Breast Cancer In Young Women Survey

Form Approved
OMB No. 0920-xxxx
Exp. Date xx/xx/xxxx

Breast Cancer in Young Women Survey

(Encuesta de cáncer de mama en mujeres jóvenes)

Public reporting of this collection of information is estimated to average 22 to 24 minutes per response, including the time for reviewing instructions and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; A TTN: PRA (XXXX-XXXX).

La carga pública de notificación para esta recolección de información se calcula que promedia los 22 al 24 minutos por respuesta, lo que incluye el tiempo que se toma en dar las instrucciones, hacer búsquedas en fuentes de datos, recolectar y mantener los datos necesarios, y completar y revisar la recopilación de información. Una agencia no puede llevar a cabo ni patrocinar un estudio de recopilación de información y las personas no están obligadas a responder, a menos que se presente un número de control de OMB válido y vigente. Envíe comentarios sobre este cálculo de tiempo o sobre cualquier otro aspecto de esta recolección de información, incluidas sugerencias para reducir esta carga, a CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; A TTN: PRA (0920-xxxx).

Breast Cancer In Young Women Survey

Breast Cancer in Young Women Survey

Your participation in this survey is very important to us. Thank you for your participation.

The Federal government is interested in research on breast cancer care and treatment for young women. The Centers for Disease Control and Prevention (CDC) has contracted with the non-profit research company RTI International to conduct a survey called Breast Cancer in Young Women Survey.

The survey has questions about your insurance coverage, employment status, copayments/deductibles, and the care that you received during your breast cancer treatment. Your survey participation will help policy makers to improve the care and policies for young women diagnosed with breast cancer such as yourself.

It is your choice whether or not to do the survey. Your decision will not affect any of your health care benefits or services. Some survey questions related to your breast cancer experience may cause you distress and you do not have to answer questions that make you feel uncomfortable.

There is a small potential risk of loss of privacy but we have made every effort to limit this risk as all your personal information is viewed only by authorized research staff and are stored in password protected folders. RTI will keep the information that you provide private and secure to the extent permitted by law. RTI will report the results of this survey to CDC in an aggregated format that will not identify any individuals.

We estimate that this survey will take about **22 minutes** to complete.

If you have any questions or difficulty completing the survey, please call NAME toll-free at 1-877-XXX-XXXX, anytime from 9am to 5pm Eastern Standard Time. If you have any questions about your rights as a survey respondent, you may call RTI's Office of Research Protection toll-free at 1-866-214-2043.

Breast Cancer In Young Women Survey

Breast Cancer in Young Women Survey

Your participation in this survey is very important to us. Thank you for your participation.

The Federal government is interested in research on breast cancer care and treatment for young women. The Centers for Disease Control and Prevention (CDC) has contracted with the non-profit research company RTI International to conduct a survey called Breast Cancer in Young Women Survey. We have partnered with non-profit organizations, Living Beyond Breast Cancer and Young Survival Coalition to help finalize the survey questions and to reach out to potential participants.

The survey has questions about your insurance coverage, employment status, copayments/deductibles, and the care that you received during your breast cancer treatment. Your survey participation will help policy makers to improve the care and policies for young women diagnosed with breast cancer such as yourself.

It is your choice whether or not to do the survey. Your decision will not affect any of your health care benefits or services. Some survey questions related to your breast cancer experience may cause you distress and you do not have to answer questions that make you feel uncomfortable.

No information will be collected that could personally identify you, and RTI will report the results of this survey to CDC in an aggregated format.

We estimate that this survey will take about **24 minutes** to complete. Prior to the survey, we will ask 4 questions to confirm your eligibility.

If you have any questions or difficulty completing the survey, please call NAME toll-free at 1-877-XXX-XXXX, anytime from 9am to 5pm Eastern Standard Time. If you have any questions about your rights as a survey respondent, you may call RTI's Office of Research Protection toll-free at 1-866-214-2043.
