“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Crime Victims With Disabilities Awareness Act’.

“SEC. 2. FINDINGS; PURPOSES.

“(a) FINDINGS.—Congress finds that—

“(1) although research conducted abroad demonstrates that individuals with developmental disabilities are at a 4 to 10 times higher risk of becoming crime victims than those without disabilities, there have been no significant studies on this subject conducted in the United States;

“(2) in fact, the National Crime Victim’s Survey, conducted annually by the Bureau of Justice Statistics of the Department of Justice, does not specifically collect data relating to crimes against individuals with developmental disabilities;

“(3) studies in Canada, Australia, and Great Britain consistently show that victims with developmental disabilities suffer repeated victimization because so few of the crimes against them are reported, and even when they are, there is sometimes a reluctance by police, prosecutors, and judges to rely on the testimony of a disabled individual, making individuals with developmental disabilities a target for criminal predators;

“(4) research in the United States needs to be done to—

“(A) understand the nature and extent of crimes against individuals with developmental disabilities;

“(B) describe the manner in which the justice system responds to crimes against individuals with developmental disabilities; and

“(C) identify programs, policies, or laws that hold promises for making the justice system more responsive to crimes against individuals with developmental disabilities; and

“(5) the National Academy of Science Committee on Law and Justice of the National Research Council is a premier research institution with unique experience in developing seminal, multidisciplinary studies to establish a strong research base from which to make public policy.

“(b) PURPOSES.—The purposes of this Act are—

“(1) to increase public awareness of the plight of victims of crime who are individuals with developmental disabilities;

“(2) to collect data to measure the extent of the problem of crimes against individuals with developmental disabilities; and

“(3) to develop a basis to find new strategies to address the safety and justice needs of victims of crime who are individuals with developmental disabilities.

“SEC. 3. DEFINITION OF DEVELOPMENTAL DISABILITY.

“In this Act, the term ‘developmental disability’ has the meaning given the term in section 102 of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 [42 U.S.C. 15002].

“SEC. 4. STUDY.

“(a) IN GENERAL.—The Attorney General shall conduct a study to increase knowledge and information about crimes against individuals with developmental

disabilities that will be useful in developing new strategies to reduce the incidence of crimes against those individuals.

“(b) ISSUES ADDRESSED.—The study conducted under this section shall address such issues as—

“(1) the nature and extent of crimes against individuals with developmental disabilities;

“(2) the risk factors associated with victimization of individuals with developmental disabilities;

“(3) the manner in which the justice system responds to crimes against individuals with developmental disabilities; and

“(4) the means by which States may establish and maintain a centralized computer database on the incidence of crimes against individuals with disabilities within a State.

“(c) NATIONAL ACADEMY OF SCIENCES.—In carrying out this section, the Attorney General shall consider contracting with the Committee on Law and Justice of the National Research Council of the National Academy of Sciences to provide research for the study conducted under this section.

“(d) REPORT.—Not later than 18 months after the date of enactment of this Act [Oct. 27, 1998], the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report describing the results of the study conducted under this section.

“SEC. 5. NATIONAL CRIME VICTIM’S SURVEY.

“Not later than 2 years after the date of enactment of this Act, as part of each National Crime Victim’s Survey, the Attorney General shall include statistics relating to—

“(1) the nature of crimes against individuals with developmental disabilities; and

“(2) the specific characteristics of the victims of those crimes.”

§ 3733. Authority for 100 per centum grants

A grant authorized under this subchapter may be up to 100 per centum of the total cost of each project for which such grant is made. The Bureau shall require, whenever feasible as a condition of approval of a grant under this subchapter, that the recipient contribute money, facilities, or services to carry out the purposes for which the grant is sought.

Notes:

ARREST-RELATED DEATHS Incident Report (CJ-11A) Question-by-Question Guide

Item 1: What was the decedent's name?

Please provide the decedent's legal name (last, first, and middle initial).

Item 2: What was the time and date of death?

Please indicate the "official" time and date of death. The "official" time and date of death indicate when the decedent was pronounced dead by either medical personnel or another authorized official. The official time and/or date of death may be different from the time and/or date of the fatal event. If the official time and date of death are unknown, please estimate the time and date of when the fatal injury was sustained or the fatal medical condition presented.

Example: The decedent sustained a life-threatening injury (e.g., gunshot wound, blunt force trauma) during the process of arrest, but did not die until hours/days/weeks later. The most appropriate response to this item would reflect the time and date life ceased rather than the time and date the injuries were sustained.

Item 3: What law enforcement agency was involved with the death?

Please indicate the name and ORI (ORiginating Identifier) of the primary law enforcement agency involved with the death. When personnel from a single agency are involved with the decedent during the incident, the primary agency is the responding agency. In instances when personnel from more than one agency interact with the decedent during the incident, the primary agency is the one most-involved with the death. For the purposes of ARD, the "primary" agency refers to the agency that caused or contributed to the death, or the agency detaining the decedent at the time of death. The primary agency may be different than the agency initially involved with decedent at the start of the incident.

Example 1: Law enforcement personnel from Agency X attempt a traffic stop. The suspect flees and initiates a high-speed chase that crosses several jurisdictions. Personnel from Agency Y and Agency Z join Agency X in the pursuit. An officer from Agency Z deploys a spike strip (tire deflation device), which punctures the suspect's tires. The punctured tires cause the suspect to lose control of the vehicle and crash into a utility pole at a high rate of speed. The impact from the crash causes fatal injuries. In this instance, Agency Z should be listed as the primary agency because that agency affected the death.

Example 2: A small local police department receives a mental health assistance call for a suicidal person. Officers from this agency are dispatched to the scene. The local agency requests backup from the larger county sheriffs' department and the assistance of their Crisis Intervention Team (CIT). The CIT is given operational responsibility for the suicidal person, who is apprehended and placed under their custody. The suspect dies from complications attributed to a fatal drug overdose during transport to the medical facility. In this instance, the sheriffs' department should be listed as the primary agency because the decedent was in their custody at the time of death.

If personnel from multiple law enforcement agencies are involved with an arrest-related death, please mark the box labeled, "Check if multiple law enforcement agencies responded." In this case, only the primary law enforcement agency should be reported; additional agencies do not need to be listed.

The ORI number is an alpha-numeric identification code used by law enforcement agencies to report and access data. All law enforcement agencies are issued an ORI number by the FBI. ORI numbers are *not* derived from the incident or case number generated by the reporting law enforcement agency. If you are unsure of the reporting agencies' ORI number, please mark the box labeled, "Agency ORI unknown."

Item 4: Where did the event resulting in the death occur?

Please indicate the address or the approximate location (i.e., street intersection, neighborhood) of where the decedent was injured or developed the condition that resulted in death. The purpose of this item is to identify the location of where the death-causing event occurred, which may be different from the location where the incident began or where the decedent died or was pronounced dead (e.g., medical center). If the incident occurred at multiple locations, specify the location where the decedent was injured or developed the condition that resulted in death.

Example 1: Law enforcement personnel are dispatched to a residence for disturbance. While at the residence, the decedent sustains a gunshot wound and later died at a medical facility. The most appropriate response to this item would be the street address of the decedent's residence.

Example 2: Law enforcement personnel respond to a bank robbery in progress. The suspect flees the bank and engages law enforcement personnel in a pursuit. The suspect fires gunshots at law enforcement personnel during the pursuit, who return fire and cause fatal injury. The most appropriate response to this item would be the address of where the gun fire occurred, not the bank where the incident originated.

Item 5: What location category best describes where the event causing the death occurred?

Please categorize the address or the approximate location provided as response to Item 4 into one of the listed location types. The purpose of this item is to specify the type of location where the decedent was injured or develop the condition that resulted in death. If none of the listed location categories describe where the event that resulted in death occurred, please mark "Other" and specify the most appropriate location type. If the location type is unknown, mark "Unknown."

If the incident occurred at multiple locations, specify the location type of where the decedent was injured or developed the condition that resulted in death.

