NAME  
ADDRESS  
CITY, STATE ZIP

Dear NAME:

The Federal government is interested in research on breast cancer care and treatment for young women. The Centers for Disease Control and Prevention (CDC) has contracted with the non-profit research company RTI International to conduct a survey called **Breast Cancer in Young Women Survey**. Recently, we sent you a copy of this survey to complete. If you have already responded, we thank you for your feedback. If you have not had time to respond or you have lost the survey, please take about 25 minutes to complete the enclosed survey now.

**It is your choice whether or not to do the survey. Your decision will not affect any of your health care benefits or services.** There is a small potential risk of loss of privacy but we have made every effort to limit this risk as all your personal information is viewed only by authorized research staff and are stored in password protected folders. RTI will keep the information that you provide private and secure to the extent permitted by law. Some survey questions related to your breast cancer experience may cause you distress and you do not have to answer questions that make you feel uncomfortable. Your survey participation will help us to improve the care and policies for young women diagnosed with breast cancer such as yourself.

If you choose to complete and return the survey, we will send you a **\$10 gift card** to thank you for your time.

If you have any questions, please call NAME toll-free at 1-877-XXX-XXXX, anytime from 9am to 5pm Eastern Standard Time. If you have any questions about your rights as a survey respondent, you may call RTI's Office of Research Protection toll-free at 1-866-214-2043.

Thank you in advance for your participation.

Sincerely,

NAME
