Passport Number: _____

EBOLA ENTRY SCREENING RISK ASSESSMENT FORM

Instructions to CDC staff:

- **Tell traveler:** You were referred for public health assessment because of possible exposure to Ebola. I am going to ask you a few questions to get more information. This will help us decide if you need additional evaluation or monitoring.
- Complete the SIGNS OR SYMPTOMS section for the **past 48 hours** using checkboxes and record date of first symptom onset. Measure and record temperature. Record whether fever-reducing medications were taken within the **past 12 hours**, including dose and last time taken. Ask additional questions as needed. Describe any illness on page 3.
- Read the EXPOSURE ASSESSMENT QUESTIONS to the traveler. All questions refer to the past 21 days. Relevant countries are those with either widespread transmission or cases in urban settings with uncertain control measures (see http://www.cdc.gov/vhf/ebola/outbreaks/2014-west-africa/distribution-map.html).
- All questions must be completed. Check YES, NO or UNKNOWN (as applicable). Ask additional questions as needed to get as complete a description as possible of all <u>pertinent</u> activities during the past 21 days and potential exposures. **Obtain dates of all potential exposures and document on page 3 along with a narrative description of the exposure situation.**
- Complete ASSESSMENT and DISPOSITION sections on page 3.
 - 0 Document whether symptomatic and describe any illness.
 - 0 Check exposure risk level and provide a justification. For high/some risk, document last potential exposure date.
 - 0 Document notification of Global Migration Task Force (GMTF) Ebola Consultant on call
 - 0 Check disposition and document notification of state/local health department(s) (S/L HD).
 - 0 Sign and date form.

Definitions (for the purpose of this form) - explain each to traveler at first mention:

- **"Person with Ebola"** includes confirmed or suspect cases or any person who died of an illness that included fever, vomiting, diarrhea, or unexplained bleeding. If not a confirmed case, get more information about illness/death circumstances.
- Appropriate personal protective equipment (PPE) is wearing (at a minimum): facemask, eye protection (goggles/face shield), gloves, impermeable gown, boots/shoe covers during every potential exposure.
- **Body fluids** include blood, urine, saliva, sweat, feces, vomit, breast milk, and semen.

Relevant country(ies): _____

Dates in country(ies) (mm/dd/yy): / to / /	_
If traveler was not in a relevant country or was last there more than 21 days	s ago, no further assessment is needed. Document on
page 3 as no identifiable risk and provide justification.	

REASON FOR REFERRAL TO CDC (check all that apply): \Box measured temp \geq 100.4°F \Box visibly symptomatic \Box self-reported fever

🗆 self-reported vomiting/diarrhea 🛛 contact with Ebola patient 🖓 in healthcare facility (HCF)/laboratory 🖓 dead body/funeral

SIGNS OR SYMPTOMS (past 48 he	ours): 🛛 None	□ Fever	□ Severe headach	ne □N	/luscle pain	🗆 Fatigue	□ Vomiting
□ Diarrhea □ Stomach pain □ Unexplained bleeding/bruising Onset date of earliest symptom (mm/dd/yy)://							
Measured temperature:	Time:	Tem	perature method:	🗆 Oral	□ Tympanic	□ Noncon	itact
If temperature rechecked:	Time:	Tem	perature method:	🗆 Oral	□ Tympanic	□ Noncon	itact
Reported use of fever-reducing medication (past 12 hours)? Yes No Unknown							
If YES : Medication name:		Dose:		Time since l	ast dose:	(hours)	

EXPOSURE ASSESSMENT QUESTIONS - In the past 21 days, while you were in [name of relevant country]:

1. Did you ever come into contact with or have other potential exposure to blood or other body fluids of a person with Ebola (this includes while wearing PPE)? Note to interviewer: As applicable, ask about activities such as cleaning/disinfecting contaminated

areas or spraying in HCF doffing areas (i.e. before PPE removal) or of dead bodies/body bags.
□ Yes □ No □ Unknown

Public reporting burden of this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA 0920-0821.