Residence/Home: Permanent residences, including apartments, condominiums, townhouses, nursing homes, residential driveways, and/or residential yards. Incidents occurring on public sidewalks or in public streets near residences should be categorized as "Roadway/Highway/Street/Sidewalk"

Law Enforcement Facility: Places where law enforcement activities are carried out. Including local police departments, sheriffs' offices, sub-stations, lockups, or booking centers, where arrestees are detained or confined prior to arraignment. Incidents occurring in local jails, state prisons, state juvenile correctional facilities, or private correctional facilities should be excluded from the ARD collection and reported to Jails or Prisons data collection components of the Deaths in Custody Reporting Program (DCRP).

Business, specify type: Places where an organization is engaged in the trade of goods, services, or both to consumers. Includes the interior space occupied by the business, as well as the related parking lot, and/or walkway. Please specify the type of business where the event resulting in death occurred (e.g., bank, convenience store, liquor store, bar/night club, restaurant, grocery store/supermarket).

Highway/Road/Alley/Street/Sidewalk: Includes open public ways for the passage of vehicles, people, and animals, except where a business is associated with a walkway (mark "Business").

Parking Lot/Garage: Includes areas that are primarily used for parking motorized vehicles, except when a business is associated with a parking lot (mark "Business").

Field/Woods/Lake/Waterway/Beach: Includes areas that are primarily open fields or wooded areas, shorelines, lakes, streams, canals, or bodies of water other than swimming pools. This category does not include parks.

Other, specify: This category encompasses any location that is not applicable above. Please specify the location type in the space provided (e.g. hotel/motel, school/college, church/synagogue/temple/mosque).

Item 6: What was the decedent's sex?

If the decedent's sex is not known, leave blank.

Item 7: What was the decedent's date of birth (DOB)?

Please indicate the decedents' date of birth (DOB) in a MM-DD-YYYY format. If the DOB is unknown, please indicate the decedent's age at time of death. If both DOB and age at death are unknown, leave blank.

Item 8: What was the decedent's ethnic origin?

Race and ethnicity are considered separate and distinct identities. There are two categories for data on ethnicity: "Hispanic or Latino" and "Not Hispanic or Latino." In addition to the decedent's race, please indicate whether the decedent was of Hispanic or Latino descent or origin. If ethnic origin is unknown, mark "Unknown."

Hispanic or Latino. A person of Cuban, Mexican, Puerto Rican, South or Central America, or other Spanish culture or origin, regardless of race. The term, "Spanish origin," can be used in addition to "Hispanic or Latino."

Item 9: What was the decedent's race?

In addition to ethnicity, please specify the decedent's race. There are five categories for data on race: "American Indian or Alaska Native," "Asian," "Black or African American," "Native Hawaiian or Other Pacific Islander, and "White." The categories in this classification are social-political constructs and should not be interpreted as being scientific or anthropological in nature. If race is unknown, mark "Unknown."

American Indian or Alaska Native: A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Black or African American: A person having origins in any of the black racial groups of Africa. Terms such as "Haitian" or "Negro" can be used in addition to "Black or African American."

Native Hawaiian or Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Item 10: What was the reason for the initial contact between the decedent and law enforcement personnel?

Please indicate how the decedent came into contact with law enforcement personnel and specify why the contact occurred. Contact between the decedent and law enforcement can be initiated by civilians, including the decedent, or by law enforcement personnel. Civilian initiated contacts include "civilian request for response to criminal or suspicious activity" and "civilian request for medical, mental health, or welfare assistance." Law enforcement initiated contacts include "routine patrol/on-view," "Traffic/vehicle stop," and "warrant service." If the reason for contact between the decedent and law enforcement is not listed, please mark "Other" and specify why the interaction occurred. If the reason for contact between the decedent and law enforcement is unknown, mark "Unknown."

Civilian request for response to criminal or suspicious activity: Involves situations in which a civilian requests the assistance of law enforcement in response to actual, perceived, or suspected criminal activity. This includes 9-1-1 calls for law enforcement assistance as well as instances in which law enforcement personnel are flagged down by civilians.

Example 1: A woman calls 9-1-1 to report a domestic assault in progress. Law enforcement personnel are dispatched to her residence. Upon their arrival, law enforcement personnel are confronted by a man with a gun. The man engages in a shoot-out with officers and is fatally wounded. The most appropriate response to this item would be "civilian request for response to criminal or suspicious activity" specified as "domestic violence/assault."

Civilian request for medical, mental health, or welfare assistance: Involves situations where a civilian requests the assistance of law enforcement for reasons that are not criminally related, such as requests related to medical or mental health assistance (i.e., suicidal person) and welfare checks. This includes 9-1-1 calls for law enforcement assistance as well as instances in which law enforcement personnel are flagged down by civilians.

Example 2: A 9-1-1 call is made requesting law enforcement personnel perform a well-being check at a residence. Officers arrive and make contact with the subject. Following the initial contact, the subject threatens to commit suicide and then barricades himself in the residence. Officers hear a gunshot from inside the residence during the standoff.

They later enter the residence and find the subject dead from what appears to be a self-inflicted gunshot. The most appropriate response would be "civilian request for medical, mental health, or welfare assistance."

Routine patrol/on-view (other than traffic stop): Involves situations in which law enforcement personnel witness an actual or perceived criminal act during the course of performing law enforcement duties. This category excludes contacts initiated by a traffic stop, even if the traffic stop was made during routine patrol activities. This category also excludes dispatched responses to 9-1-1 calls, which should be recorded as either "civilian request for response to criminal or suspicious activity" or "civilian request for medical, mental health, or welfare assistance."

Example 3: An officer is on routine patrol of his beat when he sees a man attempting to break into the back door of closed retail store. Upon seeing the officer, the subject flees the scene on foot and engages the officer in a pursuit. The subject runs into traffic during the pursuit and is fatally struck by a civilian motorist. The most appropriate response would be "routine patrol/on-view (other than traffic stop)" specified as "burglary" or "breaking and entering."

Traffic/Vehicle Stop: Involves situations in which law enforcement personnel initiate contact with the decedent through a traffic or vehicle stop during the course of performing law enforcement duties.

Example 4: An officer observes a vehicle driving erratically and initiates a traffic stop. The officer suspects the subject is intoxicated and begins conducting field sobriety tests. The subject becomes belligerent during the tests and attempts to punch the officer. The officer uses his conductive energy device on the subject. The subject falls and strikes his head on the ground, causing fatal injury. The most appropriate response would be "traffic/vehicle stop."

Warrant service: Involves situations in which law enforcement initiate contact with the decedent through an attempt to serve an active warrant for their arrest. This category excludes situations where the decedent had an active arrest warrant, but came into with law enforcement personnel for other reasons, such as a traffic stop.

Example 5: Law enforcement personnel obtain an arrest warrant for a murder suspect and attempt to apprehend the suspect at his residence. The suspect flees the house with a firearm and a pursuit ensues. The suspect fires several shots at officers as he attempts to escape. Officers return fire and fatally wound the decedent. The most appropriate response would be "warrant service" specified as "murder" or "homicide."

Item 11: At any time during the incident, did the decedent –

Please indicate whether the decedent engaged in any of the actions listed, during the incident that resulted in death, by marking either "Yes" or "No" for each item. For the purposes of the ARD program, the "incident" refers to the period of time from the decedent's initial contact with law enforcement personnel up to the time of death. Please limit responses to actions taken by the decedent during the incident and disregard any similar behaviors or actions that occurred prior to contact with law enforcement personnel. If it is unknown whether the decedent engaged in one or more of the actions listed, mark "Unknown" for each relevant action.

Make suicidal statements: Includes all instances in which the decedent states he or she plans to commit suicide, expresses a desire to end his or her life, or directs law enforcement personnel to use lethal force against him or her. Please mark "Yes" to this response if the contact between the decedent and law enforcement personnel was initiated because the decedent indicated he/she was suicidal (i.e., 9-1-1 call for mental health or welfare assistance).

Barricade self or initiate standoff: Includes all instances in which the decedent attempts to elude apprehension by refusing to surrender to law enforcement or by taking action aimed at preventing capture, such as using a structure to conceal him or herself.

Verbally threaten other(s): Includes all instances in which the decedent makes statements indicating a desire to inflict harm or to engage in violence against either law enforcement personnel or civilians.

Resist being handcuffed or arrested: Includes all instances in which the decedent physically struggles with law enforcement personnel in an attempt to get out from being restrained (e.g., handcuffed or put into a police vehicle). This category is representative of evasive actions taken by the decedent in order to avoid restraint, rather than direct physical assaults on law enforcement personnel.

