

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

<p>DHS Privacy Office Comments:</p> <p><i>Please describe rationale for privacy compliance determination above.</i></p>	
<p>USCG is submitting this PTA to discuss the Application for Merchant Mariner Credential (MMC) (CG-719B), which is associated with OMB control number 1625-0040. The MMC collects the personal data, contact information, next of kin/emergency contact information, information on the credential sought, safety and suitability information, and the consent/certification of the applicant. The information is collected to determine whether an applicant meets the regulatory standards for issuance of a U.S. MMC.</p> <p>The DHS Privacy Office agrees that this form is privacy-sensitive, and PIA and SORN coverage are required.</p> <p>PIA coverage is provided by DHS/USCG/PIA-015 Merchant Mariner Licensing and Documentation System, which outlines the risks of collecting PII in order to manage the issuance of credentials to Merchant Mariners and process merchant mariner applications; the records include the credential, background check, and medical status. SORN coverage is provided by DHS/USCG-030 Merchant Seamen's Records, which allows for the collection of PII to establish eligibility of a merchant mariner's document, duplicate documents, or additional endorsements issued by USCG.</p> <p>USCG Privacy should work with the program to update the Privacy Notice as required.</p>
