Registration Questions

Your Attendance

***Please select your attendee type:**

- a. Scientist: I am a staff scientist and/or I have completed my post-doctoral training. I continue to perform experiments as a researcher on a federally-funded BRAIN project or BRAIN-related research project with another funding source.
- b. Trainee: I am a post-doctoral trainee or earlier stage in my education and I may perform research for a federally-funded BRAIN project or BRAIN-related research project with another funding source.
- c. Other

***Please tell us your current position:**

- 1. Undergraduate
- 2. Post-baccalaureate (have undergraduate degree and not currently enrolled in school)
- 3. Graduate student (MS/MA, MPH, DVM, MD, PhD, combo)
- 4. Postdoctoral fellow/Clinical fellow
- Other (please specify)

***If you plan to transition to the next stage of your scientific career in the coming year, what is your targeted next step:**

- 1. I do not plan to transition to the next stage in the coming year.
- 2. Graduate student
- 3. Postdoctoral trainee
- 4. Staff scientist position
- 5. Academic faculty position
- 6. Non-academic research position (e.g. industry, small business)
- 7. Non-research science-related position (e.g. science communication, policy)
- 8. I plan to transition within the next year, but I am undecided about my career path.
- Other (please specify):

***How many times have you previously attended the annual BRAIN Initiative PI Meeting?**

- 0
- 1 - 2
- 3+

Registration Questions

Your Research Field or Discipline

Had you worked in the field of Neuroscience prior to participating in the BRAIN Initiative?

- Yes
 No

Aside from Neuroscience, what would you currently consider to be your primary field of research?

- i. Biochemistry or Molecular and Cellular Biology
 ii. Bioinformatics, Statistics, or Applied Mathematics
 iii. Chemistry
 iv. Clinical Sciences
 v. Computational Biology
 vi. Computer Science
 vii. Engineering
 viii. Ethics, Philosophy, or Law
 ix. Genetics/Genomics
 x. Neuroimaging/Radiology
 xi. Physiology or Systems Biology
 xii. Physics
 xiii. Psychology or Behavioral Sciences
 Other (please specify):

Registration Questions

Your Project Resources

We are interested in learning more about the resources that you have produced as a result of your BRAIN project(s). Please provide website URLs, a short title/description, and the specific BRAIN project for which the resource was developed by using the form below. These URLs may be added to the NIH BRAIN Initiative website to facilitate distribution among the research community.

Do you receive federal funding through the BRAIN Initiative?

Yes

No

Please indicate the number of BRAIN projects with which you are affiliated. You will have the opportunity to provide information on each project:

1 project

2 projects

3 projects

4 projects

5 projects

i. Please select your funding source from the drop down:

ii. Please provide the project/grant number of your BRAIN project:

iii. Please provide the URL for any publicly available data (e.g. in a data repository):

iv. Please provide the URL for any available software:

v. Please provide the URL for any available training materials:

vi. Please provide the URL for any reagents/animals shared in a repository:

vii. Please provide the URL for any other associated resources:

FIFTH ANNUAL BRAIN Initiative Investigators Meeting

[NIH BRAIN Initiative Home](#)

[Contact NINDS Office](#)

Registration is almost complete! All BRAIN Initiative projects must be represented by ONE (1) poster during the poster sessions, which requires ONE (1) associated abstract submission. Please note that BRAIN-funded F32 fellowship recipients are expected to submit an abstract and present a poster on their work as the Principle Investigator of the project.

Trainee Travel Award Eligibility: F32 fellowship recipients and recipients of BRAIN Diversity Supplements are not eligible for the travel award.

Note: If you are interested in submitting a Symposium proposal, Research Highlight Talk, Trainee Travel Award, or general poster abstract, you can access your registration record at any time and change the type of your submission or select another category for submission.

Submission deadlines:

- Symposia Submissions – November 30, 2018
- Research Highlight Talk Submissions – January 31, 2019
- Trainee Travel Award Submissions – January 31, 2019
- General Poster Abstract Submissions – March 11, 2019

NINDS Participant

I would like to complete a symposium proposal and I am prepared to be the (co-) organizer of this symposium if it is selected.

I would like to complete the abstract submission on behalf of (one of) my BRAIN Initiative project, and I DO want it to be considered for a Research Highlight Talk or Trainee Travel Award. Note: Trainees are expected to submit their own abstract that relates to a broader BRAIN Initiative project. Trainee abstracts do NOT supplant the overall project abstract or poster. Eligible trainees cannot have advanced beyond the postdoctoral stage of their education.

I would like to complete the abstract submission on behalf of (one of) my BRAIN Initiative project, but we do NOT want this abstract to be considered for a Research Highlight Talk or Trainee Travel Award.

NO, I will NOT be completing the abstract submission process.

2019 BRAIN Initiative® Investigators Meeting Research Highlight Talk and Trainee Travel Award Abstract Submission System

OMB# 0925-0740 Exp Date: 05/2019

Public reporting burden for this collection of information is estimated to vary from 10 minutes to 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.

