PEOPLE WHO MAY HELP TO COORDINATE YOUR CARE

Many different individuals may help to coordinate your care, such as:

- Doctors, including your primary care physician
- Nurses in your doctor's office or in the hospital
- Social workers or discharge planners in a hospital
- Patient Advocates
- Case Managers
- Care Managers
- Patient Navigators

US4

EXAMPLES OF CARE COORDINATION

Helping you select and make appointments with:

- Specialists
- Labs for blood tests, CT scans, or MRIs
- Therapists for physical therapy or rehabilitation
- Home health agencies following a hospital stay

Helping you understand:

- Your doctor's plan for your care
- How or when to take medications
- When a new condition requires care
