

8 Material Submitted with this Form

Check all that apply. Describe additional material in the comments section. Required items are indicated. Optional items may be requested by HRPO or the IRB.

Complete protocol (required if research poses more than minimal risk to subjects, is under IND/IDE, or has changed in the past 12 months)

Consent, assent, and permission documents or scripts (required if consent will be sought in the future from prospective subjects or their representatives [see section 5.2])

Other information for recruits or participants (e.g., ads, brochures, flyers, scripts; required if consent will be sought in the future from prospective subjects or their representatives)

Data collection instruments (e.g., questionnaires, interview scripts, record abstraction tools; required if protocol has changes in the past 12 months)

Certification of IRB approval or exemption for research partners (required only for partners being added or for supported/nonexempt partners)

Progress and monitoring reports (recommended when available)

9 Additional Comments (Cover Memo content can go here.)

CDC's Research Partners

Use this form to report current information on CDC's research partners whenever a partner institution or individual is added or information changes. Supply individual name and completed ethics training documentation only for investigators collaborating with CDC under an individual investigator agreement (IIA). See *HRPO Guide: CDC's Research Partners* and either the *HRPO Worksheet for Basic Tracking of Research Partners* or the *HRPO Worksheet for Advanced Tracking of Research Partners* for details on how to complete this form.

Leave protocol ID blank if not yet assigned.

NOTE: Each partner below reflects either a non-CDC **Institution** or non-CDC **Individual** so all fields cannot be completed. At minimum, please provide the name of the Institution/Individual; their City/State; and briefly cite in the Comments field their role in this research (what they will do) and include your estimate of engaged or not. Engaged means either to: 1) interact/intervene with subjects; **or** 2) access private/identifiable information; **or** 3) receive federal funds.