Attempt to escape/flee from custody: Includes all instances in which the decedent attempts or actually absconds from law enforcement personnel in order to avoid apprehension or detention.

Attempt to grab, hit, kick, or fight with officer(s): Includes all instances in which the decedent attempts or actually physically attacks law enforcement personnel.

Attempt to gain possession of officer's weapon: Includes all instances in which the decedent attempts or actually disarms law enforcement personnel of his or her service firearm or other weapon (i.e., conducted energy device, baton).

Item 12: At any time during the incident, did the decedent display or use a weapon?

Please indicate whether the decedent displayed or used a weapon against law enforcement personnel or civilians, during the incident that resulted in death, by marking "Yes" or "No." For the purposes of the ARD program, the "incident" refers to the period of time from the decedent's initial contact with law enforcement personnel up to the time of death. Please limit responses to actions taken by the decedent during the incident and disregard any similar behaviors or actions that occurred prior to contact with law enforcement personnel. If weapon display or use by the decedent is unknown, mark "Unknown."

If "Yes," please mark all that apply to indicate if a weapon was displayed, used, or both and the type of weapon the decedent possessed. For the purposes of this item, hands, fists, or feet are not considered weapons.

Displayed firearm without discharge: Includes instances in which the decedent openly brandishes or points a firearm at another person without bullets being fired from it.

Discharged firearm: Includes instances in which the decedent expels bullets from a firearm, regardless of whether the bullets struck another person.

Displayed other weapon: Includes instances in which the decedent made an instrument or device other than a firearm (e.g., knife, sword, pipe, baseball bat) visible to others under

threatening circumstances, without using the instrument in a physical attack. Please specify the weapon the decedent displayed in the space provided.

Used other weapon: Includes instances in which the decedent uses an instrument or device other than firearm (e.g., knife, sword, pipe, baseball bat) to attack, cut, strike, beat, etc. another person. Please specify the weapon the decedent used in the space provided.

Used vehicle as weapon: Includes instances in which the decedent uses a motor vehicle to attempt or actually hit another person with a motor vehicle.

Item 13: At any time during the incident, did the decedent attempt to injure or injure others?

Please indicate whether the decedent attempted to injure or injured law enforcement personnel or another civilian, during the incident that resulted in death, by marking "Yes" or "No." For the purposes of the ARD program, the "incident" refers to the period of time from the decedent's initial contact with law enforcement personnel up to the time of death. Please limit responses to actions taken by the decedent during the incident and disregard any similar behaviors or actions that occurred prior to contact with law enforcement personnel. If injuries inflicted by the decedent are unknown, mark "Unknown."

If "Yes," please mark all that applies to indicate whether law enforcement personnel or civilian(s) were injured during the incident.

Fatally injured law enforcement personnel or civilians(s): Includes instances in which the decedent caused the death of another person during the incident, regardless of whether the death was intentional or accident.

Non-fatally injured law enforcement personnel or civilian(s): Includes instances in which the decedent caused physical harm to another person during the incident, regardless of whether the harm was intentional or accidental.

Attempted to injure law enforcement personnel or civilian(s): Includes instances in which the decedent intended to cause another person physical harm, but did not inflict physical injuries. This category includes instances in which the decedent discharged a firearm, in the direction of another, without striking the intended target with the bullets.

Item 14: At any time during the incident, did law enforcement personnel -

Please indicate whether law enforcement personnel engaged in any of the actions listed, during the incident that resulted in death, by marking "Yes" or "No." For the purposes of the ARD program, the "incident" refers to the period of time from the decedent's initial contact with law enforcement personnel up to the time of death. If it is unknown whether law enforcement engaged in one or more of the actions listed, mark "Unknown" for each relevant action. If law enforcement personnel engaged in an action that is not listed, please mark "other" and specify the action in the space provided.

Fight or struggle with decedent: Includes instances of physical contact between the decedent and law enforcement personnel (e.g. punching, grabbing, kicking, wrestling).

Physically restrain decedent: Includes instances in which law enforcement personnel use bodily contact to control, subdue, and/or restrain the decedent (e.g., control holds, body compression, headlocks).

Restrain decedent with equipment: Includes instances in which law enforcement personnel place the decedent in restraints, such as handcuffs, leg shackles, or other confining and/or restraining device.

Place decedent in prone position: Includes instances in which law enforcement personnel restrain the decedent by laying him or her face-down on the ground.

Engage in motor vehicle pursuit: Includes instances in which law enforcement personnel chase or follow a decedent fleeing in a motor vehicle.

Engage in foot pursuit: Includes instances in which law enforcement personnel chase or follow a decedent fleeing on foot.

Item 15: At any time during the incident, did law enforcement personnel use any of the following weapons?

Please mark "Yes," "No," or "Unknown" for every response category. In this question, "use" is defined as any use of weapons, even if they were not a cause of or contributing factor in the death should be reported. If law enforcement personnel used a weapon that is not listed, please indicate the response, "Other" and fill in the specific weapon used.

Item 16: If the decedent sustained fatal injuries during the incident, how were these injuries sustained?

Please mark Yes," "No," or "Unknown" for every response category. Self-inflicted injuries would include any accidental injuries to the decedent's self, as well as suicide.

Item 17: If a weapon caused the death, what type of weapon caused the death?

This item should be completed for all deaths, regardless of the manner of death. The purpose of this item is to identify specific weapon(s) that *caused* the death, instead of weapons that were *used* during the incident. All weapons used by law enforcement during the incident should be listed under Item 15. Please limit response to Item 17 to the **one** weapon to which the death was attributed, if any.

If a firearm was used, but the type of firearm is not known, please mark "Firearm, unspecified." If the weapon that caused the death is not listed in Item 17, mark "Other weapon" and specify the type of weapon causing the death. Deaths due to an individual struck by a vehicle or deaths attributed to a vehicle accident should be marked as, "Vehicle-involved crash." If the weapon that caused the death is not known, mark "Unknown." If a weapon did not cause the death, mark "Not applicable; weapon or vehicle did not cause death."

Item 18: Where did the death occur?

Please choose the best response for this question. The response option should reflect where the decedent actually expired not necessarily where the incident originated.

Item 19: What was the manner of death?

The *manner* of death is “how” the person died, typically illustrated by a one-word description of intentions and circumstances that led to the stated medical *cause* of death. Essentially, the manner of death is the *way* in which death was caused (e.g., homicide, suicide).

Note the difference between “Could not be determined” and “Unknown.” “Undetermined” is an official cause of death, while “Unknown” indicates the information is missing, unavailable, or unknown at the time. If a medical examiner or coroner classified the death as “Undetermined,” mark “Could not be determined.”

Intentional alcohol or drug overdoses should be marked as “Suicide.” *Unintentional* over use of alcohol or drugs for recreational purposes should be marked as “Accident.”

Item 20: What was the cause of death?

Unlike the manner of death, which describes the circumstances leading to one’s death, *cause* of death is a description of the specific medical factors leading to the termination of the biological functions that sustain life. In cases where cause of death is attributed to multiple factors, please list the primary (e.g., immediate) cause of death first.

Example 1: During the incident, the decedent sustained a gunshot wound and subsequently died as a result of massive blood loss. A response of “gunshot wound” would suffice as a cause of death regardless of the manner of death.

Example 2: During the incident, the decedent swallows a packet of cocaine in order to conceal the narcotics from law enforcement personnel. The packets rupture, causing the decedent to overdose. A response of “cocaine toxicity” would suffice as a cause of death.

If any secondary causes are known, please list those. For example, during the incident, the decedent suffered a heart attack. “Cardiovascular event” would suffice for the primary cause of death. The coroner indicated that diabetes was also a contributing factor in the death of the decedent. In this case, “Diabetes” would be an applicable secondary cause of death. If causes are not known or indicated, please leave this section blank.

Item 21: How was information provided for cause of death (item 20) determined?

Please indicate whether the cause of death was determined from an official death certificate, autopsy report or medical evaluation. If the cause of death was determined from a different source (e.g., press release), mark “Other source” and specify the source.

Item 22: Did the autopsy report or medical evaluation indicate the presence of alcohol or of drugs other than alcohol?

