DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-16-16CP; Docket No. CDC-2015-0100]

Proposed Data Collection Submitted for Public Comment and
Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of
Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part
of its continuing efforts to reduce public burden and maximize the
utility of government information, invites the general public and other

Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection request entitled ``Data Collection for Community-based Tick Control for the Prevention of Rocky Mountain Spotted Fever in Hermosillo, Mexico.'' This project will be carried out in collaboration with the Rickettsial Zoonoses Branch, National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC) and the University of Sonora School of Medicine (UNSOM) to assess the efficacy and impact of a community based tick prevention project.

DATES: Written comments must be received on or before January 11, 2016.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2015-0100 by any of the following methods:

Federal eRulemaking Portal: Regulation.gov. Follow the

instructions for submitting comments.

Mail: Leroy A. Richardson, Information Collection Review

Office, Centers for Disease Control and Prevention, 1600 Clifton Road

NE., MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name

and Docket Number. All relevant comments received will be posted

without change to Regulations.gov, including any personal information

provided. For access to the docket to read background documents or

comments received, go to Regulations.gov.

Please note: All public comment should be submitted through the

Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the

address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the

proposed project or to obtain a copy of the information collection plan

and instruments, contact the Information Collection Review Office,

Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995

(PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of

[[Page 69681]]

Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the Federal Register concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

Comments are invited on: (a) Whether the proposed collection of

information is necessary for the proper performance of the functions of

the agency, including whether the information shall have practical

utility; (b) the accuracy of the agency's estimate of the burden of the

proposed collection of information; (c) ways to enhance the quality,

utility, and clarity of the information to be collected; (d) ways to

minimize the burden of the collection of information on respondents,

including through the use of automated collection techniques or other

forms of information technology; and (e) estimates of capital or start-

up costs and costs of operation, maintenance, and purchase of services

to provide information. Burden means the total time, effort, or

financial resources expended by persons to generate, maintain, retain,

disclose or provide information to or for a Federal agency. This

includes the time needed to review instructions; to develop, acquire,

install and utilize technology and systems for the purpose of

collecting, validating and verifying information, processing and

maintaining information, and disclosing and providing information; to

train personnel and to be able to respond to a collection of

information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

Proposed Project

Community-based Tick Control for the Prevention of Rocky Mountain Spotted Fever in Hermosillo, Mexico'--New--National Center for Emerging and Zoonotic Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC) Rickettsial Zoonoses Branch (RZB) requests approval of a public health intervention assessment tool to demonstrate the efficacy and impact of public health research related to the prevention of Rocky Mountain spotted fever

[RMSF] in Hermosillo, Mexico. These activities include monitoring cases, conducting tick control interventions, and performing participant surveys to assess the knowledge, attitudes, and practices relating to tick control and prevention.

The information collection for which approval is sought is in accordance with RZB's mission to reduce morbidity and mortality of rickettsial diseases and decrease the burden of disease through control and prevention methods. Authorizing Legislation comes from section 301 of the Public Health Service Act (42 U.S.C. 241).

Approval for a three-year data collection will allow RZB to collect information related to risk of RMSF to improve and inform prevention activities. Successful execution of RZB's public health mission requires use data collection activities in collaboration with multiple local and international partners. RZB proposes the following use of pre/posttests to evaluate the changes in knowledge, attitudes and practices relating to tick control as well as perceived impact of the intervention project. The project will also collect basic household information to document their consent to participate. Data collection

will be conducted in-person. Data will be recorded on paper forms and then entered into an electronic database.

RZB estimates involvement of 1,300 respondents and a maximum of 600 hours of burden for research activities each year. The collected information will not impose a cost burden on the respondents beyond that associated with their time to provide the required data.

Estimated Annualized Burden Hours

Average		Number of		Number of