Final Abstract Submission Deadline: January 31, 2019

[Welcome, Pam](#) | [Log Out](#)

Each federally-funded BRAIN project team, including BRAIN-funded F32 fellowship recipients, is expected to submit one corresponding abstract that meets the formatting and requirements below:

- It is NOT recommended that Internet Explorer be used during submission process.
- Abstracts address one funded BRAIN project.
- Recycled content from scientific meetings (e.g., SfN) are not appropriate unless they contain late-breaking results directly from the funded project (e.g., for projects entering their second year of funding).
- Abstracts may NOT contain images, graphics, and/or figures.
- Abstracts are limited to 2200 characters or less (including spaces).
- Abstracts are to be pasted as plain text into a text box.

Abstracts will be used to create an online abstract book and poster assignments for the meeting. This abstract book will be made public.

Research-Highlight Talks are anticipated to be ~20 minute presentations, plus 5-10 minutes for question/answer. Speakers will be chosen by federal staff after review of submitted abstracts. Selected speakers will be notified by February 25, 2019. Selected speakers are still expected to have a poster of their project presented, in addition to the Research Highlight Talk.

Trainees are encouraged to submit an additional abstract of their own if they wish to be considered for a travel award, which will cover up to \$1000 travel costs. The additional abstract must convey the trainee's specific contribution to their mentor's BRAIN award. Trainees are defined as high school, undergraduate, graduate, and medical school students, as well as postdoctoral fellows and medical residents. Trainee travel award recipients will be selected by federal staff after review of submitted abstracts, and if selected, will be invited to present their own poster at the meeting. The trainee's abstract/poster does not replace their mentor's abstract/poster. There is no limit to the number of trainees per lab that can submit unique abstracts for travel awards. Even if not selected for a travel award/poster presentation, all trainees are encouraged to attend the meeting. Please note that BRAIN-funded F32 fellowship recipients are expected to submit an abstract and present a poster on their work as the Principle Investigator of the project. F32 fellowship recipients and recipients of BRAIN Diversity Supplements are not eligible for the travel award.

IMPORTANT SUBMISSION DEADLINE

Consideration for Research Highlight Talks and Trainee Travel Award Abstracts: **January 31, 2019**

Please note, you will be able to submit multiple abstracts.

First time submitters will need to create an account. After clicking on the "Submit Abstract" button below, select the "Need to create an account?" link below the Log-in button.

Submit Abstract

2019 BRAIN Initiative® Investigators Meeting Research Highlight Talk and Trainee Travel Award Abstract Submission System

Diversity Statement: A growing body of [research](#) focused on the benefits of diversity shows that teams comprised of people from a variety of backgrounds and experiences produce better and more innovative products and ideas than a homogenous team. The National Institutes of Health, along with the other federal and non-federal organizations participating in the U.S. BRAIN Initiative, recognizes the benefits of a diverse workforce on scientific discovery, with a particular focus on enhancing the pool of individuals from backgrounds underrepresented in biomedical research. Accordingly, we seek to nurture appropriate representation of women, under-represented minorities, and/or persons with disabilities as poster presenters and invited speakers in relation to their participation in the annual BRAIN Initiative Investigators Meeting.

Abstracts will be used to create an online abstract book and poster assignments for the meeting. This abstract book will be made public.

Step 3: Enter Your Submission Details

Please provide a brief abstract of the work you intend to present in your poster. This should be a written description of less than 2200 characters and should only include plain text with no additional information (ex. symbols, graphs, charts, pictures, etc).

2,200 characters remaining

Research-Highlight Talks are anticipated to be ~20 minute presentations, plus 5-10 minutes for question/answer. Speakers will be chosen by federal staff after review of submitted abstracts. Selected speakers will be notified by February 25, 2019. Selected speakers are still expected to have a poster of their project presented, in addition to the Research Highlight Talk.

Trainees are encouraged to submit an additional abstract of their own if they wish to be considered for a travel award, which will cover up to \$1000 travel costs. The additional abstract must convey the trainee's specific contribution to their mentor's BRAIN award. Trainees are defined as high school, undergraduate, graduate, and medical school students, as well as postdoctoral fellows and medical residents. Trainee travel award recipients will be selected by federal staff after review of submitted abstracts, and if selected, will be invited to present their own poster at the meeting. The trainee's abstract/poster does not replace their mentor's abstract/poster. There is no limit to the number of trainees per lab that can submit unique abstracts for travel awards. Even if not selected for a travel award/poster presentation, all trainees are encouraged to attend the meeting. Please note that BRAIN-funded F32 fellowship recipients are expected to submit an abstract and present a poster on their work as the Principle Investigator of the project. F32 fellowship recipients and recipients of BRAIN Diversity Supplements are not eligible for the travel award.

* Select Topic:

- 1. **Cells and Circuits**
- 2. **Recording, Modulating, and Imaging Technologies**
- 3. **Understanding the Brain**
- 4. **For Trainees ONLY: Consider for travel award**