The purpose of this item is to identify the presence of drugs and/or alcohol in the decedent’s system. This information should be obtained from an official document such as a death certificate, autopsy report, or other type of medical evaluation. If the presence of drugs were reported to be present in the decedent’s system based on one of these sources, mark the checkbox “Drug(s) other than alcohol” and specify the type of drug reported (e.g., cocaine).

If the autopsy report, death certificate, or medical evaluation was obtained, but no alcohol or drugs were reported to be in the decedent’s system, mark “No.” If this information is not known, or an autopsy report or medical evaluation was not obtained, mark “Unknown, did not obtain autopsy report or medical evaluation.”

Alan,

Happy New Year!

Thank you again for your continued participation in the Arrest-Related Deaths (ARD) program. As you know, the purpose of the program is to account for all deaths occurring during the process of arrest by, or while in the custody of, state or local law enforcement personnel. With almost 18,000 law enforcement agencies operating nationwide, it would be nearly impossible for BJS to maintain the ARD program without assistance from you and other State Reporting Coordinators (SRCs). The ARD program continues to improve in coverage and data quality each year, and we attribute this success to effective partnerships with our data providers. BJS appreciates your participation and we look forward to working with you in 2012.

The 2012 CJ-11 and CJ-11A forms are available on the Arrest-Related Deaths section of the BJS website: <http://bjs.ojp.usdoj.gov/index.cfm?ty=dcdetail&iid=428>. I've attached the 2012 program materials and forms for your convenience. The 2012 versions of the CJ-11 and CJ-11A forms are identical to those used in 2010 and 2011. While data may be submitted to the ARD program at any time, we ask that all 2012 forms are received by March 1, 2013.

In addition to launching the 2012 program, ARD staff are currently processing the 2010 and 2011 data. If you haven't already done so, we ask that you submit any identified cases and/or follow-up information as soon as possible. We hope to have all 2010 and 2011 data submitted by March 1, 2012 in order to disseminate findings during the first quarter of 2013. Data can be submitted by mail, email, or fax – please see the contact information below.

As I mentioned in my last email, BJS is committed to improving the ARD program and has solicited the assistance of the Research Triangle Institute (RTI). Staff from BJS and RTI will work together to maintain day-to-day operations and assess the strengths and weaknesses of several aspects of the program. The first aspect of the program we would like to assess is the efficiency of the current design and data collection method.

You will receive an email from Kevin Strom, the ARD Program Director, and Crystal Daye, your ARD staff liaison to set up a time to discuss your experiences with the ARD program. The purpose of this discussion is to introduce you to new ARD program staff and to learn more about your data collection process and needs. Ultimately, we hope this discussion will translate into an improved program with reduced reporting burden.

Please feel free to contact me or any other ARD staff member with questions, concerns, or comments. We welcome your feedback and are relying on your insights to continue to develop the ARD program. You can reach Kevin Strom (kstrom@rti.org; 919-485-5729) or Crystal Daye (cdaye@rti.org; 919-541-7321) directly, or contact the ARD Help Desk (ARDHelpDesk@rti.org; 1-877-475-7039).

Please submit CJ-11 and CJ-11A forms to:

ARREST-RELATED DEATHS, 2012 Program Information

The Arrest-Related Deaths (ARD) program is a national accounting of persons who die during the process of arrest (or attempted arrest) or while in the custody of, or shortly after restraint by, state or local law enforcement personnel.

For the purposes of the ARD program, an "arrest-related" death is one that occurs *anytime a person's freedom to leave is restricted by state or local law enforcement personnel*. This includes deaths occurring while law enforcement personnel actively pursue or attempt to apprehend persons of interest or criminal suspects, regardless of whether physical custody is established. In addition, "arrest-related" deaths include situations in which a formal arrest process was neither initiated nor intended, such as deaths that involve assistance in the restraint or transport of individuals in need of medical or mental health care.

Deaths reportable to the ARD program include those caused by *any use of force* by state or local law enforcement personnel, as well as those not directly related to the actions of law enforcement, such as deaths attributed to suicide, intoxication, accidental injury, and natural causes. With the exception of innocent bystanders, hostages, and law enforcement personnel, all persons who die in the presence of state or local law enforcement, regardless of manner of death, are subject for inclusion in the ARD program.

Arrest-Related Deaths Summary and Incident Forms

There are two forms (CJ-11 and CJ-11A) associated with the Arrest-Related Death (ARD) program.

- The **CJ-11 Form** is a quarterly summary of the number of arrest-related deaths occurring within the state. Each identified State Reporting Coordinator (SRC) is responsible for entering the total number of reportable arrest-related deaths occurring in each quarter of the calendar year.

If no arrest-related deaths were identified during the quarter, the SRC should enter a count of "zero." In order to distinguish between states without an arrest-related death and those with missing data, it is essential for ARD program staff to receive a CJ-11 form for each quarter.

Contact information for each SRC is available on the CJ-11 form.

- The **CJ-11A Form** is an incident report completed for each arrest-related death. Official sources of information should be obtained to complete a CJ-11A form for each identified arrest-related death. Items 1-19 should be completed for all arrest-related deaths. Additionally, items 20-23 should be completed *only if* the death occurred at a police lockup or booking facility.

Data Collection Process & Schedule

The Arrest-Related Deaths (ARD) program operates on a continuous basis throughout the calendar year. The ARD program also accepts reports of arrest-related deaths occurring prior to the current calendar year. In addition, the ARD program accepts updated information for previously reported arrest-related deaths.

Data are reported to the ARD program through a 3-step process:

1. Identification: Arrest-related deaths are identified by a reporting agency.
2. Data Collection: Information about the incident is collected and recorded on a CJ-11A form.
3. Submission: CJ-11A forms are submitted to the State Reporting Coordinator (SRC) and then to ARD program staff.

PLEASE NOTE:

- Personnel from law enforcement agencies, medical examiner/coroner's offices, and other reporting agencies should submit CJ-11A forms to their SRC as soon as data are available or on a quarterly basis. See the CJ-11 form for a listing of SRCs.
- SRCs can submit data to ARD program staff either quarterly or annually. Regardless of the submission schedule, the SRC should submit a CJ-11 form for each quarter of the calendar year. A CJ-11 form and any associated CJ-11A forms should be submitted to ARD program staff within 60 days of the end of each quarter or all annual data should be submitted within 60 days of the end of the calendar year.
- SRCs should attempt to identify all arrest-related deaths occurring within their state. The identification of all arrest-related deaths may require SRCs to develop methods other than relying on reports from state and local law enforcement agencies, medical examiner offices, coroner offices, and other reporting agents/agencies.

ARREST-RELATED DEATHS, 2012 Frequently Asked Questions – State Reporting Coordinators

1. *What does an “arrest-related” death mean?*

An “arrest-related” death is one where an arrest subject either died *in the presence of a State or local law enforcement officer* or died as a result of actions taken by a State or local law enforcement officer.

Deaths reportable to the ARD program include all persons in the custody, or under the restraint of law enforcement officers, even if the person was not formally under arrest at the time of death.

This definition includes those killed by any use of force by law enforcement officers as well as those whose deaths are not directly related to either police action or negligence, such as deaths attributed to intoxication, suicide, accidental injury, and illness or natural causes.

2. *Under what circumstances are deaths reportable to the ARD program?*

With the exception of innocent bystanders, hostages, and law enforcement personnel, all persons who die while their freedom to leave is restricted by state or local law enforcement personnel are subject for inclusion in the ARD program.

As a guiding principle, please do *not* exclude a case on the basis that physical custody had not been established. This point is highlighted through ARD cases involving officer-involved shootings. Virtually none of these cases involve subjects who were already in the *physical custody* of law enforcement personnel.

Alternatively, there are instances where a person dies in the physical custody of law enforcement although an arrest process had not been initiated. Typically these cases involve the transport of individuals in need of medical or mental health care. Officers may restrain a person for their own safety, or for the safety of medical personnel on the scene. Even though these persons do not face any criminal charges, they are still under the restraint of law enforcement officers and should be reported to the ARD program.

Please note that if such persons die at medical/mental health facilities *following* police transport, they are reportable to the ARD program *only if* the final determination of cause of death is directly linked to the period of law enforcement custody.

3. *Are instances where the deceased commits suicide included in the ARD program?*

Yes.

