Technical information: (202) 691-6569 • oesinfo@bls.gov • www.bls.gov/oes

Media contact: (202) 691-5902 • PressOffice@bls.gov

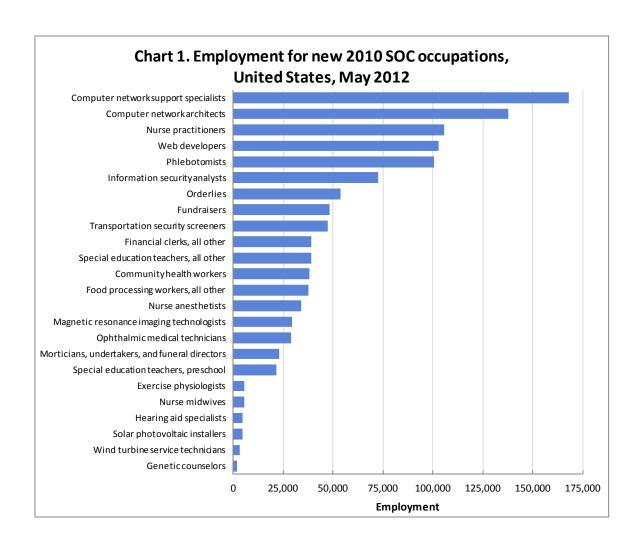

## OCCUPATIONAL EMPLOYMENT AND WAGES — MAY 2012

Computer network support specialists, with employment of 167,980 in May 2012, and nurse practitioners, with employment of 105,780, were 2 of the largest new occupations in the 2010 Standard Occupational Classification (SOC) system, the U.S. Bureau of Labor Statistics reported today. These are 2 of 24 newly defined detailed occupations shown in chart 1 and table A. National employment and wage information for all occupations in the 2010 SOC is shown in table 1.

The data in this news release are from the Occupational Employment Statistics (OES) program, which provides employment and wage estimates by area and by industry for wage and salary workers in 22 major occupational groups and 821 detailed occupations. In addition, national employment and wage estimates for 94 minor occupational groups and 458 broad occupations are available for the first time.

## **New 2010 SOC Occupations**

- Other large newly defined occupations include computer network architects, with employment of 137,890, and web developers, with employment of 102,940. Phlebotomists, who draw blood for tests, transfusions, donations, or research, had employment of 100,380 in May 2012. (See chart 1 and table A.)
- Some new occupations were quite small: genetic counselors, wind turbine service technicians, and solar photovoltaic installers each had employment of less than 5,000. (See chart 1 and table A.)
- Several newly defined occupations earned high wages relative to the U.S. annual mean of \$45,790. Nurse anesthetists had an annual mean wage of \$154,390, nurse practitioners, \$91,450, and nurse midwives, \$91,070. Information security analysts had an annual mean wage of \$89,290 and computer network architects, \$94,000. (See table A.)
- Orderlies, with an annual mean wage of \$25,700, was among the lowest paid occupations new to the 2010 SOC. Phlebotomists (\$30,910), ophthalmic medical technicians (\$35,590), and community health workers (\$37,490) also had wages below the U.S. average. (See table A.)

Occupational profiles for all occupations are available on the BLS website at www.bls.gov/oes/current/oes\_stru.htm.

## **Major Occupational Groups**

- Among the 22 major occupational groups, office and administrative support had the largest employment in May 2012, making up more than 16 percent of total U.S. employment. Sales and related occupations was the second largest major group with nearly 11 percent of U.S. employment. The sales and related group includes the two largest detailed occupations in the U.S.—retail salespersons and cashiers. These two occupations combined accounted for nearly 6 percent of U.S. employment in May 2012. (See chart 2.)
- The smallest major occupational groups included legal occupations and life, physical, and social science occupations, each making up less than 1 percent of total employment. (See chart 2.)
- The highest paying major occupational groups were management, legal, computer and mathematical, and architecture and engineering occupations. Most of the detailed occupations in these groups were also high paying. In fact, all 19 of the detailed occupations in the computer

Table A. National employment and wages for occupations identified as new in the 2010 Standard

