

Appendix II—Scope of the Investigation

The products covered by this investigation are certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. The products covered include coils that have a width of 12.7 mm or greater, regardless of form of coil (*e.g.*, in successively superimposed layers, spirally oscillating, etc.). The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness less than 4.75 mm and a width that is 12.7 mm or greater and that measures at least 10 times the thickness. The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness of 4.75 mm or more and a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been “worked after rolling” (*e.g.*, products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

(1) Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above, and

(2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, etc.), the measurement at its greatest width or thickness applies.

Steel products included in the scope of this investigation are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or

- 0.30 percent of tungsten (also called wolfram), or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

For example, specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels and high strength low alloy (HSLA) steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

Furthermore, this scope also includes Advanced High Strength Steels (AHSS) and Ultra High Strength Steels (UHSS), both of which are considered high tensile strength and high elongation steels.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of this investigation unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of this investigation:

- Flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead (“terne plate”), or both chromium and chromium oxides (“tin free steel”), whether or not painted, varnished or coated with plastics or other non-metallic substances in addition to the metallic coating;
- Clad products in straight lengths of 4.7625 mm or more in composite thickness and of a width which exceeds 150 mm and measures at least twice the thickness; and
- Certain clad stainless flat-rolled products, which are three-layered corrosion-resistant flat-rolled steel products less than 4.75 mm in composite thickness that consist of a flat-rolled steel product clad on both sides with stainless steel in a 20%–60%–20% ratio.

The products subject to the investigation are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under item numbers: 7210.30.0030, 7210.30.0060, 7210.41.0000, 7210.49.0030,

7210.49.0091, 7210.49.0095, 7210.61.0000, 7210.69.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.6000, 7210.90.9000, 7212.20.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, and 7212.60.0000.

The products subject to the investigation may also enter under the following HTSUS item numbers:

7210.90.1000, 7215.90.1000, 7215.90.3000, 7215.90.5000, 7217.20.1500, 7217.30.1530, 7217.30.1560, 7217.90.1000, 7217.90.5030, 7217.90.5060, 7217.90.5090, 7225.91.0000, 7225.92.0000, 7225.99.0090, 7226.99.0110, 7226.99.0130, 7226.99.0180, 7228.60.6000, 7228.60.8000, and 7229.90.1000.

The HTSUS subheadings above are provided for convenience and customs purposes only. The written description of the scope of the investigation is dispositive.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Proposed Information Collection; Comment Request: Socioeconomics of Ocean Guardian Schools—An Office of the National Marine Sanctuaries Educational Program**

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before January 5, 2016.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be

directed to Dr. Danielle Schwarzmann, 301-713-7254 or danielle.schwarzmann@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection to provide benefit throughout the sanctuary system and specifically our sites that work with Ocean Guardian Schools. The National Ocean Service (NOS) proposes to collect information from parents and teachers about the attitudes and preferences and economic value they receive from being involved with an Ocean Guardian school.

Up-to-date socioeconomic data is needed to support the further development and improvement of Ocean Guardian Schools. These schools receive funding from the NOAA Office of Education and the Office of National Marine Sanctuaries. Schools may apply for funding up to five years. A number of schools have continued their Ocean Guardian School projects after the five years. From 2010–2015, the total funding received by 71 schools was \$544,315.

Although the costs and sources of funding are known, there is limited information known about the economic value participants place on this program and the economic value created by these schools and their many activities. Currently, there is no information available that provides estimates of the value of education programs like Ocean Guardian to parents and teachers. Ocean Guardian Schools receive funding to develop projects to help protect the ocean in the future and promote ocean conservation and stewardship. Projects include recycling, beach clean-up days, installing rain barrels, installing wildlife structures, composting, and energy reduction.

The types of data targeted for this collection are: Attitudes and preferences towards the projects and student involvement, importance of/satisfaction with the program and attributes of the program, extent of reach (are parents aware of their student's involvement and are they too learning about ocean stewardship), level of teacher, student, parent and administrative involvement, and teachers' and parents' willingness to pay. The primary focus for the survey will be to gather data on parents' and teachers' willingness to pay for this program. Specifically, researchers will collect data to determine the economic value teachers, administrators and parents place on this program. The information collected will help to inform Ocean Guardian Schools about areas for improvement and the value

that their programs create for the community.

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email of electronic forms, and mail and facsimile transmission of paper forms.

III. Data

OMB Control Number: 0648–XXXX.

Form Number: None.

Type of Review: Regular submission (request for a new information collection).

Affected Public: State, local and tribal government, business or other for-profit organizations; not-for-profit institutions; individuals or households.

Estimated Number of Respondents: 60 teachers/other faculty; 900 parents.

Estimated Time per Response: 45 minutes per survey for teachers/other faculty; 20 minutes per survey for parents.

Estimated Total Annual Burden Hours: 342.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 2, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-NK-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XE301

Western Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Western Pacific Fishery Management Council (Council) will convene a meeting of Habitat Areas of Particular Concern (HAPC) Working Group comprised of Fishery Ecosystem Plan Team members. The working group will explore and evaluate options in developing an HAPC designation process for the Western Pacific region.

DATES: The working group will meet on November 23, 2015. For specific times and agendas, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The HAPC working group meeting will be held at the Council office, 1164 Bishop Street, Suite 1400, Honolulu, HI 96813; telephone: (808) 522-8220. WebEx and teleconference facilities will be provided for the meeting. The teleconference numbers are: U.S. toll-free: 1-888-482-3560 or International Access: +1 647 723-3959, and Access Code: 5228220; The web conference can be accessed at <https://wprfmc.webex.com/join/info.wpcouncilnoaa.gov>.

FOR FURTHER INFORMATION CONTACT: Kitty M. Simonds, Executive Director, Western Pacific Regional Fishery Management Council; telephone: (808) 522-8220.

SUPPLEMENTARY INFORMATION: HAPC working group members will explore different process options for designating Habitat Areas of Particular Concern in the Western Pacific Region. The purpose of this meeting is to evaluate process options to be consolidated into a report to the Council's Fishery Ecosystem Plan Team. A public comment period will be provided. The order in which agenda items are addressed may change. The meetings will run as late as necessary to complete scheduled business.

Schedule and Agenda for the HAPC Working Group Meeting

November 23, 2015 2 p.m.±4 p.m.

1. Introductions
2. HAPC Process Options
3. Evaluation
4. Public Comment