Suicide is a common type of arrest-related death. Arrest-related suicides can occur before or after law enforcement personnel establish physical custody of the deceased. Suicides occurring during the process of apprehension are reportable to the ARD program if law enforcement personnel are present during the incident and attempted to detain the deceased.

All suicides occurring in the custody of law enforcement personnel are reportable to the ARD program. This includes arrest-related suicides occurring at booking centers and lockup facilities.

Suicides of persons with warrants for their arrest should be reported to the ARD program if law enforcement personnel were present during the event that caused the death. If law enforcement personnel were not present when a person with active arrest warrants committed suicide, the death should not be reported to the ARD program.

If you are unsure whether a death is reportable to the ARD program, please contact the ARD Help Desk (1-877-475-7039; ARDHelpDesk@rti.org) or submit a CJ-11A form.

4. *Are vehicular accidental deaths included in the ARD program?*

Deaths resulting from vehicular accidents are included in the ARD program if law enforcement personnel engage in direct action against the deceased or the deceased's vehicle during the process of apprehension. Examples of "direct action" include, shooting at, ramming, or otherwise forcing the deceased's vehicle off the road (i.e., roadblocks, spike strips to blow out tires).

Deaths resulting from vehicular accidents are excluded from the ARD program if law enforcement personnel did not take direct action against the deceased or the deceased's vehicle. For the purposes of the ARD program, a police pursuit, no matter the speed, does not meet the "direct action" criteria. Fatal vehicular accidents occurring during a pursuit by law enforcement personnel should be excluded from the ARD program if that was the only action taken against the deceased.

5. *Are deaths caused by civilians, during an arrest process, included in the ARD program?*

Yes.

Arrest subjects who die from injuries sustained by non-law enforcement personnel are included in the ARD program if the injuries were sustained during an arrest process. Arrest-related deaths caused by civilians may be accidental or intentional.

Example 1: Accidental civilian homicide:

Law enforcement personnel are attempting to arrest a fleeing suspect when the suspect collides with a civilian operated vehicle and sustains fatal injuries as a result. This death is considered “arrest-related” because law enforcement personnel were attempting to apprehend the suspect at the time the fatal injuries were sustained. In this instance, the manner of death should be recorded as, “Accidental injuries caused by others” on the CJ-11A form.

Example 2: Intentional civilian homicide:

Law enforcement personnel are dispatched to robbery in progress at a convenience store. Upon arrival at the scene, law enforcement personnel discover a struggle between the arrest suspect and store clerk. The store clerk fatally wounds the arrest suspect in the presence of law enforcement personnel. In this instance, the manner of death should be recorded as, “Other homicide” on the CJ-11A form.

6. *Should all deaths resulting from any use of force by state or local law enforcement personnel be included in the ARD program?*

Yes.

Deaths attributed to **ANY** use of force by law enforcement personnel are reportable to the ARD program.

Officers are trained to only use lethal force when their own safety or that of other persons is gravely threatened. The presence of such a threat is a crime. Therefore, subjects killed by police use of lethal force would more than likely have faced criminal charges had they survived.

Deaths attributed to “less-than-lethal” tactics (i.e., positional asphyxia due to restraint) and weapons (i.e., conducted energy devices, chemical agents) are also included in the ARD program.

7. *Are deaths that occur while the arrest subject was in the custody of Federal law enforcement officers included in the ARD program?*

Deaths occurring in the presence of officers from Federal law enforcement agencies (i.e., FBI, DEA, Marshals Service) are only reportable to the ARD program if personnel from a State or local law enforcement agency was also present during the event causing the death.

The ARD program was developed to measure the number of deaths occurring in the process of arrest by state and local law enforcement personnel. Therefore, arrest-related deaths occurring outside the presence of state or local law enforcement personnel are excluded from the ARD program.

If you are unsure whether a death is reportable to the ARD program, please contact the ARD Help Desk (1-877-475-7039; ARDHelpDesk@rti.org) or submit a CJ-11A form.

8. *Why are some cases submitted to the ARD program transferred to other BJS collections?*

BJS' *Deaths in Custody Reporting Program* (DCRP) is currently comprised of three components, deaths occurring in (1) prisons, (2) jails, and (3) during the process of arrest.

The deaths of any persons held in police stations (i.e., for interrogation) or in a short-term booking facility are included in records of "arrest-related" deaths. Once an arrestee is booked into a jail, (i.e., a facility that typically holds offenders after arraignment, during adjudication and for sentences of less than a year) their death is excluded from the ARD collection and captured in BJS' *Jails* collection.

If you are unsure whether the death occurred in a police booking center, police lockup, or a local jail please either contact the ARD Help Desk (1-877-475-7039; ARDHelpDesk@rti.org) or submit a CJ-11A form.

ARD program staff reconciles all submitted cases to ensure each record is recorded in the appropriate collection and that cases are not duplicated in the ARD and *Jails* programs. If cases submitted to the ARD program are transferred to either the *Jails* or *Prisons* collections, the ARD program staff will indicate it on a status report sent to you.

9. *Where can I obtain 2012 CJ-11 and CJ-11A forms?*

The 2012 CJ-11 and CJ-11A forms are available through the BJS website:

<http://bjs.ojp.usdoj.gov/index.cfm?ty=dcdetail&iid=428>

Forms can also be obtained by contacting the ARD Help Desk:

Phone: 1-877-475-7039

Email: ARDHelpDesk@rti.org)

10. *How do I submit CJ-11 and CJ-11A forms to ARD program staff?*

Please submit CJ-11 and CJ-11A forms to ARD program staff within **60 days** of the end of each quarter or submit all annual data within **60 days** of the end of the calendar year. Forms can be submitted through email, fax, or postal mail.

ARREST-RELATED DEATHS, 2012 CJ-11A Question-by-Question Guide

Item 1: What was the name of the deceased?

Please provide the deceased's legal name (last, first, and middle initial). All information identifying individual decedents will be kept confidential in accordance with the provision of section 812 of the Omnibus Crime Control and Safe Street Act of 1968 as amended (42 U.S.C. 3789g). Names are solely used by ARD program staff to identify records and to ensure there is no duplication in reporting within the ARD program or across other BJS *Deaths in Custody Reporting Programs (DCRP)*, such as the "Jails" or "Prisons" collections.

Item 2: What was the time and date of the death?

In an effort to standardize responses across reporting agents, please indicate the "official" time and date of death, if known.

The *official* time and date of death indicate when the deceased was pronounced dead by either medical personnel or another authorized official. The official time and/or date of death may be different from the time and/or date of the fatal event. If the official time and date of death are unknown, please estimate the time and date of when the fatal injury was sustained. Please indicate when estimating the time and date of the fatal event.

Example 1: During the process of arrest, the deceased sustained a fatal injury (e.g., gunshot wound, blunt force trauma) and died at the scene of the event. The most appropriate response to this item would reflect the time and date the deceased was pronounced dead by an authorized official, regardless of whether the pronouncement occurred at the scene or medical center. If the official time and date of death are unknown, please estimate the time and date of when the fatal injury was sustained.

Example 2: During the process of arrest, the deceased sustained a life-threatening injury (e.g., gunshot wound, blunt force trauma) but did not die until hours/days/weeks later. The most appropriate response to this item would reflect the time and date life ceased rather than the time and date the injuries were sustained.

Item 3: Where did the event causing the death occur?

The purpose of this item is to identify the location of the event causing the death, not the location of where the deceased was pronounced dead (e.g., medical center). Please provide the address or the approximate location (i.e., street intersection, neighborhood) of where the deceased was injured or developed the condition causing the death.

Example 1: During the process of arrest, the deceased sustained a life-threatening injury (e.g., gunshot wound, blunt force trauma) at his home but died later at a medical facility. The most appropriate response to this item would be the street address of the deceased's residence. If the exact location of the event is unavailable, please give the best approximate location (intersection, part of town, neighborhood).

Item 4: What law enforcement agency was involved?

Please list the name and Originating Agency Identifier (ORI) number of the law enforcement agency involved in the arrest-related death. If officers from multiple law enforcement agencies are directly involved, please list all relevant agency names and ORI numbers. When multiple agencies are involved, please list the primary agency first.

