SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG-2015-0695], and must be received by January 27, 2016.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The

Coast Guard published the 60-day notice (80 FR 51290, August 24, 2015) required by 44 U.S.C. 3506(c)(2). That Notice elicited one comment. The comment was not related to the periodic renewal of this information collection. The comment was about the need to correct outdated organizational addresses and standards of certain materials incorporated by reference in the title 46 CFR part 28 Requirements for Commercial Fishing Industry Vessels. The Coast Guard will consider this comment in an ongoing rulemaking that will revise commercial fishing industry vessel standards. Accordingly,

no changes have been made to the Collection.
