Retail Payments Survey Supplement (FR 3066d)

The FR 3066d may collect payment volumes similar to those collected in the FR 3066a or the FR 3066b to obtain information about volumes and changes in volumes that may occur in the two years between triennial surveys from a subset of respondents. The FR 3066d data may be collected from networks, processors, and issuers in order to update the volume of major electronic payment instruments such as credit cards and prepaid cards, and emerging payment instruments. The surveys may include parts of the FR 3066a and b, or may involve new sections if new payment system developments emerge.
