

**Addendum to the Supporting Statement for Form SSA-1699
Registration for Appointed Representative Services and Direct Payment
OMB No. 0960-0732**

Revisions to the Burden

As we mentioned in #15 of the Supporting Statement, we are revising our burden based on better management information data, which clearly shows a significant decrease in the number of respondents for this information collection. We will continue to monitor the management information data, and will make future changes to the burden data as needed.

Future Revisions to this Information Collection

SSA is currently working on our new Registration Appointment and Services for Representatives (RASR) project, which we believe will require revisions to the SSA-1699, and which will add new electronic screens for collecting this information. At this time, we have not set timelines to change or automate the form, and we have no finalized RASR screens or form changes to report. We expect we may have new screens and potential paper form changes within a year of obtaining OMB's approval for this collection, and we anticipate the need to submit a new information collection request at that time. We will keep OMB informed of any changes or additions to this information collection.
