About Waiver Processing

If you are determined to be eligible for a waiver, you will be notified and provided with a unique waiver authorization. Although complete oriminal history checks take time to complete, we anticipate returning results as soon as they are received, provided there is no indication of a oriminal history. Normally the process may take up to 5 business days to complete

? All previous waivers pertaining to this type of flight operation are void

Please complete each block of requested information and describe your planned schedule of flight operations indicating the name of the stadium(s) or event and the date(s) of your planned

The information on this form should be submitted only once. Do not resubmit information to this site, as it may result in a delay in processing your application

About DASSP Flight Authorization Processing

The guidance listed below is a broad overview of the flight authorization application process for operations into DCA.

In order to receive an authorization for DCA access from TSA, an operator must be on the TSA DCA approved operator list, take off from an approved TSA Gateway Airport and utilize a TSA approved Armed Security Officer (ASO).

- Before completing the flight authorization application form, please reserve an FAA slot reservation at this website: www.fly.faa.gov. This reservation is tentative until the flight authorization is approved, at which time TSA Office of Security Operations, Airspace Waivers Branch will confirm the slot reservation with FAA.
- 2. The approved security coordinator, or company equivalent, must complete the flight authorization application form.

 3. The application form must be received no later than 24 hours prior to your departure time. Any
- application received within 24 hours of departure will not be processed
- 4. The application must be filled out completely in order for processing to be completed within 24 5. Passenger, Crew, and Armed Security Officer (ASO) manifest changes are prohibited within 24
- hours of the departure time.?
- Once the requestor receives the flight authorization approval letter, they must contact the specific gateway fixed based operators (FBO) and Signature Aviation at DCA to notify them of the date and time of their anticipated arrival at the gateway FBO and DCA FBO respectively.

 7. All flights from gateway airports into DCA are non-stop. Any intermediate stop will void the operator's flight authorization. The flight authorization process must then begin again and a new request for an FAA slot reservation must be made. This will result in a new flight authorization request and a new 24 hour requirement.
- 8. For questions, please contact TSA at 571-227-2071

False statements submitted in connection with an application may be punishable under 18 U.S.C. 1001.