The ORI number is a 9-character alpha-numeric identification code used by law enforcement agencies to report and access data. All law enforcement agencies are issued ORI numbers by the FBI. ORI numbers are *not* derived from the incident or case number generated by the reporting law enforcement agency. If you are unsure of the ORI number for the relevant law enforcement agency, leave the item blank and enter only the agency name.

Please note, for a death to be reportable to the ARD program there must be one or more officers/deputies from either state or local law enforcement agencies present during the incident that led to the death. Deaths involving *only* officers from Federal law enforcement agencies (e.g., FBI, Marshalls, DEA) are excluded from the ARD program.

Item 5: What was the deceased's date of birth?

Please indicate the specific data of birth when known. Note: This item was amended from previous versions of the CJ-11A to include the option of providing the deceased's *age* at death when the month, day, and year of birth are unknown.

Item 6: What was the deceased's sex?

If the deceased sex is not known, please leave blank.

Item 7: What was the deceased's race/ethnic origin?

Any Hispanic persons should be recorded as “3-Hispanic or Latino” regardless of whether their race is white, African-American, Asian, American Indian, or Native Hawaiian.

If the deceased’s ethnic origin had any combination of non-Hispanic categories, please record them as “7-Two or more races (not of Hispanic origin).”

These categories comply with guidance set forth by the White House Office of Management and Budget (OMB).

Item 8: What was the manner of death?

The “**manner**” of death is “how” the person died, typically illustrated by a one word description of intentions and circumstances which led to the stated medical *cause* of death. Essentially, the manner of death is the *way* in which death was caused; homicide, suicide, accidental, natural, or undetermined.

If a medical examiner or coroner classified the death as “undetermined,” please mark “8-Other” and specify “results of the evaluation were undetermined.”

With respect to deaths due to alcohol/drug intoxications, please *specify the substance causing the death* and code responses as:

- *Intentional* alcohol or drug overdoses as, “**3 – Suicide**”
- *Unintentional* over use of alcohol or drugs for recreational purposes as, “**6 – Accidental alcohol/drug intoxication**”
- *Unintentional* over use of alcohol or drugs for concealment purposes (i.e., arrest suspect swallows packets of drugs in an attempt to hide them from police and the packets rupture and thereby cause the death) as, “**4 – Accidental injury to self**”

Item 9: What was the cause of death?

Unlike the “manner” of death, which describes the circumstances leading to one’s death, “cause” of death is a description of the specific medical factors leading to the termination of the biological functions that sustain life. In cases where cause of death is attributed to multiple factors, **please list the primary cause of death first.**

Example 1: During the process of arrest, the decease sustained a gunshot wound and subsequently died as a result of massive blood loss. A response of “gunshot wound”

would suffice as a cause of death regardless of the manner of death (i.e., homicide by law enforcement, other homicide, suicide, accidental injury to self, or accidental injury caused by others).

Example 2: During the process of arrest, the deceased swallows a packet of cocaine in order to conceal the narcotics from arresting officers. The packets subsequently rupture, causing the deceased to overdose. A response of “cocaine toxicity” would suffice as a cause of death.

Item 10: Was the cause of death listed about determined from information in a death certificate.

This item was added to 2010 CJ-11A in 2010 in an effort to identify the **source** of information pertaining to the cause of death.

If information regarding the cause of death was derived through a death certificate (whether the death certificate was physically obtained or information from the death certificate was provided indirectly through another source) please mark the response as, “**1 – Yes.**”

If a death certificate was not consulted to obtain information regarding the cause of death, please mark “**2 – No-Other**” and specify the source of the information (i.e., police report, media report).

Item 11: Did the deceased commit or allegedly commit any criminal offenses in the events leading up to the death?

This item was amended from previous versions of the CJ-11A. The item was modified to make its intent more clear and to address concerns regarding the use of the word “charges.”

The purpose of this item is to identify whether the deceased allegedly engaged in criminal behavior, instead of whether “charges” would have been filed by a prosecutor had the deceased survived the incident.

Please code responses as:

- “**01 – Yes**” indicates the officer(s) engaged in an arrest process because the deceased committed or allegedly committed a criminal offense.

Example 1: Law enforcement officers discover a bank robbery in progress. A gun battle between the suspect and officers ensues. The suspect dies as a result of gunshot wounds. The appropriate response to this item is “**01 – Yes.**” Furthermore, responses to Item 12 are likely to include, “attempted murder” and “robbery.”

Example 2: Law enforcement officers are dispatched to a residence of a person threatening to commit suicide. When the officers arrive on scene they find a distraught person holding a gun. The officers instruct the person to put down the weapon, instead the person points the gun at an officer. The officers fatally shoot the person they were initially trying to assist.

The appropriate response to this item is “01 – Yes” despite the fact the initial reason for contact was a mental health assistance call. In this instance, a code of “02 – No – medical/mental health assistance call” would not be accurate because the deceased engaged in criminal behavior when he pointed a gun at the responding officers. Furthermore, a response to Item 12 could be “assault (on a police officer or with a deadly weapon).”

- “02 – No – medical/mental health assistance call” indicates the officer(s) involved were not actively engaged in an arrest process. Law enforcement officers are sometimes tasked with transporting persons to medical or mental health facilities because these persons present a danger to themselves or others.

If these individuals die in the custody of an officer, or due to officer use of force or restraint, the death is reportable. This response indicates that the deceased did *not engage in any criminal behavior* (i.e., assault), regardless of how the contact with law enforcement officers originated.

Example 3: Law enforcement officers are dispatched to a residence of a person threatening to commit suicide. When the officers arrive on scene they find a distraught person holding a gun. The officers instruct the person to put down the weapon. The person runs into the house and then commits suicide.

In this instance, the deceased did not threaten anyone or engage in other criminal behavior prior to committing suicide. Therefore, the appropriate response to this item is “02 – No medical/mental health assistance call.” Furthermore, a response a response to Item 12 should be “Not applicable” because although the death occurred in the presence of police, the deceased did not commit offenses prior to death.

- “03 – No – other – Specify” indicates all deaths that occur in the presence of law enforcement officers in which the deceased did not engage in criminal behavior or require medical/mental health assistance. Please briefly specify the circumstances that led to the encounter between law enforcement officers and the deceased.

Example 4: Law enforcement officers are dispatched to a residence in response to a 911 call indicating a burglary in progress. Officers enter the home and find a man hiding in a closet. When the officer opens the closet door, the man stands up with a baseball bat in his hand. In the heat of the moment, the officer believes he has encountered the burglar who is planning to assault him with the baseball bat. The officer fatally shoots the man in the closet, who turned out to be the home owner hiding from burglars.

In this instance, the deceased did not engage in criminal behavior, instead the death was the result of mistaken identity. Therefore, the appropriate response to this item is “03 – No – other.” Furthermore, a response to Item 12 should be “Not applicable” because had the deceased survived the incident, he would not have been arrested for a criminal offense.

Item 12: What were the most serious reported offenses committed by the deceased?

This item was amended from previous versions of the CJ-11A. This item was modified to address concerns regarding the use of the word “charges.” The purpose of this item is to identify the alleged criminal offenses committed by the decedent that either (1) led to the initial contact with police, and/or (2) occurred during the contact with the police. Please rank order offenses in terms of the degree of severity.

If the deceased committed no alleged offenses, please write, “Not applicable.”

Example 1: An armed suspect robs a store clerk and flees from police. The suspect then leads law enforcement officers on a high-speed car chase before crashing. The suspect fatally shoots one of the officers when they approach his vehicle. The officers return fire and kill the suspect. In this instance, the appropriate response to this item is:

- a. Homicide of law enforcement officer
- b. Armed robbery
- c. Fleeing and Eluding

Item 13: Did the deceased die from a medical condition, injuries sustained during the arrest process, or alcohol/drug intoxication?

This item was amended from previous versions of the CJ-11A. The item was modified to include the response category, “03 – Alcohol/drug intoxication.” The response category was added in order to consistently categorize deaths attributed to alcohol and drug intoxications.

Respondents should no longer use categories, “01 – Medical condition” or “02 – Injuries” to describe deaths due to alcohol/drug intoxication.

This item allows for multiple response categories to be mark. If “01 - Medical condition” or “02 - Injuries” are marked in addition to “03 – Alcohol/drug intoxication” the decease should have an additional medical condition or sustained additional injuries that caused the death.

Item 14: If the deceased died from arrest-related injuries, how were these injuries sustained?

