

REPORTING INSTRUCTIONS FOR RESIDENTIAL BUILDINGS CONTAINING 2 OR MORE HOUSING UNITS

We estimate this survey will take an average of 30 minutes to complete for your first month of reporting and 10 minutes for subsequent months, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: ECON Survey Comments 0607-0153, U.S. Census Bureau, 4600 Silver Hill Road, Room EMD-6K064, Washington, DC 20233. You may e-mail comments to ECON.Survey.Comments@census.gov. Be sure to use ECON Survey Comments 0607-0153 as the subject.

► **Section A – PROJECT IDENTIFICATION**

Correct any information in items 1 and 2 if necessary.

For the project described in item 1 to be eligible for this survey, it must be privately owned **during construction** and involve the erection of a new residential building(s) containing 2 or more housing units. If the project is government owned during construction or involves only remodeling, maintenance or repairs, please note so in item 9, Remarks, complete item 10, and return the form.

If the project description does not include all the buildings and units being worked on at this site, please change the description to include them.

Exclude: Single-family homes/townhomes where: (1) each unit is separated from adjoining units by a wall that extends from ground to roof, (2) no unit is above or below another unit, and (3) each unit has separate heating and separate utility meters. If all of the units meet this definition of single-family homes/townhomes please note so in item 9, Remarks, complete item 10, and return the form.

► **Section B – OWNERSHIP, START AND PROJECTED COMPLETION DATES**

Item 3 – As noted, this survey involves projects that are privately owned **during the construction phase**. If the project is government owned, check the appropriate box, note in item 9, Remarks, complete item 10, and return the form.

Item 4a – The start date is defined as the date that actual construction work first began on the project described in item 1. If the project is to start at some future date, please enter the date, complete item 10, and return the form.

Item 4b – The projected completion date is defined as the date the project described in item 1 is expected to be completed.

► **Section C – COST ESTIMATES**

"Construction," for purposes of this survey, is defined as the building of new fixed structures. This **INCLUDES**:

- a. The erecting of the structure.
- b. Mechanical and electrical installations – Plumbing, heating, electrical work, elevators, escalators, central air-conditioning, boilers, and other similar building services.
- c. Outside construction – Clearing and grading of undeveloped land and the fixed, auxiliary structures which the project owner builds within the property lines to serve the major building. Also, sidewalks, roadways, parking lots, utility connections, outdoor lighting, swimming pools, and all similar auxiliary facilities.

Item 5a – Estimate the total amount to be paid to construction contractors by the project owner for work done on this project.

Item 5b – Estimate the total cost of labor by the owner's construction employees working on the project, including supervisory personnel assigned to the project. Include the total cost of all construction materials supplied by the owner, including those the owner expects to supply to the contractor for installation in this project.

Item 5c – Sum of values reported in items 5a and 5b. **This is the value to be reported in item 7**, monthly value of construction put in place.

Item 6 – Estimate the total amount of fees which the project owner has paid or will pay to architectural and engineering firms for work on this project. Also estimate the total cost of all other construction items which the project owner will allocate on his books to this project. Include the project owner's overhead and office costs, interest and taxes paid during construction, the cost of design work by the owner's staff, and other miscellaneous construction fees and costs allocated on the owner's books. **DO NOT** include the cost of land and furniture and furnishings.

► **Section D – MONTHLY CONSTRUCTION PROGRESS REPORT**

Item 7 – Report the monthly value of construction put in place for **the costs associated with item 5c**. These costs include:

- a. Work done by contractors and/or subcontractors, including any retainage being withheld until the work is complete.
- b. The cost of any materials installed which were provided by the owner.
- c. The work done by the project owner's own construction employees, including supervisory personnel assigned to this project.

Initially, report monthly values from the start month to the most current month shown in item 7. Then each month, when the form is returned to you, report for the month shown and any revisions which you might have. When entering monthly data, **be sure to report the costs in the month in which the work was done rather than in the month in which payment was made.**

If the contractor's bills are for periods other than monthly, estimate a monthly amount. In each month where there is no construction, enter a zero.

Item 8 – **If construction is complete except for some minor work or retainage (up to 3 percent of item 5c)**, you may stop reporting on this project by indicating in item 9, Remarks, and entering the completion date in item 8.

► **Section E – PERSON TO CONTACT REGARDING THIS SURVEY**

Item 10 – Enter the requested information for the person who can answer questions about this survey.