Occupational Classification (SOC) system, May 2012

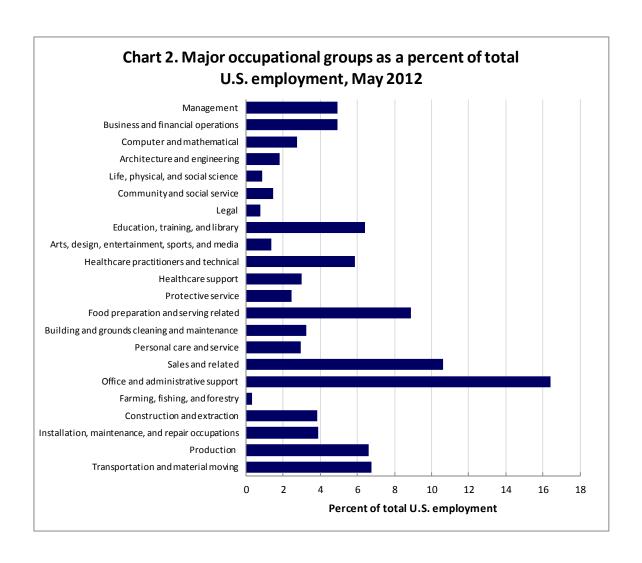

2010 SOC	` , , , , , , , , , , , , , , , , , , ,		Mean	wages	Median
Code	Occupation	Employment	Hourly	Annual <sup>1</sup>	Hourly Wages

25-2051	Special education teachers, preschool	21,770	(2)	57,770	(2)
25-2059	Special education teachers, all other	39,260	(2)	56,160	(2)
29-1128	Exercise physiologists	5,820	22.89	47,610	21.53
29-1151	Nurse anesthetists	34,180	74.22	154,390	71.23
29-1161	Nurse midwives	5,710	43.78	91,070	43.08
29-1171	Nurse practitioners	105,780	43.97	91,450	43.25
29-2035	Magnetic resonance imaging technologists	29,560	31.45	65,410	31.42
29-2057	Ophthalmic medical technicians	29,170	17.11	35,590	16.46
29-2092	Hearing aid specialists	4,980	22.49	46,780	19.92
29-9092	Genetic counselors	2,000	26.84	55,820	27.31
31-1015	Orderlies	53,920	12.35	25,700	11.53
31-9097	Phlebotomists	100,380	14.86	30,910	14.29
33-9093	Transportation security screeners	47,200	17.85	37,130	17.71
39-4031	Morticians, undertakers, and funeral directors	23,070	25.33	52,690	22.52
43-3099	Financial clerks, all other	39,290	19.03	39,580	17.72
47-2231	Solar photovoltaic installers	4,710	19.53	40,620	18.22
49-9081	Wind turbine service technicians	3,200	23.23	48,320	22.10
51-3099	Food processing workers, all other	37,570	11.96	24,880	11.12

<sup>&</sup>lt;sup>1</sup> Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

and mathematical group had mean annual wages above the \$45,790 average for all occupations. Within these 19 occupations, annual mean wages ranged from \$50,130 for computer user support specialists to \$106,680 for actuaries. In the architecture and engineering group, 34 of the 35 detailed occupations paid above-average wages. (See table 1.)

• The lowest paying major occupational group was food preparation and serving related occupations with an annual mean wage of \$21,380. All but 1 detailed occupation within this major group had average wages below \$32,000. The exception was chefs and head cooks, with an annual mean wage of \$46,570, slightly above the all-occupations average. In the personal care and service occupational group, which had an annual mean wage of \$24,550, only 3 of the 33 detailed occupations had above-average wages. (See table 1.)

<sup>&</sup>lt;sup>2</sup> Wages for some occupations that do not generally work year round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

## **Private and Government Employers**

The OES program provides data for private employers and federal, state, and local governments separately.

- The private sector accounted for over 90 percent of employment in more than half of the detailed occupations, including 6 of the 10 largest occupations in the U.S. Almost all of the 4.3 million retail sales workers, 3.3 million cashiers, and 2.3 million waiters and waitresses were employed in the private sector. Of the 10 largest occupations in the private sector, 7 had annual mean wages below \$30,000. Among the largest occupations in the private sector, general and operations managers (\$115,930) and registered nurses (\$68,070) had the highest wages.
- Five of the 6 largest occupations in the public sector were education related: elementary school teachers, except special education; middle school teachers, except special and career/technical education; secondary school teachers, except special and career/technical education; teacher assistants; and substitute teachers. Over 75 percent of employment in each of these occupations was in the public sector, and for each, over 95 percent of their public sector employment was in local government. Other occupations with a large share of employment in local government included firefighters and police and sheriff's patrol officers.