Please note that multiple responses can be marked to allow for responses where the deceased was injured by multiple parties. The response to this item should account for injuries that occurred at the initial scene, as well as injuries sustained at any secondary locations.

Example 1: Law enforcement personnel respond to a mental health assistance call. When officers arrive on scene, the deceased is holding a gun and threatening law enforcement personnel. The deceased shoots at law enforcement before shooting himself in the head. Officers return fire striking the deceased in the head and torso. An autopsy ruled that both the deceased’s bullet and the officer’s bullet were fatal. Therefore, an appropriate response is, “01 – Inflicted by law enforcement officers at the crime/arrest scene” AND “05 – Self-inflicted – Suicide.”

Example 2: Law enforcement personnel respond to a robbery in progress at shopping center and begin pursuing a fleeing subject. In an attempt to elude law enforcement, the deceased jumps through a store window and cuts his femoral artery in the process. The deceased continues into oncoming traffic and is struck by a vehicle. In this instance, the appropriate response is “02 – Inflicted by others at the crime/arrest scene” AND “04 – Self-inflicted – Accidental.”

If the deceased suffered no injuries, and died solely from medical problems or alcohol/drug intoxication, mark “99 – Not applicable”

Item 15: Were any of the following used by law enforcement officers during the arrest process?

This item was amended from previous versions of the CJ-11A to include the response category, “05 – Firearm discharge.”

The “05 – Firearm discharge” category was added in order to capture events where law enforcement officers discharge their service weapons during the arrest process. Please note the purpose of this item is to *indicate incidents in which law enforcement officers fired their service weapons at any point during the incident, even if the deceased did not sustain a gunshot injury*. The purpose of this item is not to capture incidents in which the deceased fired a weapon (see Item 17).

Any use of restraint devices or weapons, even if they were not a cause or contributing factor in the death, should be reported here.

If multiple types of restraints or weapons were used on the deceased, please mark all that apply.

If law enforcement personnel used a restraint device or weapon that is not listed, please indicate the response, "06 – Other device – specify" and write in device or weapon used during the arrest process.

Item 16: At any time during the arrest/incident, did the deceased....appear intoxicated? ...exhibit any mental health problems? ...verbally threaten the officer(s) involved? ...resist being handcuffed or arrested? ...attempt to escape/flee from custody? ...grab, hit or fight with the officer(s) involved?

The purpose of this item is to describe the full range of behaviors exhibited by the deceased during the events that led to an arrest-related death.

Please note that multiple responses can be provided to this item.

Item 17: During the arrest process, did the deceased....carry or possess a weapon? ...use a weapon to threaten officer(s)? ...use a weapon to threaten other persons? ...use a weapon to assault the officer(s)? ...use a weapon to assault other persons?

This purpose of this item is to measure weapon possession or use by the deceased, against law enforcement personnel or other persons on the scene (e.g., hostages, victims). The response categories have been defined to distinguish between those arrest subjects who only possessed weapon(s) and those who actively used weapon(s) to threaten or assault others.

Please note that any weapon (e.g., knife, firearm) or object used as a weapon (e.g., vehicle, chair, pipe, table) should be reported. Please mark *all* categories that apply.

Please code responses as:

- **01 – Carry or possess a weapon** – to indicate the deceased was in possession of a weapon, regardless of whether the deceased used the weapon in a threatening or assaultive way against either law enforcement officers or other persons.

Example 1: Suspect is fleeing from police on foot when fatally struck by a vehicle. Following the accident, law enforcement officers search the suspect and discover a handgun in the deceased's waistband. The deceased did not reveal or use the handgun at any point during the arrest process.

- **02 – Use a weapon to threaten the officer(s)/03 – Use a weapon to threaten other persons** – indicates the deceased possessed a weapon and used it in a manner to intentionally cause negative outcome(s) such as fear, injury, or damage.

Example 2: Suspect is fleeing from police on foot while visibly carry a handgun when fatally struck by a vehicle. Before suspect is hit by the vehicle, the deceased points the weapon at police and driver, but does not fire. Response categories “01 – Carry or possess a weapon,” “02 – Use a weapon to threaten the officer(s),” and “03 – Use a weapon to threaten other persons” should all be marked in this instance.

- **04 – Use a weapon to assault the officer(s)/05 – Use a weapon to assault other persons** – indicates the deceased possessed a weapon and used it in a manner to intentionally cause imminent harmful or offensive contact.

Example 3: Suspect is fleeing from police on foot while shooting at pursuing officers when fatally struck by a vehicle. Before the suspect is hit by the vehicle, the deceased fires 4 bullets at pursuing law enforcement officers. Response categories “01 – Carry or possess a weapon,” “02 – Use a weapon to threaten the officer(s),” and “04 – Use a weapon to assault the officer(s)” should all be marked in this instance.

Item 18: If a weapon caused the death, what types of weapons were used?

This item should be completed for all deaths, regardless of the manner of death.

The purpose of this item is to identify specific weapon(s) that *caused* the death, instead of weapons that were *used* during the arrest process. All weapons *used* by law enforcement during the arrest should be listed under Item 15. Please limit response to Item 18 to weapon(s) in which death was attributed.

If a weapon involved in causing the death is not listed in Item 18 (e.g., vehicle), please mark “06 – Other weapon” and specify the type of weapon causing the death.

This item was amended from previous versions of the CJ-11A. The item was modified to include the response category, “98 – Don’t know.” In addition, the response category “07 – None” was modified to “99 – Not applicable” in order to account for deaths not due to the use of a weapon.

Item 19: Where did the deceased die?

This item was amended from previous versions of the CJ-11A to include the response category, "04 – Dead on arrival at medical facility."

The response category was added in order to more clearly determine where the cessation of life occurred. An analysis of ARD cases indicated that although deaths were occurring at the crime/arrest scene, they were coded as occurring at a medical facility. These deaths were coded this way because the death was officially "pronounced" at the medical facility even though life ended at the crime/arrest scene.

The item "04 – Dead on arrival at medical facility" is meant to distinguish between persons pronounced dead at medical facilities who did not receive medical intervention before death from persons who were pronounced dead after receiving medical intervention.

SURVEY COMPLETE FOR DEATHS OCCURING PRIOR TO ARRIVAL AT A BOOKING CENTER OR LOCKUP FACILITY.

Item 20: What was the time and date of the deceased's entry into the law enforcement facility where the death occurred?

If an exact time of entry is not available, please provide the nearest hour estimate.

Item 21: At the time of entry into the facility, did the deceased ...appear intoxicated? ...exhibit any mental health problems? ...exhibit any medical problems?

Similar to Item 16, the purpose of this item is to describe the arrestee's behavior and health status within the context of the fatal events. Please note that multiple responses can be provided to this item.

Item 22: If the death was an accident or homicide, who caused the death?

If death was attributed to suicide, intoxication, or illness/natural causes please mark, "99 - Not applicable."

Item 23: If the death was an accident, homicide or suicide, what was the means of death?

This item is not related to the manner (item 9) or medical cause of death (item 10), but rather to the physical means by which the death was caused.

Deaths in Custody Reporting Program

Conducted by the U.S. Department of Justice - Bureau of Justice Statistics (BJS) and RTI International (RTI)

Over the past decade, BJS has collaborated with local jails and state departments of corrections to collect and disseminate statistics on mortality data.

How are the Deaths in Custody Reporting Program (DCRP) data used?

- Over the years BJS has published several reports on corrections-related mortality, providing the corrections community with important statistics that help policy-makers and jail administrators address key public health issues facing jails and prisons. Some examples include—
 - Prison and Jail Deaths in Custody, 2000-2009 - Statistical Tables, NCJ 236219*
 - Mortality in Local Jails, 2000-2007 (Revised), NCJ 222988*

Source: *Prison and Jail Deaths in Custody, 2000-2009-Statistical Tables*, BJS Web, December 2011, NCJ 236219.

