YEARS Web-based Staff Survey
Survey for Program Directors/Administrators

Youth Education and Relationship Services Staff Survey

Consent

Child Trends, an independent research organization, is contracting with the Administration for Children and Families in the U.S. Department of Health and Human Services to conduct a research study to describe Office of Family Assistance (OFA)-funded youth-serving Healthy Marriage and Relationship Education (HMRE) programs, including participant and partner characteristics, and program implementation characteristics. We are surveying program directors/administrators and facilitators. This form has information to help you decide if you want to respond to the survey.

If you agree, you will participate in a 20 minute, web-based survey. During the survey, you will answer questions about how your organization provides HMRE services to youth aged 14-24. The survey will ask questions about the youth served, the program staff, implementation practices, and program and organizational characteristics.

Risks associated with participation include potential loss of privacy. To protect your or your organization's privacy, your name or your organization's name will not be used in reports and your individual responses will not be shown to anyone outside of the study team. To help ensure respondents' privacy, participants will be provided a separate link to give their contact information at the end of the survey so that they can receive their gift card.

This collection of information is voluntary and will be used to better understand and improve HMRE programs. You can choose to stop the survey at any point. If after completing the survey you no longer wish to participate, you may contact Shelby Hickman at (240) 223-9341 to have your organization's responses removed from the study.

All information will be kept private to the extent permitted by law. Study reports will describe findings in general terms and will not include any names or any other identifiable information. The Office of Family Assistance will not know which organizations participated in the survey, and your organization's participation will not affect current or future funding from the Office of Family Assistance.

There are no costs associated with the survey other than the time you spend completing the survey. You will not benefit personally from being involved in the study.

To thank you for your participation, you will receive a \$20 Visa gift card.

If you have any comments or concerns about participating in this study, you can contact Mindy Scott, Study Director, at 240-223-9324. If you wish, you may also contact the Child Trends Institutional Review Board by calling 1-855-288-3506, by emailing irbparticipant@childtrends.org or by writing to 7315 Wisconsin Avenue, Suite 1200W, Bethesda, MD 20814.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is XXXX-XXXX and it expires on XX/XX/XXXX.

If a participant does not wish to participate, they

If the participant wishes to participate, they are directed to the beginning of the survey:

Youth Education and Relationship Services Staff Survey

Placeholder for OMB # and Expiration Date (OMB Control # 0970 – XXXX and Expiration Date: XX/XX/XXXX)

Thank you very much for agreeing to participate in this survey. The Office of Planning, Research and Evaluation (OPRE) within the Administration for Children and Families (ACF) is working on a project to learn more about the services that Healthy Marriage and Relationship Education (HMRE) programs provide to youth between the ages of 14 and 24.

In this survey, we'd like to ask you about the different services and components of the Office of Family Assistance (OFA)-funded HMRE program you implemented between October 2014 and September 2015. We realize that you may not currently be implementing this program, so when answering questions please reflect on the past fiscal year of implementation under your previous OFA grant (October 2014-September 2015). The electronic format of this survey will help with rapid dissemination, collection, and data management while attempting to reduce costs and burden on you, the participant. The information you provide about your program and how your program operates will help us to better understand the services that federally-funded HMRE programs are providing to youth and the populations the programs are reaching, with the intent of informing future efforts to improve HMRE programs serving youth.

We expect that the survey will take about 20 minutes to complete. Please remember that your participation is completely voluntary. If there is a question that you do not wish to answer, feel free to skip the question and move on to the next question. Additionally, you may terminate the survey at any time. Everything you tell us today will be kept private to the extent permitted by the law. Any identifying information (program name, for example) will be removed and your answers will be combined with those of others.

Staff Characteristics

For the questions below, we would like you to think about the facilitators who delivered HMRE programs to youth ages 14-24 between October 2014 and September 2015. Facilitators are defined as staff who provided services directly to youth during this time.

11. How many program facilitators were implementing the program with youth ages 14-24 between October 2014 and September 2015? *(Your best estimate is fine)*

12. Who were the primary facilitators of the program? *(Check all that apply)*

- On-site staff (including teachers)
- Staff from a different organization
- Near-peers or peers

13. Now please tell us how much you agree or disagree with the following statement.

	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree
The program hired facilitators with similar characteristics and/or experiences as the youth being served	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