- Correctional officers and jailers (237,380), general office clerks (183,800), and registered nurses (138,210) were the largest occupations in state government. Combined, these 3 occupations accounted for over 12 percent of all state government employment.
- Three of the 6 largest occupations in the federal government were specific to the U.S. Postal Service—postal service mail carriers; postal service mail sorters, processors, and processing machine operators; and postal service clerks—which combined accounted for 19 percent of federal employment. Also among the largest federal government occupations were registered nurses, management analysts, and compliance officers.

OES data by ownership are available on the BLS website at www.bls.gov/oes/current/oessrci.htm.

#### **Industries**

- Health care and social assistance was the industry sector with the largest employment in May 2012. Registered nurses and nursing assistants were the largest detailed occupations in this sector, with about 2.3 million and 1.3 million jobs, respectively. About 71 percent of registered nurses in the health care and social assistance sector were in hospitals, while nearly 63 percent of nursing assistants in the sector were employed by nursing and residential care facilities.
- Retail trade was the second largest industry sector in May 2012. Nearly 53 percent of the retail sector's employment came from 3 detailed occupations: retail salespersons, cashiers, and first-line supervisors of retail sales workers. Other large industry sectors in May 2012 included educational services, manufacturing, and accommodation and food services.
- Industries with the highest annual mean wages in May 2012 included 3 from the finance and insurance sector—securities and commodity exchanges (\$98,670), other financial investment activities (\$95,190), and securities and commodity contracts intermediation and brokerage (\$94,760). Other high-paying industries included oil and gas extraction (\$92,270) and software publishers (\$91,050). These industries tended to be small in terms of employment and the largest occupations within them tended to pay high wages. For example, 9 of the 10 largest detailed occupations in software publishing had mean annual wages well above average, including systems software developers (\$104,960), applications software developers (\$99,140), and market research analysts and marketing specialists (\$88,670).
- Restaurants and other eating places, in the accommodation and food services sector, had the lowest mean wage in May 2012 at \$21,520. Nine of the 10 largest detailed occupations in this industry had wages that averaged less than \$23,000. The retail trade sector included 7 of the 10 lowest-paying industries, including gasoline stations, book stores and news dealers, and shoe stores. Cashiers, with an annual mean wage of \$18,920, made up 66 percent of employment in gasoline stations. Retail salespersons was the largest occupation in book stores and news dealers and in shoe stores, with mean wages of \$21,240 and \$21,190, respectively.

OES data by industry are available on the BLS website at www.bls.gov/oes/current/oessrci.htm.

## **States and Areas**

• States with high total employment, such as California, Texas, New York, and Florida, also tended to have the highest employment of many individual occupations. For example, Texas and

California had the highest employment of aircraft mechanics and service technicians, 12,110 and 11,420, respectively. However, smaller states often had higher-than-average shares of employment for particular occupations. For example, as a share of total employment, Alaska and Oklahoma each had nearly 4 times as many aircraft mechanics and service technicians as the U.S. as a whole.

- Similarly, the largest metropolitan areas tended to have the highest numbers of jobs in many individual occupations, but smaller metropolitan areas often had higher concentrations of specific occupations. For example, New York-Northern New Jersey-Long Island, N.Y.-N.J.-Pa., and Washington-Arlington-Alexandria, D.C.-Va.-Md.-W.Va., had the highest employment of detectives and criminal investigators, although neither area had a particularly high concentration of this occupation. However, Laredo, Texas, had a concentration of detectives and criminal investigators roughly 17 times the U.S. average followed by Las Cruces, N.M., with a concentration of nearly 12 times the average for this occupation.
- Wages for occupations also varied considerably across states and metropolitan areas. For example, annual mean wages for accountants and auditors ranged from \$54,620 in North Dakota and \$57,140 in West Virginia to \$87,370 in the District of Columbia and \$85,140 in New York. Wages for this occupation varied even more by area than by state: among metropolitan areas with at least 100 accountants and auditors, annual mean wages ranged from \$47,820 in Jefferson City, Mo., and \$48,320 in Steubenville-Weirton, Ohio-W.Va., to \$87,740 in Ocean City, N.J., and \$91,240 in New York-White Plains-Wayne, N.Y.-N.J.