Traveler Name:	Date (mm/dd/yy):				
Passport Country:	Passport Number:				
a. If YES : Did the contact include any of the following? (YES to a	ny of these = HIGH RISK, describe on p. 3):				
i. Getting stuck with a needle or other sharp object?	🗆 Yes 🗆 No 🛛 Unknown				
ii. Getting splashed in the eye, nose or mouth?	Yes No Unknown				
iii. Getting blood or body fluids directly on your skin?	□ Yes □ No □ Unknown				
	YES (to PPE use) = SOME RISK (Describe on p. 3)				
 Did you take care of patients in any healthcare setting or did you w 					
YES = SOME RISK (Describe on p. 3)					
3. Did you provide direct care to anyone with Ebola while that person patient care was taking place? This includes household or healthcar travelers that report visiting Ebola treatment units (ETUs) this quest required, such as patient care areas. Yes No If YES, documents of the second s	re settings. Note to interviewer: Please clarify context; for tion refers only to areas of the ETU where PPE is typically				
Household member providing care = HIGH RISK (Describe on	p. 3.)				
\Box Healthcare worker (HCW) providing patient care \Box Nonclinic	cal activities D Observer - check as applicable and ask 3 a & b				
a. Did you wear appropriate PPE <u>at all times</u> ? □ Yes □ N NO (to PPE use) = HIGH RISK YES (to PPE use) = SOME RIS					
	taff in facility diagnosed with Ebola? Yes No Unknown ed infection control breaches (HIGH RISK) may have occurred.				
4. Did you work in a laboratory?	ry:				
a. If YES: Did you handle specimens of Ebola patients or was thei. If YES (to handling specimens of Ebola patients/lab association)					
standard lab biosafety precautions <u>at all times</u> ? Yes No Unknown Consult the list of laboratories for which CDC is confident that biosafety precautions are followed. If laboratory is not on list, get a description of all lab-related activities, including activities outside the laboratory environment such as phlebotomy or entering a patient care area to pick up specimens. Together with GMTF Consultant, call CDC Emergency Operations Center (770-488-7100) and ask for the Laboratory Task Force on-call to conduct assessment. Appropriate PPE plus biosafety precautions = LOW (BUT NOT ZERO) RISK Appropriate PPE but not all biosafety precautions followed (based on SME assessment) = SOME RISK No PPE/biosafety precautions or PPE breach = HIGH RISK NOTE: Use questions 2 and 3, as applicable, to assess and document any activities in patient care areas (e.g., phlebotomy, picking up specimens).					
	No e contact with the water used to wash dead bodies or the cloth in funeral or burial rites or any other activities that involved				
handling dead bodies. 🗆 Yes 🗆 No 🗖 Unknown					
 i. If YES (to touching bodies or other exposure): Did you wear ap NO (to PPE use) = HIGH RISK YES (to PPE use) = SOME 					
6. Did you live or work (such as cleaning or doing laundry) in the same	e household as a person with Ebola while that person was sick?				
🗆 Yes 🗆 No 🛛 Unknown					
Ebola patient's date of symptom onset (if known) (mm/dd/yy): / /				
Dates traveler lived or worked in household during person's il	llness: / / to / /				
YES (household member during symptomatic period) = HIGH/SOM	E RISK (Get more information. Describe on p. 3.)				
7. Were you ever near a person with Ebola while the person was sick	and you were not wearing PPE? 🗆 Yes 🗆 No 🛛 Unknown				

a. Were you within 3 feet (1 meter) of the person with Ebola?

Yes
No
Unknown

Traveler Name:	Date (mm/dd/yy):			
Passport Country:	Passport Number:			
If YES: Get an estimate of time and a description of activities. Desc extended period = SOME RISK	ribe on p. 3. Time:	(hours)	(minutes)	YES AND
b. Did you touch the person with Ebola (e.g. shaking hands)?	s 🗆 No 🗆 Unknown			

If YES: Get more information abo	out stage	of illness: EARLY (mildly ill) = LOW (BUT NOT ZERO)	LATE (severely ill) = HIGH
