SUPPLEMENTARY INFORMATION:

I. Abstract

The Alaska National Interest Lands Conservation Act (ANILCA) and regulations in the Code of Federal Regulations (CFR) at 50 CFR 100 and 36 CFR 242 require that persons engaged in taking fish, shellfish, and wildlife on public lands in Alaska for subsistence uses must apply for and obtain a permit to do so and comply with reporting provisions of that permit. We use the following forms to collect information from qualified rural residents for subsistence harvest:

(1) FWS Form 3-2326 (Federal Subsistence Hunt Application, Permit, and Report).

(2) FWS Form 3–2327 (Designated Hunter Permit Application, Permit, and Report).

(3) FWS Form 3–2328 (Federal Subsistence Fishing Application, Permit, and Report).

(4) FWS Form 3–2378 (Designated Fishing Permit Application, Permit, and Report).

(5) FWS Form 3–2379 (Federal Subsistence Customary Trade Recordkeeping Form).

We use the information collected to evaluate:

- Eligibility of applicant.
- Subsistence harvest success.
- Effectiveness of season lengths, harvest quotas, and harvest restrictions.
- Hunting patterns and practices.
- Hunter use.

The Federal Subsistence Board uses the harvest data, along with other information, to set future season dates and harvest limits for Federal subsistence resource users. These seasons and harvest limits are set to meet the needs of subsistence users without adversely impacting the health of existing animal populations.

Also included in this ICR are three forms associated with recruitment and selection of members for regional advisory councils.

(1) FWS Form 3–2321 (Federal Subsistence Regional Advisory Council Membership Application/Nomination).

(2) FWS Form 3–2322 (Regional Advisory Council Candidate Interview).

(3) FWS Form 3–2323 (Regional Advisory Council Reference/Key Contact Interview).

The member selection process begins with the information that we collect on the application. Ten interagency review panels interview applicants and nominees, their references, and regional key contacts. These contacts are all based on the information that the applicant provides on the application form. The information that we collect through the application form and subsequent interviews is the basis of the Federal Subsistence Board’s recommendations to the Secretaries of the Interior and Agriculture for appointment and reappointment of council members.

In addition to the above forms, regulations at 50 CFR 100 and 36 CFR 242 contain requirements for the collection of information. We collect nonform information on:

- (1) Repeal of Federal subsistence rules and regulations (50 CFR 100.14 and 36 CFR 242.14).

(2) Proposed changes to Federal subsistence regulations (50 CFR 100.18 and 36 CFR 242.18).

(3) Special action requests (50 CFR 100.19 and 36 CFR 242.19).

(4) Requests for reconsideration (50 CFR 100.20 and 36 CFR 242.20).

(5) Requests for permits and reports, such as traditional religious/cultural/educational permits, fishwheel permits, fyke net permits, and under-ice permits (50 CFR 100.25–27 and 36 CFR 242.25–27).

Notice of Inventory Completion: Pima County Office of the Medical Examiner, Tucson, AZ

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Pima County Office of the Medical Examiner (PCOME) has completed an inventory of human remains, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, and has determined that there is no cultural affiliation between the human remains and any present-day Indian tribes or Native Hawaiian organizations. Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to the PCOME. If no additional requestors come forward, transfer of control of the human remains to the Indian tribes or Native Hawaiian organizations stated in this notice may proceed.

DATES: Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to the PCOME at the address in this notice by November 16, 2015.

ADDRESSES: Dr. Bruce Anderson, Forensic Anthropologist, Pima County Office of the Medical Examiner, 2825 E District Street, Tucson, AZ 85714, telephone (520) 724-8600, email bruce.anderson@pima.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of

the PCOME, Tucson, AZ. The human remains were removed from an unknown location within Navajo County, AZ.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the PCOME professional staff, in consultation with representatives of Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Fort McDowell Yavapai Nation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Navajo Nation, Arizona, New Mexico & Utah; Pascua Yaqui Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; San Carlos Apache Tribe of the San Carlos Reservation, Arizona; Tohono O'odham Nation of Arizona; White Mountain Apache Tribe of the Fort Apache Reservation, Arizona; and the Zuni Tribe of the Zuni Reservation, New Mexico.

History and Description of the Remains

In 1989, human remains representing, at minimum, one individual were removed from an unknown location in Navajo County, AZ. The human remains were found by hikers and were recovered by the Navajo Department of Public Safety (which is analogous to the current Navajo Police Department), on an unknown date. On October 17, 1989, the human remains were transferred to the PCOME, which were then analyzed by Dr. Walter H. Birkby, a forensic anthropologist at the PCOME. The human remains were designated Forensic Anthropology case FA#89-038, which also indicates that the medical examiners at the PCOME had no involvement in this particular case. According to Dr. Birkby, the human remains were of an adult female of Native American ancestry and likely historic or prehistoric. The human remains have since resided within the PCOME as an unidentified case, and were rediscovered by Dr. Bruce Anderson, the current forensic anthropologist at the PCOME, in 2012. In 2012, an inventory was made but no analysis was done. No known

individuals were identified and no associated funerary objects are present.

Determinations Made by the PCOME

Officials of the PCOME have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice may be Native American based on possible prehistoric condition.
- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian tribe.
- Pursuant to 25 U.S.C. 3001(15), the land from which the Native American human remains were removed is the tribal land of Navajo Nation, Arizona, New Mexico & Utah.
- According to final judgments of the Indian Claims Commission or the Court of Federal Claims, the land from which the Native American human remains were removed is the aboriginal land of Hopi Tribe of Arizona; Navajo Nation of Arizona, New Mexico & Utah; and Zuni Tribe of the Zuni Reservation, New Mexico.
- Treaties, Acts of Congress, or Executive Orders, indicate that the land from which the Native American human remains were removed is the aboriginal land of Hopi Tribe of Arizona; Navajo Nation of Arizona, New Mexico & Utah; and Zuni Tribe of the Zuni Reservation, New Mexico.
- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains may be to Hopi Tribe of Arizona; Navajo Nation, Arizona, New Mexico & Utah; and Zuni Tribe of the Zuni Reservation, New Mexico.

Additional Requestors and Disposition

Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Dr. Bruce Anderson, Forensic Anthropologist, Pima County Office of the Medical Examiner, 2825 E District Street, Tucson, AZ 85714, telephone (520) 724-8600, email bruce.anderson@pima.gov, by November 16, 2015. After that date, if no additional requestors have come forward, transfer of control of the human remains to Hopi Tribe of Arizona; Navajo Nation, Arizona, New Mexico & Utah; and Zuni Tribe of the Zuni Reservation, New Mexico may proceed.
