Subject: RE: CT dialysis package

Great, thanks.

I conclude that the expansion remains within the scope of non-research public health response. The original determination of non-research stands.

Lee: please let me know if you need additional documentation beyond this line of correspondence for the OMB package.

Thank you,
Laura

Yes, that is correct. Posting will be through epi-x and then augmented through other means of dissemination. But the data collection is for additional cases identified.

Subject: FW: CT dialysis package

Duc, Priti – I have reviewed the attached documents. It looks like the expansion is limited to additional case-finding through epi-X, and then similar data collection for any additional cases identified. Is this correct?

Thanks!
Laura

Hi Laura,

Here is the package we sent to Amy and Lee earlier

Duc

Sent from my BlackBerry 10 smartphone on the Verizon Wireless 4G LTE network.

Subject: CT dialysis package

Hi Amy,

Attached is the package that we have so far.

Thank you

Duc