OES data, including location quotients, by state and metropolitan/nonmetropolitan area are available on the BLS website at www.bls.gov/oes/current/oessrcst.htm and www.bls.gov/oes/current/oessrcma.htm, respectively.

## **Notes on Occupational Employment Statistics Data**

With the release of the May 2012 estimates, OES data are based on the 2010 Standard Occupational Classification (SOC) system for the first time. In addition to 22 major occupational groups and 821 detailed occupations, employment and wage estimates for 94 minor groups and 458 broad occupations are available in the national data for the first time. Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc/.

The May 2012 OES estimates are the first to be produced using the 2012 North American Industry Classification System (NAICS). Information about the 2012 NAICS is available on the BLS website at www.bls.gov/bls/naics.htm.

## **Technical Note**

## Scope of the survey

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 500 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the North American Industry Classification System (NAICS) sector, 3-, 4-, and selected 5- and 6-digit industry levels; and national estimates by ownership across all industries and for schools and hospitals.

The OES survey is a cooperative effort between BLS and the State Workforce Agencies (SWAs). BLS funds the survey and provides the procedures and technical support, while the State Workforce Agencies collect most of the data. OES estimates are constructed from a sample of about 1.2 million establishments. Each year, forms are mailed to two semiannual panels of approximately 200,000 sampled establishments, one panel in May and the other in November. May 2012 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2012, November 2011, May 2011, November 2010, May 2010, and November 2009. The overall national response rate for the six panels is 76.6 percent based on establishments and 72.9 percent based on employment. The unweighted employment of sampled establishments across all six semiannual panels represents approximately 59.3 percent of total national employment.

#### The occupational coding system

The OES survey categorizes workers into 821 detailed occupations based on the 2010 Office of Management and Budget's Standard Occupational Classification (SOC) system. Together, these detailed occupations make up 22 of the 23 SOC major occupational groups. Major group 55, Military Specific Occupations, is not included. OES estimates for 2010 and 2011 were based on a hybrid structure of the 2000 and 2010 SOC systems. For more information about the hybrid structure, please see the Bureau of Labor Statistics website at www.bls.gov/oes/oes ques.htm#q40.

For more information about the SOC system, please see the BLS website at www.bls.gov/soc/.

## The industry coding system

The 2012 OES estimates are the first estimates based on the 2012 NAICS. Previous OES estimates were based on the 2007 NAICS. For more information about NAICS, see the BLS website at www.bls.gov/bls/naics.htm.

The OES survey excludes the majority of the agricultural sector, with the exception of logging (NAICS 113310), support activities for crop production (NAICS 1151), and support activities for animal production (NAICS 1152). Private households (NAICS 814) also are excluded. OES federal government data include the U.S. Postal Service and the federal executive branch only. All other industries,

including state and local government, are covered by the survey.

The OES survey covers all full- and part-time wage and salary workers in nonfarm industries. The survey does not include the self-employed, owners and partners in unincorporated firms, household workers, or unpaid family workers.

## Surveysample

The OES survey draws its sample from state unemployment insurance (UI) files. Supplemental sources are used for rail transportation (NAICS 4821) and Guam because they do not report to the UI program. The OES survey sample is stratified by metropolitan and nonmetropolitan area, industry, and size.

To provide the most occupational coverage, larger employers are more likely to be selected than smaller employers. An annual census is taken of the executive branch of the federal government, the U.S. Postal Service, and state government.

## Concepts

Occupational employment is the estimate of total wage and salary employment in an occupation. The OES survey defines employment as the number of workers who can be classified as full- or part-time employees, including workers on paid vacations or other types of paid leave; workers on unpaid short-term absences; salaried officers, executives, and staff members of incorporated firms; employees temporarily assigned to other units; and employees for whom the reporting unit is their permanent duty station, regardless of whether that unit prepares their paycheck.