(1) **Heart disease.** Heart disease represented approximately 22% of all jail deaths from 2000 to 2009. (2) **Decreased.** AIDS-related deaths in jails declined by 54% between 2000 and 2009. (3) **About 38%.** Between 2000 and 2009, the percentage of jail deaths that took place within a week of admission ranged from 36.2% (2006) to 40.3% (2003). (4) **True.** Only 10% of reported deaths are due to suicide, accidental injury, or homicide. (5) **Higher.** The rate of mortality among whites is higher than that of other races or ethnic groups. In prisons, white mortality rates were between 1.4 and 1.8 times higher in comparison to other ethnic or racial groups. In jails, whites had a mortality rate between 1.6 and 4.7 times higher than other ethnic or racial groups. (6) **97%.** If your jail hasn't previously participated in DCRP, please contact RTI.

Dear Ms. Stephanie Robbins:

Thanks to the efforts of state prison officials nationwide, the Bureau of Justice Statistics' (BJS) Deaths in Custody Reporting Program (DCRP) has been a great success since its inception in 2000. Deaths in Custody Reporting Program

Conducted by the U.S. Department of Justice - Bureau of Justice Statistics (BJS) and RTI International (RTI)

Over the past decade, BJS has collaborated with local jails and state departments of corrections to collect and disseminate statistics on mortality data.

How are the Deaths in Custody Reporting Program (DCRP) data used?

- Over the years BJS has published several reports on corrections-related mortality, providing the corrections community with important statistics that help policy-makers and jail administrators address key public health issues facing jails and prisons. Some examples include—
 - Prison and Jail Deaths in Custody, 2000-2009 - Statistical Tables, NCJ 236219*
 - Mortality in Local Jails, 2000-2007 (Revised), NCJ 222988*
 - Medical Causes of Death in State Prisons, 2001-2004, NCJ 216340*
 - Suicide and Homicide in State Prisons and Local Jails, NCJ 210036*

Please visit the BJS website at <http://www.bjs.gov> to access these and other statistical reports.

- BJS occasionally fields questions from local jail administrators who need to know how the death rates in their jails compare with jails of a similar size or within their state.
- BJS provides information to state departments of corrections that need death information from previous years for special or routine reports.

Want to test your knowledge about DCRP? Take the following quiz!

(Answers are available further below.)

- What is the leading natural cause of death among jail inmates?
a. Cancer b. Heart disease c. AIDS/HIV
- Between 2000 and 2009, has the rate of inmate jail deaths from HIV/AIDS increased or decreased?
- Approximately what percentage of jail deaths occur within the first 7 days of admission?
a. 18% b. 28% c. 38%
- True or False: Between 2001 and 2009, illness-related deaths accounted for 9 out of 10 prison deaths.
- Between 2000 and 2009, were mortality rates among whites higher or lower than those for other race or ethnic groups?
- About what percentage of the nation's approximately 2,800 jail jurisdictions participated in the Deaths in Custody Reporting Program in 2010?
a. 90% b. 95% c. 97%

Source: *Prison and Jail Deaths in Custody, 2000-2009-Statistical Tables*, BJS Web, December 2011, NCJ 236219.

(1) **Heart disease.** Heart disease represented approximately 22% of all jail deaths from 2000 to 2009. (2) **Decreased.** AIDS-related deaths in jails declined by 54% between 2000 and 2009. (3) **About 38%.** Between 2000 and 2009, the percentage of jail deaths that took place within a week of admission ranged from 36.2% (2006) to 40.3% (2003). (4) **True.** Only 10% of reported deaths are due to suicide, accidental injury, or homicide. (5) **Higher.** The rate of mortality among whites is higher than that of other races or ethnic groups. In prisons, white mortality rates were between 1.4 and 1.8 times higher in comparison to other ethnic or racial groups. In jails, whites had a mortality rate between 1.6 and 4.7 times higher than other ethnic or racial groups. (6) **97%.** If your jail hasn't previously participated in DCRP, please contact RTI.

Attachment J. Example of letters, emails and telephone scripts for data quality and non-response follow-up for DCRP jail respondents

Directed Email Prompt

September 29, 2011

Dear {Salutation}{Last Name}:

We are in the process of finalizing data collection for the 2010 U.S. Department of Justice's Deaths in Custody Reporting Program (DCRP). We recently contacted you by telephone because we have not received your 2010 Annual Summary Form.

We ask ALL agencies to complete the Annual Summary form (i.e., a CJ9A or a CJ10A) regardless if whether they have experienced a death in custody during 2010.

The Annual Summary form has 4 short questions that should take you a few minutes to complete. We have enclosed this form for you to complete and mail using the enclosed return envelope or fax back to us at 1-866-800-9179. Furthermore, if you have experienced a death in custody during 2010, we ask that you complete the enclosed death report. Please make copies of this form if needed for multiple deaths to report for 2010.

We would appreciate your response on or before: **October 10, 2011.**

If you would prefer to complete the form(s) online, our web page may be found here: <https://bjsdcrp.rti.org/>. Once there, you will be instructed to enter a username and password:

Username: «username»
Password: «password»

After logging in, please select the green button: "Submit 2010 Deaths in Custody Data." Next, click on the blue button to fill out your 2010 Annual Summary Form. If you have any deaths to report, please click the green button entitled "Add a 2010 Death Report" so that you can begin entering death record data.

If you have any questions or concerns, please contact Tim Flanigan, the RTI Data Collection Task Leader, at 1-800-334-8571, or bjsdcrp@rti.org

We would appreciate your participation, as the continued success of this program depends on you.

FIRST REMINDER MAILING – SENT USPS PRIORITY MAIL FOR THOSE WITHOUT EMAILS

Dear <<Salutation LastName >>:

We appreciate your continued support of the Bureau of Justice Statistics' (BJS) Deaths in Custody Reporting Program (DCRP). As a reminder, you can report an inmate death at any time through the year. If you have already entered some death reports in response to our letter in October, thank you for your initial response.

If you have zero deaths to report, you have nothing to do at this time.

If you have any deaths to report at the close of calendar year 2011, please report these at your earliest convenience. Submitting your forms online is the most efficient method of reporting the death records. In order to report online, please log onto the DCRP website (<https://bjsdcrp.rti.org>) and use the following login credentials:

In early 2012, we will ask **all** jails to complete a brief annual summary form that collects population data for your facilities and a final count of the number of deaths that occurred in your jurisdiction during 2011. This survey should take about five minutes to complete and the information collected is necessary to calculate mortality in jails.

If you have any questions, please contact Kim Aspinwall at 1-800-344-1387, or e-mail us at bjsdcrp@rti.org. Please don't hesitate to contact BJS directly at any time, using the contact information below.

We thank you for your participation and look forward to our continued work together.

NONRESPONSE EMAIL TARGETING “0” DEATH REPORT AGENCIES

We recently sent you 2011 reporting materials for the U.S. Department of Justice’s Deaths in Custody Reporting Program (DCRP). We appreciate your participation, as the continued success of this program depends on you. To date, we have not received your 2011 annual summary form. If you have recently submitted this, no further action is requested.

Below are some questions you may have about our request.

What if we had no deaths in custody during 2011?

We would still like for you to complete the attached CJ9A form. This should take about five minutes of your time. These data are critical to estimating mortality in jails. Please note that estimates for the population/count questions on the form are acceptable.

What if we had one or more deaths in custody during 2011?

Upon completing the CJ9A, please also complete the first page of the attached CJ9 form and a corresponding death report (CJ9 pages 2 and 3) for each inmate death.

How do I submit my reports?

Hi [Retracted],

It was nice talking to you today. Sorry for the confusion about the separate collections. The CJ11 forms are the arrest-related death forms, which I don't work on.

Just as an FYI, if you ever need information on that collection, you can talk to Andrea Burch, here at BJS. Her email is andrea.burch@usdoj.gov.

The packet you received has to do with death occurring in jails. We ask all jails, even those that have zero deaths to report, to fill out our brief annual summary forms (the CJ9a). I've attached a copy of your agency's CJ9A form from 2010. It should take about five minutes for you to complete. It asks four questions on one-day inmate counts, annual admissions, average daily population and number of inmate deaths, which is zero in your agency's case.

Take a look at the attachment, and when you're ready, you can fill it out online by going to the Deaths in Custody Reporting Program website: <https://bjsdcrp.rti.org/>

Username: [retracted]
Password: [retracted]

Alternately, you can fax or mail your data following the instructions on the front of the CJ9A form.

Please don't hesitate to contact me if you have any questions or concerns.

Thank you for participating in the Deaths in Custody Reporting Program.

Take care,
Margaret