Wages for the OES survey are straight-time, gross pay, exclusive of premium pay. Base rate; cost-of-living allo wances; guaranteed pay; hazardous-duty pay; incentive pay, including commissions and production bonuses; and tips are included. Excluded are overtime pay, severance pay, shift differentials, nonproduction bonuses, employer cost for supplementary benefits, and tuition reimbursements.

OES receives wage rate data for the federal government, the U.S. Postal Service, and some state governments. For the remaining establishments, the OES survey collects wage data in 12 intervals. For each occupation, respondents are asked to report the number of employees paid within specific wage intervals. The intervals are defined both as hourly rates and the corresponding annual rates, where the annual rate for an occupation is calculated by multiplying the hourly wage rate by a typical work year of 2,080 hours. The responding establishments are instructed to report the hourly rate for parttime workers, and to report annual rates for occupations that are typically paid at an annual rate but do not work 2,080 hours per year, such as teachers, pilots, and flight attendants. Other workers, such as some entertainment workers, are paid hourly rates, but generally do not work 40 hours per week, year round. For these workers, only an hourly wage is reported.

#### Estimation methodology

The OES survey is designed to produce estimates by combining six panels of data collected over a 3-year period. Each OES panel includes approximately 200,000 establishments. The full six-panel sample of nearly 1.2 million establishments allows the production of estimates at detailed levels of geography, industry, and occupation.

Wage updating. Significant reductions in sampling errors are obtained by combining six panels of data, particularly for small geographic areas and occupations. Wages for the current panel need no adjustment. However, wages in the five previous panels need to be updated to the current panel's reference period.

The OES program uses the BLS Employment Cost Index (ECI) to adjust survey data from prior panels before combining them with the current panel's data. The wage updating procedure adjusts each detailed occupation's wage rate, as measured in the earlier panel, according to the average movement of its broader occupational division.

Imputation. About 23 percent of establishments do not respond for a given panel. A "nearest neighbor" hot deck

imputation procedure is used to impute missing occupational employment totals. A variant of mean imputation is used to impute missing wage distributions.

Weighting and benchmarking. The sampled establishments are weighted to represent all establishments for the reference period. Weights are further adjusted by the ratio of employment totals (the average of November 2011 and May 2012 employment) from the BLS Quarterly Census of Employment and Wages to employment totals from the OES survey.

## For more information

Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes\_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/2012/may/methods statement.pdf.

Table 1. National employment and wage data from the Occupational Employment Statistics survey by occupation, May 2012- Continued

Occupation	Employment	Mean wages		Median
		Hourly	Annual <sup>1</sup>	hourly wages
sportation and material moving occupations (Continued)				
Dredge, excavating, and loading machine operators	49,660	\$20.32	\$42,260	\$18.73
Dredge operators	1,740	20.73	43,120	17.87
Excavating and loading machine and dragline operators	45,020	20.12	41,850	18.41
Loading machine operators, underground mining		23.11	48,060	23.28
Hoist and winch operators	3,050	22.94	47,710	19.21
Industrial truck and tractor operators	496,570	15.43	32,090	14.53
Laborers and material movers, hand	3,213,370	12.17	25,310	10.95
Cleaners of vehicles and equipment	302,960	10.87	22,620	9.54
Laborers and freight, stock, and material movers, hand	2,143,940	12.70	26,410	11.49
Machine feeders and offbearers	105,790	13.79	28,680	13.04
Packers and packagers, hand	660,670	10.80	22,470	9.57
Pumping station operators	30,570	22.85	47,520	22.23
Gas compressor and gas pumping station operators	4,350	24.92	51,840	24.59
Pump operators, except wellhead pumpers	11,870	22.88	47,590	21.45
Wellhead pumpers	14,350	22.18	46,140	21.97
Refuse and recyclable material collectors	117,670	16.94	35,230	15.83
Mine shuttle car operators	2,990	24.67	51,310	25.05
Tank car, truck, and ship loaders	12,390	22.31	46,400	21.20
Material moving workers, all other	27,260	19.73	41,040	17.94

<sup>&</sup>lt;sup>1</sup> Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

<sup>&</sup>lt;sup>2</sup> Wages for some occupations that do not generally work year round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

<sup>&</sup>lt;sup>3</sup> Represents a wage above \$90.00 per hour.
